

# VAP's Vision

The VAP program accelerates high-achieving and gifted students in an AP-rich curriculum with the goal of making them globally competitive when applying to the colleges of their choice.

About Space Coast VAP  
<https://www.brevardschools.org/domain/8794>

## Freshman Cohort (Grades 7-9)

- Beginning in 7th grade, VAP gifted and high-achieving students participate in an accelerated curriculum that prepares them for success in Advanced Placement courses
- VAP classes are rigorous, hands-on, and engaging because they are taught by gifted certified teachers
- VAP students take their first AP class in 9th grade - AP Computer Science Principles
- VAP students leave the Freshman Cohort prepared to succeed in Advanced Placement courses, which will earn them college credit while still in high school!

## Program Requirements

- A completed application packet (available online)
- 3 or higher on standardized tests
- Good grades
- Exemplary behavior
- A strong work ethic
- Academic integrity
- A thirst for knowledge
- College or University goals

## Senior Cohort (Grades 10-12)

- In 10th grade, VAP students begin the nationally recognized AP Capstone Program
- By their senior year, VAP students take and pass at least six AP courses and their exams
- AP courses are nationally recognized by colleges and universities as the BEST preparation for your post-secondary education!
- Colleges are becoming very selective in their acceptance, and AP courses give you several advantages, including a one-point bump in GPA
