# Governor's Educator of the Year (GEOY) Nomination Form Scoring Guide

Please form a selection panel of at least four members who represent a cross section of administrators, board members, teachers, educational services professional, parents and local education association representatives.

This panel should represent the diversity of the school community and must be refreshed every four years. If applicable, the outgoing Teacher and Educational Services Professional of the Year should be on the panel.

Please have each member of the scoring committee use this form to score each eligible nomination form using a 1 to10 scale for each criterion.

Compile all the results into a spreadsheet computing the total scores or average score. The candidate(s) with the highest score is/are the Teacher of the Year and the Educational Services Professional of the Year.

**New:** All nominees' scores must be entered in the School Information Form section built directly into the GEOY online registration system

## Scoring Information

Name of Candidate: _____ Panelist Name: _____

School: _____

| Average<br>1 to 4 points | Above Average<br>5 to 7 points | Outstanding<br>8 to 10 points |
