Museum Passes

See the Exhibits you can visit at CMOM

The Children's Museum of Manhattan offers a range of programs and exhibits for children of all ages, income levels, and abilities.

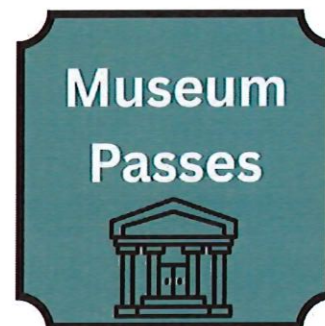

Through programs on-site, online, and around the five boroughs, CMOM nurtures the next generation of creative global citizens as they learn through exploration and play. CMOM encourages empathy across difference by elevating and providing insight into diverse perspectives and inviting visitors of all backgrounds to join our intentionally welcoming community and create and learn alongside each other. The museum's program reflects the rich cultural diversity, energy, and resilience of New York City itself and has a special focus on ensuring that its program is available to those families who might not otherwise have access.

Governor signs Executive Order 17 on Housing

1 message

Michael F. Cerra <mcerra@njlm.org>
To: "Michael F. Cerra" <mcerra@njlm.org>

Mon, Apr 27, 2026 at 4:42 PM

To: NJLM Executive Board and Past Presidents

Earlier today Governor Sherill signed Executive Order 17, which is attached.

This EO deals with housing production, but is generally directed at State agencies and processes. There is language regarding

Here is a brief overview of the EO:

1. By June 11 (45 days), a new Housing Governing council will be convened within the Administration, co-chaired by the State's Chief Operating officer and including cabinet officials from DCA, HMFA, EDA and NJ Transit.
2. By June 27 (60 days), the agencies are directed to a process, budget, regulatory and land review and submit a written housing affordability report to the Governor's office. These reports are to highlight Ongoing investments and initiatives to reduce red tape and identify
 - a. production of affordable, workforce, and mixed-income housing, including initiatives that could be replicated by other Executive Branch departments or agencies;
 - b. an inventory of land owned by the Executive Branch department or agency;
 - c. Unutilized property, underutilized assets, and/or surplus property of the Executive Branch department or agency that may be suitable for housing development, mixed-use development, or another use;
 - d. existing and planned projects for housing development on Executive Branch department- or agency-owned land reasonably known to the Executive Branch department or agency;
 - e. duplicative, outdated, obsolete, or conflicting rules, regulations, and requirements that slow or hinder housing development, or otherwise limit or prevent the delivery of housing assistance programs;
 - f. Proposals for new or updated programs, legislation, or regulations that would streamline housing production, reduce or stabilize costs, increase access to housing as a tool for wealth creation, and otherwise boost housing affordability;
 - g. Recommendations to improve processes and coordination among Executive Branch departments and agencies to accelerate housing development and between State and municipal governments, including the process for accessing Executive Branch department or agency subsidy or financing programs; and
 - h. Expertise, resource, or technology gaps within the Executive Branch department or agency that, if addressed, would accelerate housing production or improve customer experience in Executive Branch department or agency housing programs.
3. By September 24 (150 days), the Housing Governing Council is to issue recommendations on the following areas:
 - a. Defining housing goals for the Administration
 - b. Tracking and accelerating housing production
 - c. Developing unutilized and surplus State property into housing
 - d. Coordinating funding and financing processes for housing development
 - e. Inventorying and increasing access to affordable housing opportunities.

We are doing a deeper review of the EO and will be sending out an advisory tomorrow.

Mayor John Glidden
Borough of Closter
295 Closter Dock Road
Closter, NJ 07624

Dear Mayor John Glidden,

On behalf of the Arbor Day Foundation as we celebrate the 50th Anniversary of the Tree City USA program, I'm happy to extend my warmest congratulations to Closter on receiving a 2025 Tree City USA recognition. This well-deserved recognition is a testament to your community's unwavering commitment to the planting, care, and celebration of trees.

In an era where cities and towns are facing increasing challenges related to air quality, public health, and climate resilience, nurturing urban forests has never been more important. By prioritizing tree stewardship, you've not only helped enhance Closter's livability, but you've also invested in a healthier, more sustainable future for your residents.

