STUDENT TECHNOLOGY USE AGREEMENT

I have read, understand, and will abide by the policies and guidelines of the Public Schools of Edison Township:

- **Policy #2361** – Acceptable Use of Computer Network/Computers and Resources
- **Policy #7523** – School District Provides Technology Devices to Pupils
- **Policy # 2365** - Acceptable Use of Generative Artificial Intelligence (AI)
- **Purchase of Optional Insurance** for District Device
- **Replacement Cost** for Damaged Device
- **Edison Township Public Schools Technology Device Guidelines**

I have also read, understand, and will abide by:

- The complete **Google Workspace for Education Edition Agreement and Privacy Policy**
- **Google App Restrictions Policy** for users under 18

Should I violate this agreement, my access privileges may be revoked, and school disciplinary and/or appropriate legal action may be taken.

Student Acknowledgment: _____

Parent Acknowledgment: _____

Date: _____

Parent or Guardian Agreement Approval *(If the student is under the age of 18, a parent or guardian must also read and sign this agreement.)*

As the parent/guardian of the student, I have read and discussed with my child **Policy #2361** and **Policy #7523** from the Public Schools of Edison Township. I have also reviewed the implications of the Student Technology Use Agreement, including the consequences for any violations, and have witnessed my child signing this document.

I understand that the technological resources provided by the district are intended strictly for educational use, and that the district has implemented reasonable safeguards to prevent access to inappropriate content. However, I also recognize that it is not possible to completely eliminate all unauthorized access. Therefore, I will not hold the district liable for any inappropriate materials accessed through its technology resources.

I hereby grant permission for my child to use the technological resources provided by the Public Schools of Edison Township.

Technology Device Guidelines for Students

Purpose

Edison Township Public Schools is committed to supporting student success by enhancing productivity and operational efficiency through the use of district-issued technology. These devices—which may include laptops, tablets, Chromebooks, or other electronic tools—are provided to assist students with instructional activities and related responsibilities.

Device Issuance & Acknowledgment

Before a student can receive a technology device, a parent or guardian must:

- Acknowledge receipt of this document
- Sign the **Student Technology Use Agreement**

These signed forms will be retained by the principal or designee for the duration of device use and will be accessible to parents/guardians during the new school year approval process in **Genesis Student Information System**.

Proper Use and Care

To ensure the security and longevity of devices, students are expected to follow these guidelines:

- Always store the device in a **locked and secure environment** when not in use.
- **Do not leave devices unattended** in classrooms or other locations for extended periods.
- **No food or beverages** should be consumed near technology devices.
- Never leave devices in **unsecured areas** such as unlocked classrooms or offices.
- If the device is issued with a **protective case**, it **must** be used at all times.

Device insurance is strongly encouraged. Third-party coverage is available for all students. For details, visit the Edison Public Schools Technology Department website.

Transfer or Graduation

Per **District Policy #7523**, all assigned devices and chargers must be returned upon:

- **Graduation**, or
- **Transfer** out of the district

Failure to return district property may result in a charge for full replacement costs.

Important Reminders

- **Submit Helpdesk Requests:** https://edisonk12.incidentiq.com/login using your district credentials
- **Password Security:** Never share or write down login credentials. Use strong, secure passwords.
- **Lost or Stolen Devices:** Must be reported immediately to:
    - Local **Police Department**
    - School **Principal**
    - **Technology Department**

      (Police report required for stolen items per Policy #7523)
- **Damage & Fines:**
    - Students **without insurance** are responsible for fines.
    - Students with multiple fines will receive a **loaner device** until fines are resolved.
- **Software & Updates:** Students are expected to install security updates as prompted.
- **Device Modifications:**
    - No stickers, writing, or modifications to district-provided cases.
    - **Do not remove** district asset tags under any circumstances.
- **Unauthorized Devices:** Use of non-approved devices is strictly prohibited.

Contact Information

- **Technology Helpdesk Phone:** 732-452-4997 or 732-452-4998
- **Submit a Ticket:** https://edisonk12.incidentiq.com/login
- **Email:** helpdesk@edison.k12.nj.us

Google Workspace for Education – Parent/Guardian Notice and Consent Form

To Parents and Guardians,

At Public Schools of Edison Township, we use Google Workspace for Education and are seeking your permission to provide and manage a Google Workspace for Education account for your child.

Google Workspace for Education is a set of productivity tools from Google—including Gmail, Calendar, Docs, Classroom, and more—used by millions of students and teachers around the world. At Public Schools of Edison Township, students use their accounts to complete assignments, communicate with teachers, sign into their Chromebooks (if applicable), and develop digital citizenship skills.

