

Summer Reads for Middle and High School

Brevard Public Schools' Suggested Books for Leisure Reading

Summer provides many opportunities for students to enjoy unforgettable books. The intent of summer reading is to encourage students to pursue reading for enjoyment and encourage a habit of life-long reading. As our students and their parents make their way through the summer, we offer the selected titles and websites below for your consideration.

This list includes a wide variety of books that will appeal to the interests and maturity levels of many students. Parents are encouraged to review book selections with their children in order to help them make appropriate choices.

It is important that students continue to read while school is not in session. We invite you to turn off the television and open some of these titles and engage in reading during the summer months. We hope that, no matter where you are this summer, your reading experience will bring personal enjoyment and growth.
