IV. Prohibited Student Conduct

The Board of Education expects all students to conduct themselves in an appropriate and civil manner, with proper regard for the rights and welfare of other students, District personnel, and other members of the school community, and for the proper care of school facilities and equipment. The best discipline is self-imposed, and students must learn to assume and accept responsibility for their own behavior. While the Board recognizes the importance of positive peer interactions and the ability of peers to resolve conflicts amongst themselves, students should be mindful that there may be circumstances where it is not appropriate to attempt to resolve conflicts on their own. Passive participation by a student at an illegal or forbidden act which otherwise endangers the health, safety welfare and/ or morals of the passively participating student and/ or that of another person/ student could result in disciplinary consequence for that student. Passive participation shall be defined as a student's voluntary presence at the site of an illegal or forbidden act, which otherwise endangers the health, safety, welfare and/ or morals of any person/ student.

The Board recognizes the need to make its expectations for student conduct while on school property or engaged in a school function specific and clear. The rules of conduct listed below are intended to do that and focus on safety and respect for the rights and property of others. Students who will not accept responsibility for their own behavior and who violate these school rules will be required to accept the penalties for their conduct. Off Campus conduct may be subject to school discipline should the District determine in its discretion that such conduct creates a hostile environment for the victim at school, or materially and substantially disrupts the educational process or the orderly operation of any school building.

Additional information on DASA reporting including DASA reporting forms are published on our website at: https://www.klschools.org/dasa_bullying.

Any weapon, alcohol, or any substance prohibited by this Code of Conduct found shall be confiscated immediately, if possible, followed by notification to the parent of the student involved and the appropriate disciplinary sanction if warranted, which may include permanent suspension and/or referral to the local law enforcement agency.

The building Principal, or their designee, must notify the appropriate local law enforcement agency of those code violations that constitute a crime that substantially affects the order or security of a school. (Examples include but are not limited to: causing a crime where the damages exceed \$250, committing an assault on any school community member, possessing a weapon, drug, or illegal substance).

Notification to the local law enforcement agency will be as soon as practicable. The notification must identify the student and explain the conduct that violated the Code of Conduct and constituted a crime.

VI. Student Dress Code

Each building Principal or their designee shall be responsible for informing all students and their parents of the student dress code at the beginning of the school year and any revisions to the dress code made during the school year. The determination of whether or not a garment is appropriate for school is in the discretion of the building administration.

All students are expected to give proper attention to personal cleanliness and to dress appropriately for school and school functions. Students and their parents have the primary responsibility for acceptable student dress and appearance. Teachers and all other District personnel should exemplify and reinforce acceptable student dress and help students develop an understanding of appropriate appearance in the school setting. At all times, dress must be safe, appropriate and not disrupt or interfere with the educational process.

A student's dress shall:

- Not include items that are vulgar, obscene, and libelous or denigrate others on account of race, color, weight, national origin, ethnic group, religion, religious practice, disability, sexual orientation, gender identity or expression, sex, reproductive health decisions, predisposing genetic characteristics.

- Cover undergarments (waistbands and bra straps are allowed to show).
- Cover all private parts and the fabric covering private parts must not be see through.
- Include footwear that must be worn at all times while in a school building or on school property.
- Not promote and/or endorse the use of alcohol, tobacco, vape products, cannabis, or illegal substances and/or encourage other illegal or violent activities.
- Not include jewelry that can be dangerous such as spiked bracelets or neck collars.
- (In the elementary schools and middle school only) Ensure that hats or other headgear are not worn in hallways, dining room/cafeteria, classrooms, or any instructional areas. The administration may make allowances for special days such as spirit week. Exceptions will also be made for medical or religious requirements.
- Ensure that the student is personally identifiable at all times. Exceptions will be made for medical or religious requirements.

This student dress code shall be enforced consistently across the District. It shall be enforced with all respect for student privacy and confidentiality, and infractions will be handled on an individual basis.

Students who violate the student dress code shall be required to modify their appearance by covering or removing the offending items and, if necessary or practical, replacing it with an acceptable item. Any student who refuses to do so shall be subject to discipline. Any student who repeatedly fails to comply with the dress code shall be subject to further discipline.

VII. Disciplinary Actions, Procedures and Specific Penalties/Actions

The purpose of discipline in schools is to help students learn from their actions. Disciplinary actions should be seen not as punishments, but as tools to help students learn. These actions, when necessary, will be fair, and consistent so as to be the most effective in changing student behavior. In determining the appropriate disciplinary action, school personnel authorized to impose disciplinary penalties will consider the following:

- The student's age.
- The nature of the offense and the circumstances that led to the offense.
- The student's prior disciplinary record.
- The effectiveness of other forms of discipline.
- Information from parents, teachers, and/or others, as appropriate.
- Other extenuating circumstances.

Discipline is most effective when it deals directly with the problem at the time and place it occurs, and in a way that students view as fair and impartial. School personnel who interact with students are expected to use disciplinary action only when necessary and to place emphasis on the student's ability to grow in self-discipline.