We ask that you carefully review the following notice, which outlines how Google handles your child's personal information. It also covers your rights and the district's policies regarding student use of Google services.

Key Topics Covered:

- What personal information does Google collect?
- How does Google use this information?
- Will Google disclose my child's personal information?
- Does Google use information for advertising?
- Can my child share information with others?
- Are there age requirements for certain services?

Consent Notice

By signing below, you provide consent for Public Schools of Edison Township to create a Google Workspace for Education account for your child. Without this consent, an account will not be created and your child may not be able to access Google tools used in the classroom.

Please note: Some Google Additional Services (such as YouTube and Google Maps) have minimum age requirements (typically 13+). These services will only be made available to students who meet the age criteria, as per Google's policies and with school district approval.

Google Services Overview

Core Services include:
Assignments, Calendar, Classroom, Drive, Gmail, Meet, Docs, etc.

Additional Services (if enabled by the school) may include:
YouTube, Google Maps, Google Earth, and others. These services may collect additional user data and are governed by the general Google Privacy Policy.

Data Collection & Use

Google collects student information such as name, email, activity logs, device info, and location data. This information is used to deliver and improve services, not for advertising.

Google does not serve personalized ads in Workspace for Education core services, and any ads in Additional Services are not based on user data for K–12 accounts.

Your Rights

You may access, modify, or request deletion of your child's Google Workspace account by contacting the school administrator.
For more on Google's policies, visit:
- https://workspace.google.com/terms/education_privacy.html
- https://www.google.com/edu/trust/
- https://cloud.google.com/terms/cloud-privacy-notice

Parent/Guardian Consent

I give permission for Public Schools of Edison Township to create and maintain a Google Workspace for Education account for my child and for Google to collect, use, and disclose information for educational purposes only.

Full name of student: _____

Printed name of parent/guardian: _____

District Policy

2361 - ACCEPTABLE USE OF COMPUTER NETWORK/COMPUTERS AND RESOURCES (M)

Section: Program
Date Created: January 2011
Date Edited: March 2023

The Board of Education recognizes as new technologies shift the manner in which information is accessed, communicated, and transferred; these changes will alter the nature of teaching and learning. Access to technology will allow pupils to explore databases, libraries, Internet sites, and bulletin boards while exchanging information with individuals throughout the world. The Board supports access by pupils to these information sources but reserves the right to limit in-school use to materials appropriate for educational purposes. The Board directs the Superintendent to effect training of teaching staff members in skills appropriate to analyzing and evaluating such resources as to appropriateness for educational purposes.

The Board also recognizes technology allows pupils access to information sources that have not been pre-screened by educators using Board approved standards. The Board therefore adopts the following standards of conduct for the use of computer networks and declares unethical, unacceptable, or illegal behavior as just cause for taking disciplinary action, limiting or revoking network access privileges, and/or instituting legal action.

The Board provides access to computer networks/computers for educational purposes only. The Board retains the right to restrict or terminate pupil access to computer networks/computers at any time, for any reason. School district personnel will monitor networks and online activity to maintain the integrity of the networks, ensure their proper use, and ensure compliance with Federal and State laws that regulate Internet safety.

District Provided Devices

The district provides a device to every pupil in the district. Students must use a district-issued device to remotely access digital learning platforms for the following reason:

- Content filtering which controls the flow of content to the district owned devices
- Receive relevant software updates
- Provides security and management of each device

These technical requirements ensure that pupils can safely access educational content while completing their work when off-campus. In the absence of a specific need for a specialized device, pupils shall not use personal, privately-owned devices when accessing the district's digital learning platforms or completing their homework while online.

Standards for Use of Computer Networks

Any individual engaging in the following actions when using computer networks/computers shall be subject to discipline or legal action:

A. Using the computer networks/computers for illegal, inappropriate or obscene purposes, or in support of such activities. Illegal activities are defined as activities that violate Federal, State, local laws and regulations. Inappropriate activities are defined as those that violate the intended use of the networks. Obscene activities shall be defined as a violation of generally accepted social standards for use of publicly owned and operated communication vehicles.

B. Using the computer networks/computers to violate copyrights, institutional or third party copyrights, license agreements or other contracts.

