Parents and students, the 2024-25 athletic packet is now available on our school's athletic webpage. In order to participate in summer workouts and athletic competition next school year, this packet would need to be completed and approved by the school. Everything is to be completed on-line using the Athletic Clearance link found on our website. No physical paperwork is to be dropped off at the front office. Please make sure that you use the updated forms provided on the site. The NFHS course certificates must have the student's name on them, not a parent/guardian name. Please be sure to not leave off any signatures required prior to submitting your packets on-line. Email Athletic Director, Steve Slentz if you have any questions.

Who We Are
The Pink Team is an inclusive, fun, local competitive robotics team based in the Space Coast. Founded in 1998, the team strives to foster a learning environment where students can reach new heights.

Our Team
Opportunities at Every Corner
Many people involved in FIRST Robotics have opportunities for scholarships and other awards. Hours on the team also count towards Bright Futures Hours!

A Place For Everybody
This team isn't just about building robots! Anyone, regardless of their interests, can find a place on the team.

No Experience Needed
This is open to students of all experience levels- everything is taught from the ground-up on this team, by experienced students and industry professionals.

What We Do
Over a 6-week season in the spring, students design, build, and test a competitive, innovative robot to bring to FIRST Robotics Competitions held all over the world. Students learn valuable technical skills while fostering collaboration and teamwork between their peers.
