SCHEDULE NO. 1, RESIDENTIAL SERVICE

AVAILABILITY: At any point on the city's interconnected system where there are facilities of adequate capacity.

APPLICATION: This schedule is for alternating current service supplied at approximately 120 or 240 volts through one kilowatt hour meter at a single point of delivery for all electric service required on the premises for residential purposes.

When conditions are such that service is supplied through one meter to more than one dwelling or apartment unit, the charge for such service will be computed by multiplying the number of kWh in each block and the minimum charges by the maximum number of dwelling or apartment units that may be served.

When a portion of a dwelling is used regularly for business, professional or other gainful purposes, and 50 percent or more of the electrical energy supplied to that dwelling is being used for residential purposes, the premises shall be subject to residential rates. If 50 percent or more of the electrical energy supplied to the premises is used for other than residential purposes, the premises shall be classified as nonresidential and electric service shall be provided under the appropriate non-residential schedule.

Customer Service Charge

Service	Monthly Charge
Base Electric Fee	$12.00

Summer Rate Schedule—May through September inclusive

Usage	Rate
Up to 400 kWh	$0.1180/kWh
401-600 kWh	$0.1478/kWh
601+ kWh	$0.1638/kWh

Winter Rate Schedule—October through April inclusive

Usage	Rate
All kWh	$0.1180/kWh

Power Purchase Adjustment Clause (PPAC)

The PPAC is applied to adjust charges that are above or below the base amount of the rates based upon changes in costs of wholesale power purchased from energy provider.

Usage	Rate
All kWh	$0.00/kWh

SCHEDULE NO. 4, SECURITY AREA LIGHTING

This schedule is for electric service required for private outdoor lighting by high pressure sodium vapor lamps where service is supplied from a City-owned overhead wood pole system. The monthly rate per lamp will be amounts as follows:

Service	**Monthly Rate**
100 Watt	$23.40
150 Watt	$29.60
200 Watt	$34.30
250 Watt	$37.40
400 Watt	$44.70

The unit charge includes installation, maintenance and energy costs for unit on existing or one new wood pole without guys. An additional charge will be made for any investment above that required for installation as specified herein.

Specifications and service are that each lamp will be mounted on an existing pole or on a 30-foot wood pole with a mast arm bracket not exceeding four feet in length. The type and kind of fixtures and supports will be in accordance with the City's specifications. Service includes energy supplied from the City's overhead circuits, and maintenance and/or repair of said lamp fixtures. Lamps will be controlled by the City to burn each night from dusk to dawn.

The contract period will be five years or longer.

Service under this schedule will be in accordance with the terms of the electric Service Agreement between the customer and the City.

SCHEDULE NO. 6, GENERAL SERVICE WITHOUT DEMAND

AVAILABILITY: At any point on the City's interconnected system where there are facilities of adequate capacity.

APPLICATION: This schedule is for alternating current, single or three-phase service supplied at City's available voltage through one kilowatt-hour meter at a single point of delivery for all electric service required on the premises.

Customer Service Charge

Service	Monthly Charge
Base Electric Fee	$25.00

Energy Rate

Usage	Rate
Up to 500 kWh	$0.1199/kWh
501-8,000 kWh	$0.1199/kWh
8,001+ kWh	$0.1199/kWh

Power Factor

This rate is based on the customer maintaining at all times a power factor of 95% lagging, or higher, as determined by measurement. If the average power factor is found to be less than 95% lagging, the power as recorded by the City's meter will be increased by 1% for every 1% that the power factor is less than 95%.

Minimum Charge

Service	Monthly Minimum Charge
Single phase service	$9.57
Three phase service	$29.45

Power Purchase Adjustment Clause (PPAC)

The PPAC is applied to adjust charges that are above or below the base amount of the rates based upon changes in costs of wholesale power purchased from energy provider.

Usage	Rate
All kWh	$0.00/kWh

SCHEDULE NO. 6, GENERAL SERVICE WITH DEMAND

AVAILABILITY: At any point on the City's interconnected system where there are facilities of adequate capacity.

APPLICATION: This schedule is for alternating current, single or three-phase service supplied at City's available voltage through one kilowatt-hour meter at a single point of delivery for all electric service required on the premises.

Customer Service Charge

Service	Monthly Charge
Base Electric Fee	$33.00

Power Rate

The kW as shown by or computed from the readings of City's power meter, for the 15-minutes period of customer's greatest use during the month, determined to the nearest kW.

All kW over 10 kW	$10.60/kW

Energy Rate

Usage	Rate
Up to 500 kWh	$0.1199/kWh
501-8,000 kWh	$0.1199/kWh
8,001+ kWh	$0.0520/kWh

Power Factor

This rate is based on the customer maintaining at all times a power factor of 95% lagging, or higher, as determined by measurement. If the average power factor is found to be less than 95% lagging, the power as recorded by the City's meter will be increased by 1% for every 1% that the power factor is less than 95%.

Minimum Charge

Service	Monthly Minimum Charge
Single phase service	$9.57
Three phase service	$29.45

Power Purchase Adjustment Clause (PPAC)

The PPAC is applied to adjust charges that are above or below the base amount of the rates based upon changes in costs of wholesale power purchased from energy provider.

