CULINARY ARTS

Cooking for Kids

Anya Nyberg

Grades 5-8

Cooking for Kids is a class that will teach your children how to create their own snacks and meals for before or after school and even a few dinner recipes that you can make together. Cooking encourages children's thinking, problem-solving, and creativity. It also allows children the opportunity to use the knowledge they have and apply it by counting, measuring, following a sequence, following directions, and cause and effect. Throughout this class, your children will build their culinary skills, self-confidence and independence. In addition, they will also design their very own cookbook. It will be designed by them and full of easy to make recipes! Cookbook and all ingredients included in class fee. Students should bring a water bottle, extra hair-ties (to pull hair back as needed), pencil/pen to edit their

cookbooks. Students should wear closed-toe shoes (sneakers), no loose clothing- they should wear clothes they are comfortable in but don't mind getting dirty, long hair needs to be tied back and should bring a full-length apron. Please make sure to let us know if your child has any dietary restrictions prior to signing up so recipes can be adjusted accordingly. Get ready to get cookin'!

Our Summer Learning Camp

Brandi DiCesare & Alexandria Kruzynski Grades K-3

Our Summer Learning Camp is a fun and engaging program for students in grades K-3 designed to keep children learning, creating, and making new friends throughout the summer. Each week features a brand-new theme that brings exciting, hands-on activities, games, and creative projects that spark curiosity and imagination. Campers will strengthen important reading, writing, and math skills through playful learning experiences that feel fun and interactive rather than like schoolwork. Throughout the program, students will also build

social skills, practice teamwork, and develop confidence while working and playing together in a supportive environment. Each day will include sensory play, creative art activities, movement, and collaborative learning experiences that encourage exploration and creativity. Activities are thoughtfully designed to meet students where they are, allowing each child to grow at their own pace while feeling successful and supported. Our goal is to create a warm, welcoming space where children feel excited to learn, try new things, and connect with others. By keeping students engaged in meaningful learning throughout the summer, the camp also helps reduce academic and social regression while preparing them to return to school feeling confident and ready for the new year. With themed weeks, hands-on learning, creativity, and lots of fun, it will be a summer filled with discovery, laughter, and new friendships.

Students should bring a water bottle and snack and wear comfortable clothing. M-F 9-12pm

Science of Supers

Christopher Shave Grades 3-6

There's a little superhero in all of us. Science fiction superheroes are everywhere, often defying basic scientific laws in order to save the day. We will explore the real science of the four most universal powers: flight, strength, enhanced senses, and mind control/ telekinesis and

will consider how these powers work within the fictional world and then discover the real science behind each power, how it works as well as advancements that allow humans to augment their own natural abilities. Along the way we will do some experiments and discuss the potential positives and negatives to a person gaining such powers. And, yes, we will absolutely debate the question of whether a hero needs a cape! Students should wear comfortable clothes and bring a water bottle and snack.

VOLUNTEERS NEEDED!

Arlington Summer Kids is back!!! If you need to earn Community Service Credits, and can provide your own transportation, this program will be a good opportunity for you. We are looking for student volunteers to assist teachers in a variety of courses. Classes range from Science, Art, Computers, Music, Sports, Fitness... A copy of the summer program is attached. You may recognize some of the summer teachers and may wish to work with them, or, you may decide to work in an area that you excel in, want to major in, or it's one of your favorite past times. All the same, you would probably be a perfect fit for any of these reasons. You may also view classes online: <https://arlingtonschools.revtrak.net>. Arlington Summer Kids 2026 program will be held at Union Vale Middle School from 9am-12pm. Monday through Friday.

If you are interested, kindly fill in the form below, have your parents sign the permission portion and return to my office (rm 2102) by **June 16th**. As long as the class(es) that you are interested in run (sufficient enrollment), we will try to place you in those classes. **This opportunity is for Arlington High School Students.**