The Arbor Day Foundation's Tree City USA program has a long legacy of supporting a nationwide network of passionate organizers and tireless tree planters. Since 1976, we've recognized thousands of communities of all sizes that have created and maintained green spaces. While we all work in different corners of the country, we are working in unison to create positive change through trees.

To be named a Tree City USA is to be part of something bigger.

We hope you are as excited as we are to share this accomplishment with your local media and your residents. To that end, we've included a press release for you to distribute at your convenience. A digital copy of the press release and other materials can be found in the Tree City USA Resource Center online at arborday.org/TreeCitytoolkit.

Once again, congratulations on this outstanding achievement and thank you for your dedication to Closter's tree canopy. We believe cities that take care of their trees, take care of their people.

Best Regards,

A handwritten signature in black ink, appearing to read "Dan Lambe".

CLOSTER EARNS 2025 TREE CITY USA RECOGNITION FROM ARBOR DAY FOUNDATION

CLOSTER, New Jersey (3/20/2026) – The Arbor Day Foundation named Closter a 2025 Tree City USA in honor of its commitment to plant, grow, and maintain trees to benefit its community.

The Arbor Day Foundation is a global nonprofit with a mission to inspire people to plant, nurture and celebrate trees. Its network of more than a million supporters and partners has helped the organization plant more than 500 million trees in forests and communities across more than 60 countries. The Foundation's Tree City USA program is now celebrating its 50th recognition season. The anniversary underscores the program's rich history of growing healthier, greener, and more resilient communities through urban forestry.

"For five decades, Tree City USA has rallied passionate local leaders to enhance the livability and sustainability of their communities. Tree champions like Closter are leading the way in a growing movement to shape a better future with trees and action," said Michelle Saulnier, Vice President of Programs at the Arbor Day Foundation. "Trees are critical infrastructure, building resiliency and fostering good health in our nation's cities. We're proud Closter is among the Arbor Day Foundation's growing network of communities dedicated to creating positive impact through trees."

In cities and neighborhoods, trees are proven to help mitigate the urban heat island effect, reduce stormwater runoff, improve air quality, and boost mental and physical health. When the right trees are planted in the right places, they can also reduce traffic noise, increase property values, and lower energy costs for homeowners.

{OPTIONAL QUOTE FROM CITY OFFICIAL/LOCAL TREE CITY REPRESENTATIVE}

To earn Tree City USA recognition, a city must uphold four core standards including maintaining a tree board or department, having a community tree ordinance, spending at least \$2 per capita on urban forestry, and participating in an Arbor Day celebration.

The Arbor Day Foundation's Tree City USA program is operated in partnership with the National Association of State Foresters and the USDA Forest Service. To learn more about the program or how to apply, visit arborday.org.

About the Arbor Day Foundation

The Arbor Day Foundation is a global nonprofit inspiring people to plant, nurture, and celebrate trees. They foster a growing community of more than 1 million leaders, innovators, planters, and supporters united by their bold belief that a more hopeful future can be shaped through the power of trees. For more than 50 years, they've answered critical need with action, planting more than half a billion trees alongside their partners. And this is only the beginning.

The Arbor Day Foundation is a 501(c)(3) nonprofit pursuing a future where all life flourishes through the power of trees. Learn more at arborday.org.

Mayor and Members of the Closter Town Council
295 Closter Dock Road
Closter, NJ 07624
ATTN: Mari Margiotta

Dear Mayor and Members of the Closter Town Council,

My name is Marly Kay, and I am the owner and operator of *Music with Marly* – a local music education and performance organization dedicated to inspiring and developing musicians of all skill levels.

I am writing to respectfully request permission to use the **Closter Bandshell on Friday, June 12th** for our annual **MWM Summer Kickoff Concert**—a community event that brings together our student rock bands and their families to celebrate the end of the school year with live performances across a wide range of musical styles

We typically host this event in the center of Demarest; however, due to construction, our usual location is unavailable this year. At the recommendation of one of our clients, I connected with Recreation Director Jim Oettinger, who suggested the Closter Bandshell as a great alternative.

