

Dear New 5th Grade Student,

We hope you had a terrific summer! We are ready to learn and have an incredible year together! Fifth grade will be challenging but also very fun. You'll have some wonderful experiences (like Outdoor Education) that will give you lots of fond memories of your last year at Bancroft.

This year you will learn about Living Systems, Sun and Earth, and Mixtures and Solutions in science. You will learn about colonial America in social studies and lots of new concepts in math using Eureka Math². You'll continue to learn reading and writing strategies and more in language arts. In fifth grade you have two physical education classes per week as well as music, art, media and chorus once a week. We'll also work on the laptops.

Since the first day is almost here, it's time to gather your supplies. Be sure to bring a book that you are reading! This supply list is available on the school website. Enjoy the remaining days of summer. We can't wait to see you and begin working together.

See you soon!

Sincerely,
The 5th Grade Team
Ms. Weymouth
Mr. Scanlon
Ms. Moriarty
Ms. McDonough
Mrs. Lovejoy

Bancroft School
