

Principal Message 7-30-21

Stevenson Families,

The countdown to students returning is almost into the single digits. We are so excited for a new year and to welcome our students back on campus.

We received some exciting news this week regarding our FSA scores. Stevenson continues to be a great place for learning. Stevenson is second in the district for points earned toward school grade. There has been an ELA increase of three percentage points from 2019, ELA learning gains increased thirteen percentage points from 2019, and ELA Bottom quartile gains increased eight percentage points from 2019. Stevenson's Science Assessment marked an achievement increase of six percentage points from 2019. Stevenson holds the first place ranking in the district for percentage of students scoring at or above grade level in Science, second place in ELA, and fourth place in Math. I am extremely proud of our students, teachers, and families for their exceptional dedication to learning. Student test scores from the FSA are anticipated to be posted on Focus for parents to view as early as Monday.