Mr. Oettinger believes the space is available for use on the requested date, and advised we send this letter to formally reach out for approval. He has also graciously provided us with the necessary paperwork, including the insurance requirements, hold harmless agreement, and contractor agreement.

We are happy to comply with all town requirements to ensure a smooth and successful event, and are willing to attend the Town Council meeting on May 13th to provide additional context if needed.

Please feel free to reach out with any questions at marly@musicwithmarly.com or 908-705-1426—I'd be happy to connect and would truly appreciate guidance on next steps.

Should we receive approval, *Music with Marly* would be honored to host our 2026 Summer Kick-off Concert in Closter.

Thank you very much for your time and consideration.

Best,

Marly Kay

Hello Jimmy,

It was good to see you last week in the Council chambers!

Could you advise about these 2 crosswalks on Durie, at Legion and Tenakill? They are almost invisible to cars due to the deteriorating paint, the angle of the morning and afternoon sun on Durie, and the curve of the street. Not to mention distracted drivers! It is VERY hard to cross at either of these crosswalks.

I am not sure who is responsible for taking care of the paint. Would you be able to pass it along?

And is it possible to post "pedestrian crossing" signs in both directions on Durie?

CCing Alisa with her Police Commissioner hat on.

Thank you!
Miriam Lockhart

PSE&G Energy Efficiency Programs Help Customers Save Nearly \$960 Million a Year

1 message

PSE&G - Public Service Electric and Gas <patricia.sheats@pseg.com>

Fri, May 1, 2026 at 8:32 AM

Reply-To: patricia.sheats@pseg.com

To: mmargiotta@closternj.us

PSE&G Energy Efficiency Programs Help Customers Save Nearly \$960 Million a Year

Approximately 500,000 customers and nearly 22,000 businesses have made energy-saving upgrades that reduce costs, contribute to local economic activity and deliver long-term value across New Jersey communities

(NEWARK, N.J. – April 30, 2026) – PSE&G's latest energy efficiency update shows continued progress in helping customers use energy more efficiently and manage utility bills. Since the launch of the current energy efficiency program in October 2020, approximately 500,000 customers have participated in PSE&G's programs through December 2025.

PSE&G programs are now delivering nearly \$960 million in annual customer bill savings^[i]. The company has also provided approximately \$1.4 billion in rebates^[ii] to help reduce the upfront cost of energy-saving upgrades and products for residential and business customers. This represents real, tangible savings to participating customers, while also contributing to broader energy efficiency benefits that support the state as a whole.

Helping Customers Manage Energy Use and Costs

Customers continue using energy efficiency tools to better manage their energy use and help keep energy costs as low as possible. Recent milestones include:

- More than 108,000 [home energy assessments](#) completed
- Nearly 364,000 smart thermostats purchased through the [PSE&G Marketplace](#)
- Approximately 154,000 [rebates](#) provided for energy efficient electric appliances and equipment
- More than 34,000 [appliances responsibly recycled](#)

In addition, more than 32,000 customers are enrolled in our [Demand Response programs](#)^[iii], receiving an upfront reward and helping to reduce

strain on the electric grid a few times per year during peak demand periods, such as the hottest days of the year.

Overall, these programs offer simple, practical ways to manage energy use, improve comfort and make informed decisions about lowering energy bills.

Supporting New Jersey Businesses, Jobs and Local Economic Activity

Approximately 22,000 businesses, including small businesses, schools, municipalities and hospitals have completed nearly 35,000 energy-saving projects with PSE&G support. This includes work with more than 2,100 small businesses across the state. These projects help manage operating costs and free up resources that organizations can reinvest back into their operations and the communities they serve.

Facing ongoing maintenance challenges and rising operating costs, the [New Jersey Chamber of Commerce](#) upgraded its historic headquarters through PSE&G's Direct Install Program, one of the many offerings within our broader business energy efficiency portfolio.

