Dear Roosevelt Families,

Hope this newsletter finds everyone in a much more settled space than last Friday. We are thankful to have your children back in school and eager to learn.

We had a wonderful turn out for Walk to School Day this past Wednesday. A big thank you to Kim Smith, the Education & Safety Coordinator for Space Coast Transportation Planning Organization for her continued support. We would also like to congratulate her on her retirement. Brevard County will miss her leadership and contributions.

Impact Aid forms should have been turned into your child's teacher by now. We need 100% response and still have a little way to go. Please reach out to the front office if you need a new form.

Have a wonderful weekend!

Kathy Lott

## Red Ribbon Week

More to come from Dr. Anderson!

Thursday, October 18, 2022

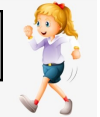

ESOL Teachers currently  
out of Compliance:  
- Amy Wilson

### COACHES CORNER

A special shout out to Mrs. Dougherty for the flower arrangement for Kim Smith our TPO coordinator that is retiring. I also want to thank our Cafeteria Manager, Mr. Devin, for making such a great breakfast for the Police & TPO representatives. Bethann Parmer you are appreciated for setting up the cafeteria so that I could walk with everyone!

The winners of the Walk to School posters are:

- 1<sup>st</sup> Place Eliza Neff
- 2<sup>nd</sup> - Samantha Stagg
- 3<sup>rd</sup> - Kenly Goines

Thank you to all the students who participated! You all are winners for your hard work.

Thanks to all who participated!

### Let's Create a Friends and Family Board!

Dear Families,

To help build our school community, we would like to create a Friends and Family Board to display photos. Healthy family connections bind us together and help us feel a part of something greater than ourselves. The Friends and Family Board will be a visual representation of our human connections. It includes important family members and friends with the focus on **FACES**, not activities.

Please send in a photo, no larger than 4x6, by Friday, October 14, 2022

This photo will remain on display in our school building. We are excited to see the children share their pictures. Thank you for your support!

Wishing you well,  
Roosevelt faculty and staff

## Head Lice 101: THE BASICS

Head Lice (*pediculus humanus capitis*) are insects found on heads of people. Head lice live only on humans. They live on the hairs of the head especially behind the ears and back of the head. They cannot fly or jump but only crawl. Head lice are not a health hazard. They do not spread disease. Head lice move from one person's head to another in the following ways: head to head contact, sharing hair brushes, combs, hats, towels, clothing or bedding with someone who has lice. To avoid head lice from spreading, teach children not to touch or play with each other's hair. They should also not share combs, brushes, pillows, hats, towels, coats or other clothing. Following these simple rules will greatly reduce the spread of head lice. Head lice are treatable. Various shampoos (pediculicides) are available over the counter without a doctor's order. Directions need to be followed according to individual products. Combs and hair-brushes should be soaked in hot water for 5 minutes or washed with lice shampoo. Disinfecting furniture and insecticide sprays are not necessary or recommended.

For more information visit: [www.cdc.gov](http://www.cdc.gov).

**Mission** - To serve every student with excellence as the standard.  
**Vision** - Brevard Public Schools will serve our community and enhance students' lives by delivering the highest quality education in a culture of dedication, collaboration, & learning.
