

BRIGHAM CITY FEE SCHEDULE

The following pages contain the fee schedule adopted by the Brigham City Council.

This fee schedule has been publicly posted with the intent of helping permit applicants estimate what their permit fee and plan review fee might be. This schedule is used by the city building official to assign permit fees bases off of project valuation. Valuations in these tables represent the MARKET VALUE of a potential project NOT the actual cost of a project. If the cost of your project is \$100,000.00 but the market value, or sale value is \$150,000.00, the permit fee is taken from the sale value of \$150,000.00. If the permit applicant can save money on labor or materials, that is where his/her savings lie. The valuation should always reflect the current market value of the project.

You can estimate the market value of your project by the cost of labor and materials, as well as what it might sale for. The building official will assign the market value of a project from the type of project it is and by the square footage of the project. Hopefully, estimating your valuation will give you a “ball park” figure of what your permit fee will be, but you must remember a couple of things.

1. The building official is the one who sets the valuation/fees. (Not the permit applicant)
2. These fees are simply for the building permit, the plan review, and the 1% required by the state of Utah.

Other fees, such as connection fees for water, sewer and electrical, do not show up in these pages. Also, Impact fees for new development are not part of these charts.

(Note that there are two columns of fee schedule on each page)

Example: If your project is valued at \$300,000.00 then you find that amount in the left column under the header “valuation”. In the 4th column to the left you will see that the building permit fee is \$2,249.93. If your project is a residential project you can see in the Res Plan Check Fee column that your plan review fee is \$337.39. If your project is a commercial project you will go to the Com Plan Check Fee column and see that your plan review fee is \$899.97. The state 1% is \$22.50. It is always taken from the building permit fee value.

(Note that there are two columns of fee schedule on each page)

Residential: \$300,000.00 Valuation = \$2,249.93 building permit fee
\$337.49 residential plan review fee
\$22.50 1% state fee
= \$2,609.92 Total

Commercial: \$300,000.00 Valuation = \$2,249.93 building permit fee
\$899.97 commercial plan review fee
\$22.50 1% state fee
= \$3,172.40 Total
