

Notification and Opt-Out Form for Student Social-Emotional Growth Measure Survey 2025-2026

Dear Parent or Guardian,

During the school year, students in grades 3 through 12 will have the opportunity to participate in a social-emotional growth measure survey administered at the beginning, middle, and end of the year to assess their social-emotional development. This survey is designed to capture student voice, allowing them to express their perspectives about school culture, climate, and their classroom experiences. The Student Supports and Environments portion of the survey will enable students to provide feedback specifically on their sense of belonging and teacher-student relationships. The Student Skills and Social-Emotional Learning Competency Measures will allow students to reflect on their feelings and behaviors concerning positive and challenging emotions, self-management, social awareness, and growth mindset.

This information will enable us to make informed, timely decisions that support our students' social-emotional development and create learning environments where the whole child can thrive.

If you do not want your child to participate, please complete the opt-out form below and return it to your child's teacher. If your child is in middle or high school, please have them submit the form to their first-period teacher. If you have any questions, please contact the school counselor.

Respectfully,

Sandra Montes-Uranga
Executive Director, Whole Learner
El Paso Independent School District

Please fill-in, sign, and return this form if you DO NOT want your child to participate.

_____ **does NOT have permission** to participate in the
(Child's name)
social emotional growth measure survey. *(Only applies to students in grades 3-12)*