"Participating in the program allowed us to modernize our historic headquarters in a way that made sense for our operations and our budget," said Christine Lee, facilities manager for the New Jersey Chamber of Commerce. "Before the upgrades, we were dealing with ongoing repairs and inefficiencies that created real uncertainty, especially during the winter months. Today, the building is more comfortable, more reliable and more efficient, and we're able to focus our time and resources on serving our members. Over time, the savings from these upgrades will allow us to reinvest more back into our organization."

These upgrades, and the ongoing work to deliver them, are supported by a network of more than 1,000 trade allies, including more than 100 union-affiliated contractors who help implement energy efficiency improvements for customers, supporting jobs and sustaining economic activity across New Jersey. To date, union labor has directly worked on more than \$130 million in energy efficiency investments.

Additionally, our energy efficiency programs have supported more than 9,300 clean energy careers^[iv], helping to build and sustain a skilled local workforce.

Community and Environmental Impact

Customer actions are also driving measurable environmental gains across communities. Current results show approximately 3.3 million MWh in annual electric savings and 83 million therms in annual natural gas savings. Together, these efforts help avoid more than 2.4 million metric tons of carbon emissions each year, equivalent to removing more than 530,000 gasoline-powered cars from the road annually^[v]. Electric savings alone are enough to power approximately 475,000 homes for one year^[vi], a clear demonstration of the scale of impact.

"With nearly 500,000 customers participating and about \$960 million in yearly savings, our energy efficiency programs are making a real difference for

households and businesses across New Jersey,” said Lauren Thomas, vice president, Clean Energy Solutions – Customer Solutions, PSE&G. “We’re focused on maintaining a stable, consistent program framework that supports the workforce, encourages continued investment and allows us to build on this progress.”

Keeping Bills as Low as Possible

As energy needs continue to evolve, energy efficiency remains one of the most effective tools available to help customers better manage their energy use and keep their bills as low as possible.

PSE&G will continue working with stakeholders across the state to support this shared goal and maintain a stable, accessible framework that delivers long-term value for customers and communities.

Customers can explore available programs at homeenergy.pseg.com for residential offerings or bizenergy.pseg.com for business programs.

###

PSE&G

Public Service Electric & Gas Co. is New Jersey’s oldest and largest gas and electric delivery public utility, as well as one of the nation’s largest utilities. PSE&G has won the ReliabilityOne[®] Award for superior electric system reliability in the Mid-Atlantic region for 24 consecutive years. In 2025, for the fourth consecutive year, J.D. Power named PSE&G number one in customer satisfaction for residential electric service in the East among large utilities. PSE&G is a subsidiary of Public Service Enterprise Group Inc., (PSEG) (NYSE:PEG), a predominantly regulated infrastructure company named to the Dow Jones Sustainability Index for North America for 17 consecutive years (www.pseg.com).

Forward-Looking Statements

This release includes forward-looking statements, including but not limited to statements regarding anticipated or expected energy savings, cost saving and greenhouse gas emissions avoidance. There can be no assurance that such energy and costs savings and greenhouse gas emissions avoidance will be realized in the amounts described and / or in the timeframes anticipated. Such statements are based on management’s beliefs as well as assumptions made by and information currently available to management but are subject to risks and uncertainties, which could cause actual results to differ materially from those anticipated. Factors that may cause actual results to differ include, without limitation: the ability to implement our energy efficiency business strategy, and customer adoption of our energy efficiency offerings. All forward-looking statements made in this release are qualified by these cautionary statements and readers are cautioned not to place undue reliance on these forward-looking statements. The forward-looking statements contained in this Report are intended to qualify for the safe harbor provisions of Section 27A of

the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended.

Preparing for the World Cup

The FIFA World Cup 2026 is coming soon – and so are millions of visitors, which is anticipated to generate significant traffic congestion and delays in June and July. Matches will take place in East Rutherford, New Jersey (NYNJ Stadium) and Philadelphia, Pennsylvania (Philadelphia Field) from June 11 through July 19. Also, “Fan Festivals” with live match broadcasts, music, and performances will be hosted in Harrison, NJ (at Sports Illustrated Stadium) and Philadelphia (at Lemon Hill) during this period.