C. Using the computer networks in a manner that:

1. Intentionally disrupts network traffic or crashes the network;

2. Degrades or disrupts equipment or system performance;

3. Uses the computing resources of the school district for commercial purposes, financial gain, or fraud;

4. Steals data or other intellectual property;

5. Gains or seeks unauthorized access to the files of others or vandalizes the data of another person;

6. Gains or seeks unauthorized access to resources or entities;

7. Forges electronic mail messages or uses an account owned by others;

8. Invades privacy of others;

9. Posts anonymous messages;

10. Possesses any data which is a violation of this Policy; and/or

11. Engages in other activities that do not advance the educational purpose for which computer networks/computers are provided.

Internet Safety Protection

As a condition for receipt of certain Federal funding, the school district shall be in compliance with the Children's Internet Protection Act, the Neighborhood Children's Internet Protection Act, and has installed technology protection measures for all computers in the school district, including computers in media centers/libraries. The technology protection must block and/or filter material and visual depictions that are obscene as defined in Section 1460 of Title 18, United States Code; child pornography, as defined in Section 2256 of Title 18, United States Code; are harmful to minors including any pictures, images, graphic image file or other material or visual depiction that taken as a whole and with respect to minors, appeals to a prurient interest in nudity, sex, or excretion; or depicts, describes, or represents in a patently offensive way, with respect to what is suitable for minors, sexual acts or conduct; or taken as a whole, lacks serious literary, artistic, political, or scientific value as to minors.

This Policy also establishes Internet safety policy and procedures in the district as required in the Neighborhood Children's Internet Protection Act. Policy 2361 addresses access by minors to inappropriate matter on the Internet and World Wide Web; the safety and security of minors when using electronic mail, chat rooms, and other forms of direct electronic communications; unauthorized access, including "hacking" and other unlawful activities by minors online; unauthorized disclosures, use, and dissemination of personal identification information regarding minors; and measures designed to restrict minors' access to materials harmful to minors.

Notwithstanding blocking and/or filtering the material and visual depictions prohibited in the Children's Internet Protection Act and the Neighborhood Children's Internet Protection Act, the Board shall determine other Internet material that is inappropriate for minors.

In accordance with the provisions of the Children's Internet Protection Act, the Superintendent of Schools or designee will develop and ensure education is provided to every pupil regarding appropriate online behavior, including pupils interacting with other individuals on social networking sites and/or chat rooms, and cyberbullying awareness and response.

The Board will provide reasonable public notice and will hold one annual public hearing during a regular monthly Board meeting or during a designated special Board meeting to address and receive public community input on the Internet safety policy - Policy and Regulation 2361. Any changes in Policy and Regulation 2361 since the previous year's annual public hearing will also be discussed at a meeting following the annual public hearing.

The school district will certify on an annual basis, that the schools, including media centers/libraries in the district, are in compliance with the Children's Internet Protection Act and the Neighborhood Children's Internet Protection Act and the school district enforces the requirements of these Acts and this Policy.

Consent Requirement

No pupil shall be allowed to use the school districts' computer networks/computers and the Internet unless they have filed with a consent form signed by the pupil and his/her parent(s) or legal guardian(s).

Violations

Individuals violating this Policy shall be subject to the consequences as indicated in Regulation 2361 and other appropriate discipline, which includes but are not limited to:

1. Use of the network only under direct supervision;

2. Suspension of network privileges;

3. Revocation of network privileges;

4. Suspension of computer privileges;
5. Revocation of computer privileges;
6. Suspension from school;
7. Expulsion from school; and/or
8. Legal action and prosecution by the authorities.

N.J.S.A. 2A:38A-3
Federal Communications Commission: Children's Internet Protection Act.

District Policy

2365 - ACCEPTABLE USE OF GENERATIVE ARTIFICIAL INTELLIGENCE (AI)

Section: Program
Date Created: January 2025
Date Edited: January 2025

The Board of Education recognizes the use of artificial intelligence (AI) may result in increased and enhanced learning opportunities for students in the school district. The Board adopts this Policy to provide guidelines and expectations for student use of generative AI.

For the purpose of this Policy, "AI" means all types of generative AI technologies that create new content or outputs from a prompt to produce text, images, videos, or music.

For the purpose of this Policy, "AI tools" means software applications and platforms that utilize AI technologies to perform specific tasks and solve problems that typically require human intelligence.

For the purpose of this Policy, "assignment" means any task or work required of a student as part of a student's educational and co-curriculum program in the district.

The Board recognizes the potential of AI tools to enhance and transform a student's educational and co-curricular experience in the district. However, AI tools are not inherently knowledgeable and are trained from large amounts of data collected from various sources. Outputs generated by an AI tool may be inaccurate, inappropriate, or incomplete. Therefore, to ensure the responsible use of AI and to maintain academic integrity, students shall be required to comply with the district's Acceptable Use of Generative Artificial Intelligence Plan (AI Plan) that will include proper citation and/or documentation methods to support the content provided by an AI tool in a student assignment.

