Sending Students to the Media Center

I always welcome students into the Media Center and I'm happiest when my room is full! That being said, I do ask a few favors:

- If at all possible, please call before sending more than three students at a time
- Send students with a pass (preferably through the student ePass system)
- Please send students with a purpose (i.e.-checking out books, finishing an assignment on the computer, help with something technology related, etc.)
- If sending students because they can't be present in your room for whatever reason, please send them with an assignment to work on while in the Media Center