A. Disciplinary Actions

It is the Board's desire that student discipline is progressive and restorative; thus a student's first violation may merit a lighter penalty or action than subsequent violations; however, depending upon the nature of the violation, any one of these penalties/actions can be implemented.

The District supports the development of measured, balanced and age-appropriate responses to the bullying, harassment and/or discrimination of students by students and/or employees on school

property, including school functions, with remedies and procedures focusing on intervention and education. Successful intervention may involve remediation.

Remedial responses to bullying, harassment, and discrimination include measures designed to correct the problem behavior, prevent another occurrence of the behavior and protect the target of the act.

The following penalties and/or actions may be implemented, either alone or in combination, for violation of the Student Code of Conduct:

- Oral warning to student
- Oral notification to parent/guardian
- Written warning to student
- Written notification to parent/guardian
- Restitution and restoration
- Peer support groups
- Corrective instruction or other relevant learning or service experience
- Changes in class schedule
- Supportive intervention
- Behavioral assessment or evaluation
- Behavioral management plans, with benchmarks that are closely monitored
- Student counseling
- Teacher conference
- Parent conferences
- Reprimand
- Detention
- Referral to legal action, police
- Suspension from transportation
- Suspension of parking privileges
- Suspension of driving privileges
- Exclusion from a particular class
- Suspension from after school or extra-curricular activities such as newspaper, athletics, drama, music, etc.
- In-school suspension
- Suspension of five (5) days or less
- Suspension of greater than five (5) days
- Permanent suspension
- Probation
- Environmental remediation

Environmental remediation may include, but is not limited to:

- School and community surveys or other strategies for determining the conditions contributing to the relevant behavior
- Modification of schedules
- Adjustment in hallway traffic and other student routes of travel
- Targeted use of monitors
- Staff professional development
- Parent education seminars/workshops

- Peer support groups
- If appropriate, disciplinary action will be implemented in accordance with the provisions of this Code. If the behavior rises to the level of criminal activity, law enforcement will be contacted.

Staff is expected, when aware of bullying, harassment, and/or discrimination, to refer the student to designated resources for assistance and/or intervene in accordance with the provisions of this Code.

In addition to the above consequences, the Building Principal or their designee may implement restorative practices on a case-by-case basis to mediate a conflict.

B. Procedures

In the case of a student charged with having violated the rules and regulations found in this Student Code of Conduct, the Principal of the school or their designee shall be authorized to determine whether a violation has occurred. Subsequently, any penalties authorized by law, including but not limited to a suspension for a period of up to five (5) school days, can be imposed by a Principal or their designee. In all cases, the student must be informed of the alleged misconduct and be given an opportunity to respond to the allegation(s).

Furthermore, to the extent necessary, the facts surrounding the alleged misconduct will be investigated by the Principal or their designee.

In determining the guilt or innocence of a student, the Principal or their designee shall not consider any information other than the evidence relevant to the guilt or innocence of the student with regard to the conduct with which the student is charged. If a student is determined by the Principal or their designee to have engaged in the conduct alleged, the student's parent(s) shall be so notified and shall be given the opportunity to attend an informal conference with the complaining witness(es), which, depending on the circumstances, may be the Principal or their designee, to discuss the misconduct and the proposed or imposed penalty. Parents and students should be aware that, in the event the District determines that a student's conduct poses a danger or ongoing threat of disruption, the disciplinary penalty may be imposed prior to holding the informal conference. If a student's conduct is determined by the District not to pose a danger or ongoing threat of disruption, the student's parent(s) will be notified and given the opportunity for an informal conference to discuss the proposed disciplinary action prior to the imposition of such penalty. If a student is determined to be innocent of a disciplinary infraction, any reference to the alleged infraction or related proceedings shall be expunged from the student's school records.

In the event that the Principal determines that the violation warrants a penalty of a suspension of more than five (5) school days, the matter shall be referred to the Superintendent of Schools for a hearing pursuant to Section 3214 of the Education Law. The parent(s)/guardians will be notified in writing as to the time and place of the hearing. Such notice shall be provided within a reasonable period of time prior to the hearing and shall provide reasonable notice as to the disciplinary charges upon which the hearing is based.

C. Specific Penalties or Actions

1. Detention:

Teachers, Principals and the Superintendent may use detention as a penalty for student misconduct in situations where removal from the classroom or suspension would be inappropriate. A student who is required to serve a detention as a penalty for misconduct is not entitled to a hearing pursuant to Education Law §3214.

2. Suspension from Transportation:

If a student does not conduct himself/herself properly on a bus, the bus driver is expected to bring such misconduct to the Principal's or their designee's attention. Students who become a serious disciplinary problem may have their riding privileges suspended by the Principal, Superintendent, or their designee(s).

- When a student is suspended from transportation, their parents are responsible for seeing that the student gets to and from school safely.
- A student subjected to a suspension from transportation is not entitled to a hearing pursuant to Education Law §3214. However, the student and the student's parent(s) will be provided with a reasonable opportunity for an informal conference with the Principal or the Principal's designee to discuss the conduct and the penalty involved.