In addition, large-scale events will be taking place in New York and Philadelphia to celebrate the United States’ 250th birthday on and in the weeks leading up to July 4.

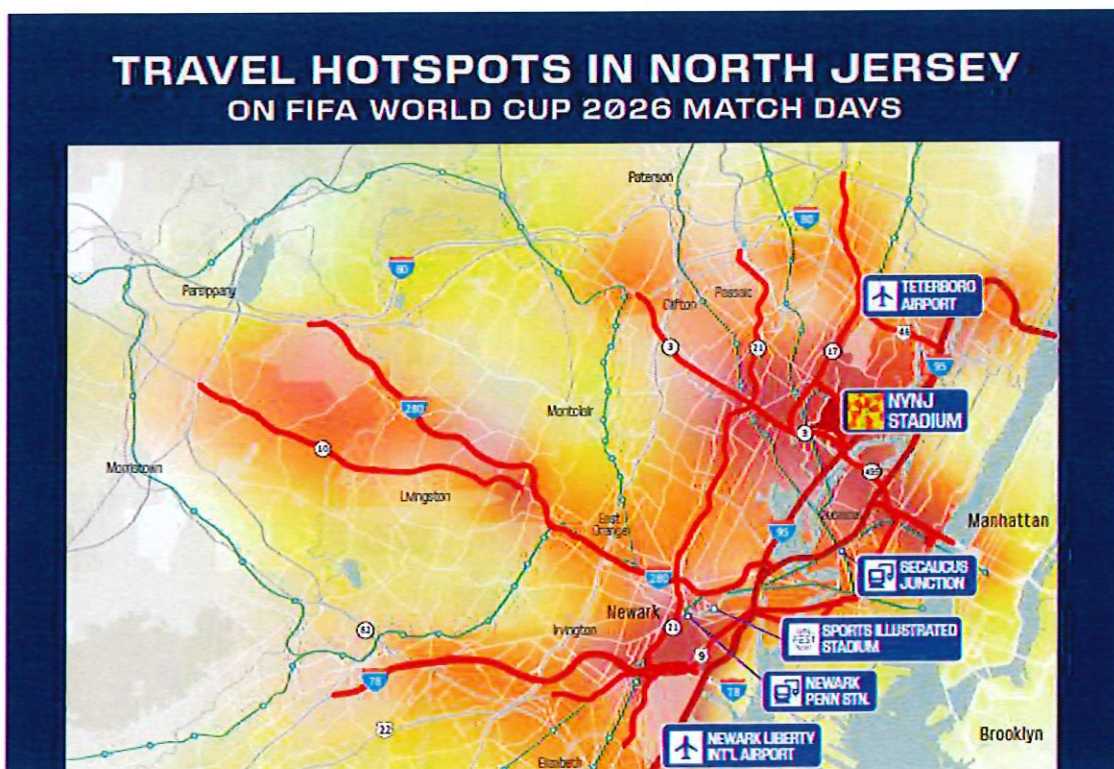

These events will generate significant vehicular traffic and public transit ridership on top of local traffic. The heaviest demand is anticipated to be between 5 hours before and 5 hours after kickoff.

Traffic Advisory Toolkit to Reduce Travel Demand

The New Jersey Department of Transportation (NJDOT) has been working to manage the anticipated transportation demand for the upcoming FIFA World Cup. Local officials can play an important role in letting residents and commuters know about these impacts and helping to reduce travel as much as possible during this period.

NJDOT has developed a communications toolkit designed to support you in keeping your audience informed and responding to questions or concerns that may arise. The provided materials can be shared through social media, newsletters, websites, meetings, building lobbies, and other channels.

Mental Health Awareness Month 2026

See the Person. Support the Journey

Mental health is part of everyday life. It shapes how we think, feel, connect with others, and move through the world. This year's theme highlights the importance of:

- Noticing early signs of mental health concerns
- Strengthening the support around us
- Responding with care and compassion during challenging moments

Mental health touches every part of life — from housing and work to relationships and community. When mental health challenges arise, they often intersect with substance use, and whole person care that addresses both is essential to lasting recovery and well-being.