The Superintendent or designee may designate an AI Coordinator to oversee the use of all AI tools in the district and may designate additional AI Coordinators and/or committees to monitor the use of all AI tools within the district.

The Superintendent or designee, in consultation with district staff and AI Coordinator(s), shall develop the district's AI Plan.

The district's AI Plan will include details addressing the following issues:

1. A list of the schools, departments, and/or grade level(s) in the district where a staff member is authorized to permit student use of AI in assignments;
2. An explanation on when, how, and to what extent a staff member may permit a student to use AI in assignments;
3. A procedure that requires each staff member authorized to permit students to use AI in assignments to inform the students at the time of the assignment the conditions in which AI may be used;
4. A procedure for the Superintendent or designee and the AI Coordinator(s) in the district to approve and review the use of AI tools and a process to ensure strategies will be implemented in the district to address any issues regarding student use of AI in assignments. This may include, but not be limited to, areas such as academic integrity, bias, inaccuracy/misinformation, copyright/licensing unknowns, privacy violations, and equity of access;
5. A procedure to inform parents and receive parental consent in the beginning of each school year for the student to be permitted to use AI for assignments in accordance with this Policy and the district's AI Plan;
6. A list of prohibited uses of AI that violate this Policy or the district's Code of Student Conduct, which may include any use of AI which does not align with the conditions set when the assignment was provided to the student; using AI to complete an assignment in a way that falsely represents the assignment as the student's own; using AI to purposefully create misinformation or to misrepresent others with the intent of harming, bullying, or intimidating an individual(s); using AI with confidential student or staff personal information; and other prohibited behaviors and/or conduct listed in Policy and Regulation 2361 – Acceptable Use of Computer Networks/ Computers and Resources;

7. A list of consequences if a student violates any provision of this Policy or AI Plan which may include, but not be limited to, the consequences listed in Policy and Regulation 2361 – Acceptable Use of Computer Networks/Computers and Resources or Policy and Regulation 5600 – Student Discipline/Code of Conduct;

8. A procedure where the AI Coordinator(s) in the district, supervisors, administrative staff members, and other staff members review the procedures used in determining the activities where AI may be permitted to be used by students to ensure staff members are implementing AI procedures in accordance with this Policy and the district's AI Plan;

9. An approved list of AI platforms that may be used by students in assignments;

The district's AI Plan will be reviewed and/or revised as needed.

In the event the Superintendent determines a provision(s) of this Policy or the district's AI Plan becomes inapplicable, inappropriate, undesirable, and/or irrelevant for any reason in the school setting, the Superintendent may revise or suspend a provision(s) of this Policy or the district's AI Plan. In such case, the Superintendent will report to the Board the reason for the revision or suspension and recommend the Board ratify the Superintendent's actions.

District Policy

7523 - SCHOOL DISTRICT PROVIDED TECHNOLOGY DEVICES TO PUPILS

Section: Property
Date Created: August 2013
Date Edited: March 2023

The Board of Education may provide technology devices to pupils in the district for school district authorized use only. The purpose of this Policy is to establish general guidelines for the issuance and utilization of any school district technology device provided to pupils of this district. For the purposes of this Policy, "technology device" or "device" shall include, but not be limited to, portable devices such as computers, laptops, tablets, cellular telephones, or any other computing or electronic devices the school district provides to pupils to be used as part of their educational program.

A technology device made available to pupils will not be considered a textbook or supply, as defined in N.J.S.A. 18A:34-1, mandatory to a successful completion of the classroom curriculum. Therefore, because a technology device defined in this Policy is not mandatory to a successful completion of a pupil's classroom curriculum, a pupil will not be required to obtain a technology device provided by the school district as defined in this Policy. In the event the school district provides a technology device that is deemed mandatory to a successful completion of the classroom curriculum, the district will provide pupils with such a technology device consistent with its textbook or supply policies.

A technology device provided by the school district may include pre-loaded software. A pupil is prevented from downloading additional software onto the technology device or tampering with software installed on the technology device. Only school district authorized staff members may load or download software onto a school district provided technology device.

