ParentSquare Information for Families

Elkins School District uses **ParentSquare** as our primary communication tool for families, bringing district, school, and classroom communications together in one place—including important announcements, classroom updates, and emergency notifications.

You Are Already Registered

Parents and guardians are automatically registered for ParentSquare using the contact information provided when their student is enrolled. You do not need the app or an account to receive important school communications.

Even without the app, you will still receive notifications by email at the address we have on file. Some messages may also be delivered by text or voice call.

We Encourage You to Download the App

While the app is not required, **the free ParentSquare app is the best way to stay connected and take advantage of everything ParentSquare offers.**

With the app, you can:

- Receive district, school, and classroom updates
- Message teachers and staff
- Complete forms and permission slips
- Sign up for conferences and activities
- View calendars and events
- Receive translations in your preferred language
- Manage your notification preferences

You Can Sign In Today!

You do NOT need to wait for an invitation to use the ParentSquare app. If your email address or mobile phone number is on file with the district, you can download the app and use that information to access your account.

Download ParentSquare

iPhone: Download from the Apple App Store
Android: Download from Google Play

You can also use ParentSquare online at www.parentsquare.com.

We encourage every family to download the app and stay connected!
