WS/FCS CTE

MIDDLE SCHOOL
JOB SHADOWING

WS/FCS Career and Technical Education invites Forsyth County businesses to participate in Students@Work, a middle school job-shadowing experience that helps students explore careers, understand the workplace, and begin building skills for future success—while strengthening our local workforce pipeline. Students@Work is a partnership between the NC Business Committee for Education (NCBCE) and the NC Department of Public Instruction (NC DPI) that connects middle school students to real-world workplace opportunities.

WHAT PARTICIPATION LOOKS LIKE:

- Host one middle school student for approximately 4 hours
- Provide a job-shadowing experience that highlights daily tasks and opportunities in the career field.

PROGRAM TIMELINE:

January – Business recruitment
February – Students apply for job shadowing experiences, similar to a real job application
March – Students participate in job shadowing days.
