Re: Annual Asbestos Notification to Building Occupants and Their Legal Guardians

Dear Ms. Susin,

Please communicate this information to all building occupants and their legal guardians (i.e. post copy on school; website, news-flyer, bulletin boards, student registration kiosk, etc.).

Our records indicate that the following asbestos-containing material was removed from the campus of DeLaura Middle School during the past year (July 1, 2025 to June 30, 2026):

Homogenous Area Material ID #	Material Description	Location	Reason for Abatement	Approx. Quantity
HA-080 HA-083 HA-085 HA-087 HA-088 HA-090	Soft white & gray window and door frame caulk	Bldgs. 2, 4, 5, 6 & 7 exterior door frames	This material that remained in good condition was purposefully removed as part of a scheduled repair/renovation project.	592 linear ft

Background Information

The United States Environmental Protection Agency (EPA) requires all accredited school districts to provide building occupants with a yearly correspondence describing any/all asbestos materials removed from each school during the past year.

The EPA Asbestos Hazard Emergency Response Act (AHERA) of 1986 required an asbestos inspection of each school facility nationwide. This inspection was completed in 1988. The scope of the survey included sampling building materials that might contain asbestos, assessing the condition of the materials, performing laboratory analysis of each sample, and writing a comprehensive report called an *Asbestos Management Plan*.

The Management Plan document and subsequent Three-year Reinspection documents are on file at the school Administration office. These documents are available to the public for review.

Do not hesitate to call or email me with any related questions.

Sincerely,
