7. Committee Reports

A. Transportation Committee

Date: Monday, June 1, 2026 - Education Center

In Attendance: Ralph Errico (Chair), Virginia White, Doug Guillen, Edward Aldarelli, Ed.D., Christopher Huss, Ed.D., Jonathan Toth

Subscription Bussing:

The committee discussed the subscription busing program and reviewed options for establishing a fee structure that would make the program financially sustainable for the district.

Additional discussion focused on the potential purchase or lease of additional buses and the possibility of expanding in-house transportation services using district-employed drivers. This approach may reduce overall costs compared to reliance on outside transportation contractors.

The committee anticipates that the number of subscription bus routes and riders will be reduced compared to previous years.

Field Trips:

The committee reviewed field trip transportation costs and discussed funding options moving forward.

Transportation for select field trips will need to be funded through individual school building budgets or supported through parent organizations, PTOs, fundraising efforts, or direct parent contributions.

Maintenance and Transportation Operations:

The committee reviewed anticipated transportation maintenance costs, noting that bids are currently being solicited and that substantial increases are expected.

To reduce long-term maintenance expenses, the committee discussed:

- Hiring an additional certified mechanic to perform more repairs in-house
- Purchasing bus parts directly through cooperative purchasing programs
- Taking advantage of tax-exempt purchasing opportunities available to school districts
- Exploring a shared services agreement with a neighboring district that already operates a transportation garage and vehicle lift facility.

These strategies may help offset increasing maintenance and repair costs.

Transportation Fleet Inventory:

The committee received an update regarding the district's transportation fleet.

- Several buses are scheduled to be retired due to age, wear, and overall condition.
- During the current school year, the district purchased:
 - * Two (2) 24-passenger buses
 - * One (1) Wheelchair-accessible van
- The estimated cost of a new school bus is approximately \$185,000 per vehicle.
- At this time, no funding has been allocated within the current budget for the purchase of additional buses.
