Leadership Position: \_\_\_\_\_

*Holding a leadership position is a requirement for the **Diploma of Distinction**. Leadership positions **must involve** a student in a position of organizational authority relative to other students. It does **NOT** mean you must be a class president or even involved through a school club. If a student comes up with a project, implements a plan, and guides a handful of other students in the completion of that project, that is leadership. This would include SGA officerships, club officerships, sport captaincies, or any other position in which the individual has directly had others look to them for guidance and direction in the accomplishing of a task. For athletic managers, starting with the class of 2023, must serve in that capacity for two years. Verify with your sponsor before agreeing to serve in the position that it is a leadership position.*
