GRADED WEIGHTING AND REPORTING

Lovejoy High School reports a weighted grade point average. Students' grade point averages and class rank are computed using a weighted 4.0 scale. The scale below is used to discern the grades obtained in courses of varying levels of difficulty. In order to encourage each Lovejoy student to select a rigorous and diverse curriculum above and beyond graduation requirements, exclusions are allowed for up to 8 semester grades from the GPA calculations. Additionally, seniors may be concurrently enrolled at Collin College for both college and high school credit. These courses may be used to satisfy graduation requirements; however, they are not included in the student's GPA. Traditional high school courses taken in middle school are also not computed as part of the cumulative GPA, although they are relevant in evaluating a student's preparedness for college.

Lovejoy ISD is a non-ranking campus, unless the student is in the top 10%. All members of the senior class are included in the rank.
