

**Unit Essential Question:** How do scientists communicate the results of their research?

Evaluator: Student Teacher

Name: \_\_\_\_\_

Date: \_\_\_\_\_

Period: \_\_\_\_\_

Lesson Essential Question (L.E.Q.): How can student researchers improve their presentation skills?

Research Project Title: \_\_\_\_\_

Comments	Research Seminar Rubric
	1. Properly completed seminar evaluation sheet. 0            1            2            3            4            5
	2. Log book up to date and detailed. Most recent entry date: _____ Number of total entries: _____ Circled if needed:    more frequent entries    more detailed entries 0            2            4            6            8            10
	3. Reprints organized and adequate in number. Number of reprints required: _____ Number of actual reprints: _____ 0            2            4            6            8            10
	4. Independent and dependent variables with units.  IV: _____  DV: _____ 0            2            4            6            8            10
	5. Research based information/research design vocabulary. 0            4            8            12            16            20 Good use of research based details    Need more research to support your statements Good use of research design vocab    Use proper vocabulary to describe your research
	6. Experimental methods explained. 0            2            4            6            8            10
	7. Listened courteously to the other presenters. 0            1            2            3            4            5
	8. Handled questions well. 0            2            4            6            8            10
	9. Spoke loudly and clearly enough to be heard by all. 0            2            4            6            8            10
	10. Spoke fluently <u>using outline or note cards</u> . (do not read presentation word for word) 0            2            4            6            8            10
	11. Volunteered (extra credit). 0            5
	Time: _____ Total Score: _____
