SAC funds – around \$2000.00 –

CSAP – teacher can turn it down. This goes back to school. That’s how we got money. \$2282.28

The district allocated \$920.00 toward SAC

We are in desperate need of two-way radios. Explained the need for two-way radios – assistants and teachers. We want to put more walkies in hands to help with the safety of our students.

In order for us to spend this year, we are voting to approve, \$350.00 each. New antennas and new backs are purchased for 10.00 or 15.00 each. We are voting to use this year's money for walkie talkies/Two-Way radios and if we **can use any other funds that are added this year for two-way radios and materials. It is a digital two-way radio, not a walkie talkie. Submersible and dust proof.**

Purpose of developing and implementing School Improvement Plans. Safety is a part of our school improvement plan.

12 votes yes.

Mrs. Abreu asked how many we would we like to have overall. We would like to have 2 per grade level and all the IA's.

Next SAC Meeting Date – Oct 31 – all agreed.
