### About the New Jersey State Office of Innovation

Founded with the mandate to improve the lives of New Jerseyans by designing and deploying more effective and efficient government services, the Office of Innovation works in partnership with the Governor's Office and State agencies to create innovative policies and technologies that address complex public problems by working alongside New Jerseyans. We apply data science and public engagement to understand problems, and use modern digital technologies combined with strategic policies to develop solutions that improve services for the public, while also reducing costs for the State and taxpayers.

## RESOURCE: How to Build a Feedback Widget

In a just-posted Code for America “Formfest” workshop, four Office of Innovation team members share how a tool they developed – the Feedback Widget – can create a rich stream of real-time feedback on government agency websites. The team shares how they built and scaled the open-sourced tool to over a dozen websites, including the highly-trafficked NJ.gov.

## RESOURCE: 6 Principles of Product Development

In this blog post, the Office of Innovation’s product directors share six principles and practices they use to maximize the impact of civic technologies. For example, they highlight the importance of “getting smart quickly” to identify where they can make the biggest difference in a short timeframe. They also emphasize the importance of collaborating with the public as the most crucial factor in a product’s ultimate success.

Dear Ms. Margiotta:

**BOARD CHAIRPERSON**  
Brian Todd

I deeply appreciate the many years of support the Borough of Closter has provided to Spectrum for Living. With your assistance, Spectrum has received funding through the Community Development for more than twenty-five years, in order to provide a variety of invaluable services to adults with developmental disabilities and their families living throughout the Northern Valley region. These individuals and their families served are most grateful to these invaluable support services

In the upcoming year, Spectrum would like to submit a new project at the regional level and offer a Path to Independence Program. Individuals living on their own face greater challenges in their day to day life, and are at greater risk of exploitation, mental health challenges, and homelessness. This program aims to provide essential support and training to adults with developmental disabilities living on their own, as well as to those individuals living with families, but anticipate they will be living on their own in the community, to adults with developmental disabilities living in the Northern Valley communities.

**CHAIRPERSON EMERITUS IN MEMORIAM**  
Alexander Gallione

The 2026 Community Development Program will be even more essential in this upcoming year due to a combination of funding cuts and the New Jersey Division of Developmental Disabilities shift from a contract-based system of service reimbursement to a Medicaid-based, fee for services reimbursement system. As a consequence of these changes, a number of families are currently with inadequate or no appropriate services.

**MEDICAL DIRECTOR**  
Elie Djeblyan, M. D.

In order to complete the 2025 Community Development application process, a municipal resolution endorsing our Community Development Project will be required. A sample of the suggested resolution is attached. I have revised the amount requested to \$40,000.

I would appreciate if the resolution could be put on the Council's agenda as soon as practicable.

Your support and that of the council in endorsing our request for this resolution will be greatly appreciated.

If you have any questions or concerns, please feel free to call me at (201) 358-8000, ext. 3055.

Sincerely yours,

Katie Hennessy  
Director of Support Services
