#WhatWillYouCreate?

What a wonderful community of learners we have in our classrooms at Holland! We are so excited to help our students learn and grow!

We would like to put technologies in the hands of our elementary students that one day they will use in real life scenarios. As our school is located in the backyard of the space industry, we want to start exposing our students to those potential possible lifelong opportunities.

We are very excited to have our students learn to build 3D models in our classrooms. 3Doodlers are the perfect tool for young children to begin to learn 3D printing techniques. Right now, 3Doodlers Company is matching EVERY donation – we only need \$326 to purchase a classroom set of 3D pens – AMAZING!!

We have registered our school on Donors Choose, an amazing website, where individuals can contribute to public schools. Throughout the coming year, requests for resources that will help make your child's time at Holland and beyond even more engaging, dynamic and enriching, will be added to this page. While one teacher is writing the requests, the materials/supplies are for ALL Holland Hornets and will be housed in our new STEAM lab!

Please spread the word about our Donors Choose page (and contribute if you can)! Thank you so much for helping us spread the word! <https://www.donorschoose.org/classroom/1798670>
