Wilson leads Neptune to title - AAHS student
Student Voices - AAHS student - honorable mention
Yankees' Honorary Bat Girl Selected - HTHS student
Advocacy & Education - Student Scientists for a Day

B. Letters
C. Awards

VI. Facilities/Maintenance

A. CHS/Parking Lot - A lot of earth was removed and stockpiled off site at "Marlin Construction" facility (site contractor for Straight Edge Construction.) Grade in some areas was prepped for the underground storm drainage. Materials such as all the underground detention system, firecast manholes and inlet-outlets are on site. School being out now the contractor has relocated the site fence so part of the existing lot can also be prepared for drainage work tie-ins. All appears to be on schedule.

B. BTHS Tissue Lab - The architect "CMA" received approval from the State DOE to proceed for bidding. We put an ad in the Press and advertised for a general contract. The bids are due June 21.

C. Security/Safety - The sign contractor has completed 7 of the 14 sites so far. He is trying to complete the project by June 30. Now that school is out, he hopes it will go faster.

VII. Accidents

Staff - 2 accidents
AAHS - 1 accident
BTHS - 2 accidents
Career Center - 3 accidents
CEC - 2 accidents
CHS - 1 accident
CLASS - 1 accident
HTHS - 3 accidents
KIVA - 2 accidents
MAST - 2 accidents
Shared-Time - 3 accidents

VIII. Suspensions

KIVA - 4 students, 4 days (1 student removed)

IX. Emergency Drills (See Attachment #8)
