Clear Fork Valley Schools Well-Being and Mental Health Committee

The Clear Fork Valley Local School District Well-Being and Mental Health Committee is being established as a Board committee to support the Clear Fork Valley Local School District Board of Education in promoting mental health awareness and supporting the overall health and well-being of students, and staff throughout the Valley.

The committee seeks to partner with the Clear Fork Valley Local School Board to continue its focus on meeting the needs of students, parents and families, staff, and the broader community. Through collaboration with the Board and community partners, the committee will help identify, develop, and recommend strategic resources that contribute to the continuous improvement and long-term success of the Clear Fork Valley Local School District.

The Health and Well-Being Committee will review existing services and programs, evaluate how effectively they meet district needs, and identify gaps or challenges related to access, coordination, funding, and sustainability. The committee will also examine best practices in health and wellness and make recommendations for new or enhanced services, resource allocation, partnership, and other actions that support the district's goals.

The committee is seeking community stakeholders who have an interest in student and staff well-being, background, and a passion for service to participate in this important work. Please use the link below to be considered for a volunteer position on the committee. Submissions will be reviewed, and selected participants will be contacted with more details. Candidates can apply through filling out the application located on the district website or the link below. If you have any additional questions, please reach out to Terry McDermott or Ryan Vermillion.

Well-being and Mental Health Committee

Sincerely,

Terry McDermott
Member, Board of Education
Clear Fork Valley Local School District
