

Car Loop Procedures

I Would Like To Go Through The Car Loop and Drop My Child Off:

1. Prior to entering the loop, you must take a deep breath and know that you must be patient.
2. Enter as indicated from Wingate.
3. Follow the driveway through the loop and proceed to the front of the school.
4. You must pull all the way to the next available spot before you drop your child off in the front of the school. If everyone tries to drop their child directly in front of the entrance gate it will take much longer to get everyone through the loop. I will have supervision to assure your child gets to class safely. After your child exits, you will follow the car in front of you as you exit. You may not change lanes in the loop.
5. There will be **NO** children dropped off on either side of the building as the gates on one side of the building will be locked and there will be no supervision. The parking lot beside the kindergarten area is for those parents who wish to park and walk their children to class. No students may be dropped off in that area.
6. After you drop your child off, you will follow the car in front of you and proceed through the loop and back out to Wingate as indicated on the map. Changing lanes in the car loop is not allowed for safety reasons.

I Would Like to Park and Walk My Child To Class:

1. There will be no left turn as you enter from the 7:30-8:00 and 2:00-2:30.
2. You will proceed through the car loop as indicated above to access the parking area. Stay in the left lane as that is the lane that will go straight to the parking lot.
3. It will be easier for you to get in and out of parking if you park in the parking lot on the west side of the building (past the kindergarten building). You must escort your child through the gate if you park. Children may not cross the parking lot unescorted for safety reasons.
