August 25, 2026

To Parent, Teacher & Employee Organizations:

The Oldmans Twp. Board of Education has contracted with EnviroVision Consultants Inc. to act as their Environmental Consultant pertaining to AHERA (The Emergency Response Act) of 1986. AHERA required that all educational facilities be inspected for asbestos – containing materials and develop a remedial plan of action on or before May 9, 1989. In addition, each educational facility shall reassess all identified asbestos – containing materials or materials assumed to be asbestos, at least once every six months (Periodic Surveillance) and re-inspect those facilities every three years (Tri-annual Re-inspection).

The Oldmans Twp. Board of Education is in compliance with these requirements. The most recent Tri-annual re-inspection was performed in July of 2025. "Periodic Surveillance" inspections are conducted every January and July unless a Tri-annual Re-inspection is performed. The latest "Periodic Surveillance" was conducted in July of 2026, with the next one scheduled for January, 2027.

Following each inspection, appropriate remedial actions are recommended to the Board of Education by an accredited Asbestos Management Planner. The remedial plan of action and recommended schedules for implementation (Asbestos Management Plan) is available for review at the Oldmans Twp. Board of Education Administrative Office.

We will continue to keep you informed of our AHERA compliance.

Respectfully Yours,

Cathy DiNardo
EnviroVision Consultants Inc.
on behalf of the Oldmans Twp. Board of Education