To receive a school district provided technology device, the parent and pupil must sign a Technology Use Agreement Form requiring the parent and the pupil to comply with certain provisions. These provisions may include, but are not limited to:

1. A school district provided technology device must be used only by the pupil for school district authorized use;

2. A pupil shall comply with the school district's acceptable use of technology policies, which shall be attached to the Technology Use Agreement Form, in their use of any school district provided technology device;

3. Any school district provided technology device loaned to a pupil must be returned to the school district in the condition it was initially provided to the pupil considering reasonable use and care by the pupil;

4. The parent or pupil shall be responsible to reimburse the school district the cost of any technology device that is lost, damaged beyond reasonable use or beyond its value, abandoned, missing, stolen, or cannot be returned to the district in accordance with the terms of the School District Provided Technology Device Form;

5. The district may require, or offer as an option, depending on the type of technology device provided to the pupil, an insurance policy to be purchased by the parent or pupil that would cover certain losses or damage to a technology device during the time period the pupil has possession of the device. The parent or the pupil shall pay any insurance policy required deductibles in the event of a loss;

6. In the event the school district does not require the purchase of an insurance policy for a technology device or the parent or pupil elects not to purchase optional insurance, the parent and/or pupil shall be responsible for any loss or damage to the technology device in accordance with the terms of the School District Provided Technology Device Form;

7. A pupil will be required to report any hardware or software problems in the operation of the device to the school district staff member, designated on the Help Desk System, within two school days of the commencement of the problem;

8. A pupil must report to the school district staff member designated on the Technology Use Agreement Form within two school days in the event the technology device has been damaged or is missing;

9. A parent or pupil is required to immediately file a police report in the event it is believed the technology device has been stolen. Within one school day after filing a police report, a parent or pupil shall complete the School District Provided Technology Device Loss Form and submit the completed Loss Form and a copy of the police report to the Principal or designee;

10. A pupil shall be required to provide routine cleaning and care of the device in accordance with school district cleaning and care guidelines;

11. The pupil shall have the technology device in their possession in school as required; and

12. Any other provisions the Superintendent of Schools determines should be included on the Technology Use Agreement Form.

The school district will provide the pupil and parent with written or electronic notification that the technology device provided by the school district may record or collect information on the pupil's activity or the pupil's use of the technology device if the device is equipped with a camera, global positioning system, or other feature capable of recording or collecting information on the pupil's activity or use of the device. This notification shall also include a statement that the school district shall not use any of the capabilities in a manner that would violate the privacy rights of the pupil or any individual residing with the pupil. The parent shall be required to acknowledge receipt of this notification and the parent acknowledgement shall be retained by the Principal or designee for as long as the pupil retains the use of the school district provided technology device. The parent acknowledgement and a signed School District Provided Technology Device Form shall be required before the issuance of a technology device to a pupil. In accordance with the provisions of P.L. 2013, Chapter 44, a school district failing to provide this notification shall be subject to a fine of $250 per pupil, per incident. The fine shall be remitted to the New Jersey Department of Education, and shall be deposited in a fund that shall be used to provide laptop or other portable computer equipment to at-risk pupils as defined in N.J.S.A. 18A:7F-45.

Pupils shall comply with all school district policies for the use of a school district provided technology device. A pupil shall be subject to consequences in the event the pupil violates any school district policy, including the district's acceptable use policies; pupil code of conduct; any provision of this Policy; or any provision of the School District Provided Technology Device Form.

N.J.S.A. 18A:34-1
P.L. 2013, Chapter 44 – "The Anti-Big Brother Act"

Adopted: 26 August 2013
Revised: 24 January 2023

Edison Township Public Schools

Secondary Schools AI Usage Student Protocol

No AI Allowed → **Some AI Allowed** → **AI Allowed**

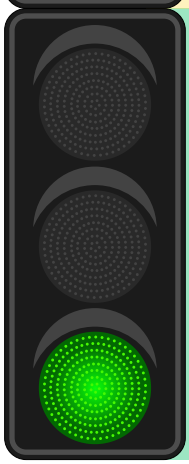

In these situations, using AI would take away from your learning or could lead to misuse. Your teacher may use tools like version history or AI detectors to check for original work.

Examples: Writing an essay at home where the goal is to practice your writing skills; Completing a math assignment that builds fluency through practice.

AI can be used in specific ways to support your learning, but only as directed by the teacher. The goal is to help you grow, not to replace the learning process. AI-use enhances learning goals.

Examples: Using AI to get feedback on your writing before submitting it; Brainstorming ideas or outlining a project with a teacher-approved tool.

You are free to use AI tools as needed. In these cases, the focus is not on the AI use itself, but on what you do with it.

Examples: Creating slides for a presentation, where you are being graded on your speaking and presentation skills. Designing visuals for a project after the research is complete.

Application valid for
2026-2027 school year

Protect Your K-12 School-Issued Device
