

**Norway-Vulcan Area Schools**  
**Learning Loss Grant Description**  
**Fall 2022**

Norway-Vulcan Area Schools will use Learning Loss Grant funds in order to help keep high school students on track for on-time graduation. Adding hours to our Counseling Secretary position will be targeted at tracking students who have shown to be at risk of falling behind in their required high school credits. Our goal is to more rapidly identify such students in order to involve our singular district counselor. The extra help will allow our counselor to have more time to work with students as soon as concerns develop.
