

Building permit fees are calculated from the Building Valuation. A \$250,000.00 home valuation will give you a permit fee of \$1,951.93 building permit fee.

The plan review fee is a 15 percent of the building permit fee. (\$292.79) \$200.00 at time of application submittal and the rest added with the permit fees when you receive your permit.

The State fee is 1% of the building permit fee. (\$19.51)

All other fees are set fees for connection of water, sewer, electrical and public works. Impact fees are also set fees for residential structures.

Impact fees are included in all new single family dwelling permits. Additions, alterations, repairs do not include impact fees.