Usage	Rate
All kWh	$0.00/kWh

SCHEDULE NO. 6, GENERAL SERVICE HEAVY DEMAND

AVAILABILITY: At any point on the City's interconnected system where there are facilities of adequate capacity.

APPLICATION: This schedule is for alternating current, single or three-phase service supplied at City's available voltage through one kilowatt-hour meter at a single point of delivery for all electric service required on the premises.

Customer Service Charge

Service	Monthly Charge
Base Electric Fee	$33.00

Power Rate

The kW as shown by or computed from the readings of City's power meter, for the 15-minutes period of customer's greatest use during the month, determined to the nearest kW.

All kW over 10 kW	$10.60/kW

Energy Rate

Usage	Rate
Up to 500 kWh	$0.1158/kWh
501-8,000 kWh	$0.1158/kWh
8,001+ kWh	$0.0498/kWh

Power Factor

This rate is based on the customer maintaining at all times a power factor of 95% lagging, or higher, as determined by measurement. If the average power factor is found to be less than 95% lagging, the power as recorded by the City's meter will be increased by 1% for every 1% that the power factor is less than 95%.

Billing Demand

The kW as shown by or computed from readings of the City's power meter for the 15-minute period of the customer's greatest use during the month, adjusted for power factor as specified, determined to the nearest kW but not less than 70% of the greatest demand in kW imposed on the City by the customer in any of the preceding twelve (12) billing months.

Minimum Charge

Three phase service	$29.45

Power Purchase Adjustment Clause (PPAC)

The PPAC is applied to adjust charges that are above or below the base amount of the rates based upon changes in costs of wholesale power purchased from energy provider.

Usage	Rate
All kWh	$0.00/kWh

SCHEDULE NO. 8, GENERAL INDUSTRIAL SERVICE

AVAILABILITY: At any point on the City's interconnected system where there are facilities of adequate capacity.

APPLICATION: This schedule is for alternating current, three-phase service supplied at 2,300 to 15,000 volts through a single point of delivery for all electric service required on the customer's premises for manufacturing or other industrial purposes by industrial customers contracting for no less than 35 kW. Seasonal services will be available only under other appropriate schedules.

Power Rate

The kW as shown by or computed from the readings of City's power meter, for the 15-minute period of customer's greatest use during the month, adjusted for power factor as specified, determined to the nearest kW, but not less than 35kW.

Usage	Rate
All kW	$14.50/kW

Energy Rate

Usage	Rate
All kWh	$0.0546/kWh

Power Factor

This rate is based on the customer maintaining at all times a power factor of 95% lagging, or higher, as determined by measurement. If the average power factor is found to be less than 95% lagging, the power as recorded by the City's meter will be increased by 1% for every 1% that the power factor is less than 95%.

Billing Demand

The kW as shown by or computed from readings of the City's power meter for the 15-minute period of the customer's greatest use during the month, adjusted for power factor as specified, determined to the nearest kW but not less than 70% of the greatest demand in kW imposed on the City by the customer in any of the preceding twelve (12) billing months.

Minimum Charge

The monthly power charge, but not less than $375.59

Power Purchase Adjustment Clause (PPAC)

The PPAC is applied to adjust charges that are above or below the base amount of the rates based upon changes in costs of wholesale power purchased from energy provider.

Usage	Rate
All kWh	$0.00/kWh

SCHEDULE NO. 9, GENERAL INDUSTRIAL SERVICE—HIGH VOLTAGE

AVAILABILITY: At any point on the City's interconnected system where there are facilities of adequate capacity.

APPLICATION: This schedule is for alternating current, three-phase service supplied at approximately 43,800 volts through a single point of delivery for all electric service required on the customer's premises for manufacturing or other industrial purposes by industrial customers contracting for no less than 80 kW and not more than 5,000 kW.

Service under this Schedule is limited to a maximum power requirement of 10,000 kW. When a customer's load reaches a level in excess of 10,000 kW, continued service will require special contract arrangement. This Schedule is not available to new loads in excess of 10,000 kW. In this latter case, a maximum power requirement in excess of 10,000 kW shall be deemed to exist when a customer's maximum power requirement exceeds 10,000 kW in at least three (3) months of any continuous period of six (6) successive months.

Power Rate

Effective daily 0700 hours through 2300 hours except Sundays	$14.50/kW

Energy Rate

Usage	**Rate**
All kWh	$0.0546/kWh

Power Factor

This rate is based on the customer maintaining an average power factor of 95% lagging, or higher, as determined by measurement. If the power factor is found to be less than 95% lagging, the demand as recorded by the City's meter will be increased by 1% for every 1% that the power factor is less than 95%.

Billing Demand

The kW as shown by or computed from readings of the City's power meter for the 15-minute period of the customer's greatest use during the month, adjusted for power factor as specified, determined to the nearest kW but not less than 70% of the greatest demand in kW imposed on the City by the customer in any of the preceding twelve (12) billing months.

Minimum Charge

The monthly power charge, as defined above, but not less than $1466.15

Power Purchase Adjustment Clause (PPAC)

The PPAC is applied to adjust charges that are above or below the base amount of the rates based upon changes in costs of wholesale power purchased from energy provider.

Usage	**Rate**
All kWh	$0.00/kWh
