

Public Comment at Board Meetings

The Lansing Board of Education is committed to hearing from the community during community input.

Please make note that:

- The Board will not permit in public session any discussion involving individual district personnel or students. Persons wishing to discuss matters involving individual district personnel or students should present their comments and/or concerns to the Superintendent or Board President/Vice President during regular business hours. This is to protect the privacy of our staff and students and to keep the district from legal implication.
- We expect all speakers and observers to conduct themselves in a civil manner. Obscene language, defamatory statements, threats of violence, statements advocating racial, religious, or other forms of prejudice will not be tolerated.

Thank you for acting in accordance with the District Code of Conduct and Board Policies.
