Distribution Chart

A weighted and unweighted GPA will be supplied for each student to colleges/universities for admission purposes. Most students who earn outstanding grades meet our academic environment's challenges. For this reason, we do not believe that reporting class rank fairly communicates our students' achievements and abilities. In Edison High School- **6.05 is the highest GPA that can be attained.**

Students who have taken all their high school courses in Edison and /or high schools in New Jersey (public/parochial/private) receive a weighted GPA and are included in the GPA Distribution Chart. Students from outside New Jersey who transfer to Edison following the first marking period of the junior year are not included. The transcript includes information about classes taken at the previous high school at the time of transfer. Additionally, all high school courses taken in Edison are included.

Weighted GPA – 532 Students **New Entrants as of 9/6/24 are not reflected in the GPA Distribution
