Health & Wellness

HI EVERYONE! HERE ARE SOME FACTS ABOUT BREAST CANCER... YOU SHOULD KNOW!

- Breast cancer is the most common cancer diagnosed among women in the United States. Although rare, breast cancer does occur in men.
- Monthly breast exams remain the most important, noninvasive screening method. If you feel something different, tell your parent/guardian or doctor.
- As young adults, it is important to make healthy lifestyle choices to promote growth and wellness for the coming years.
- Get to know your body. It is yours and it's the only one you get! Talk to your doctor about any changes you notice and don't put it off.
- Eat healthy foods and exercise. Watch portion sizes and read the labels on the foods you choose to eat. Children and teens should engage in at least 1 hour of moderate to vigorous activity daily.

The pink ribbon stands as a symbol of hope. Don't forget to wear your pink during October to remember those we have lost, to honor the survivors, and to show support to those currently fighting to overcome breast cancer.

It started with an idea...

We, the yearbook staff, have been hard at work continuing some of the traditions of the Chilhowee R-4 school. One of those traditions is putting out a publication that emphasizes positivity, students, and community. Even though we know this is a small way to outreach, we are excited to be your new staff for "The Arrow". "Bringing back a family, community, and school tradition."