3. Suspension from Athletic Participation, Extra-curricular Activities and Other Privileges:

A student subjected to a suspension from athletic participation, extra-curricular activities, or other privileges is not entitled to a hearing pursuant to Education Law §3214. However, the student and the student's parent(s) will be provided with a reasonable opportunity for an informal conference, as soon as practicable, with the District official imposing the suspension to discuss the conduct and the penalty involved. Board Policies 5205 and 5260 contain specific rules governing participation in athletic and extracurricular activities.

4. In-School Suspension:

The Board recognizes the necessity to balance students' need to attend school and the need for order in the classroom to establish an environment conducive to learning. As such, the Board authorizes Principals and the Superintendent to place students in "in-school suspension."

- A student subjected to an in-school suspension is not entitled to a hearing pursuant to Education Law §3214. However, the student and the student's parent(s) will be provided with a reasonable opportunity for an informal conference, as soon as practicable, with the District official imposing the in-school suspension to discuss the conduct and the penalty involved.

5. Teacher Disciplinary Removal of Disruptive Students:

A student's behavior can affect a teacher's ability to teach and can make it difficult for other students in the classroom to learn. In most instances the classroom teacher can control a student's behavior and maintain or restore control over the classroom by using good classroom management techniques. These techniques may include practices that involve the teacher directing a student to briefly leave the classroom to give the student an opportunity to regain his or her composure and self-control in an alternative setting. Such practices may include, but are not limited to: (1) short-term removal from a classroom; (2) sending a student to an Administrator's office for the remainder of the class time only; or (3) sending a student to a guidance counselor or other District staff member for counseling. Time-honored classroom management techniques such as these do not constitute disciplinary removals

for purposes of this Code of Conduct.

- On occasion, a student's behavior may become disruptive. For purposes of this Code of Conduct, a disruptive student is a student who is substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom. A substantial disruption of the educational process or substantial interference with a teacher's authority occurs when a student demonstrates a persistent unwillingness to comply with the teacher's instructions and/or repeatedly violates the teacher's classroom behavior rules.
- A classroom teacher may remove a disruptive student from class for the remainder of the class and up to two (2) additional days. The removal from class applies to the class of the removing teacher only. Prior to such removal, the teacher must provide the student with an explanation for why he or she is being removed and provide an opportunity to explain his or her version of the relevant events.
- The teacher must complete a School-established disciplinary removal form and meet with the Principal or his or her designee as soon as possible, but no later than the end of the school day, to explain the circumstances of the removal and to present the removal form. If the Principal or designee is not available by the end of the same school day, the teacher must leave the form with the secretary and meet with the Principal or their designee prior to the beginning of classes on the next school day.
- Within 24 hours after the student's removal, the Principal or another District administrator designated by the Principal must notify the student's parent, in writing, that the student has been removed from class and why. The notice must also inform the parent that he or she has the right, upon request, to meet informally with the Principal or their designee to discuss the reasons for the removal, provided that if such twenty-four (24) hour period does not end on a school day, it shall be extended to the corresponding time on the next school day.
- The written notice must be provided by personal delivery, express mail delivery, e-mail, or some other means that is reasonably calculated to assure receipt of the notice within 24 hours of the student's removal at the last known address for the parent. Where possible, notice should also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting parents.
- The Principal may require the teacher who ordered the removal to attend the informal conference.
- If at the informal meeting the student denies the charges, the Principal or their designee must explain why the student was removed and give the student and the student's parents a chance to present the student's version of the relevant events. The informal meeting must be held within 48 hours of the student's removal. The timing of the informal meeting may be extended by mutual agreement of the parent and Principal.
- The Principal or their designee may overturn the removal of the student from class if the Principal finds any one of the following:
 - The charges against the student are not supported by substantial evidence.
 - The student's removal is otherwise in violation of law, including the District's Code of Conduct.
 - The conduct warrants suspension from school pursuant to Education Law §3214 and a suspension will be imposed.
- The Principal or their designee may overturn a removal at any point between receiving the referral form issued by the teacher and the close of business on the day following

the 48-hour period for the informal conference, if a conference is requested. No student removed from the classroom by the classroom teacher will be permitted to return to the classroom until the Principal makes a final determination, or the period of removal expires, whichever is less.

- Any disruptive student removed from the classroom by the classroom teacher shall be offered continued educational programming and activities until he or she is permitted to return to the classroom.
- The Principal or their designee must keep a log of all removals of students from class.
- Removal of a student with a disability, under certain circumstances, may constitute a change in the student's placement. Accordingly, no teacher may remove a student with a disability from his or her placement until he or she has verified with the Principal or the chairperson of the Committee on Special Education that the removal will not violate the student's rights under state or federal law or regulation.

6. Suspension from School:

Suspension from school is a severe penalty, which may be imposed only upon students who are insubordinate, disorderly, violent or disruptive, or whose conduct otherwise endangers the safety, morals, health or welfare of themselves and/or others.

- The Board retains its authority to suspend students, but places primary responsibility for the suspension of students with the Superintendent and the Principals.
- Any staff member may recommend to the Superintendent or the Principal that a student be suspended. All staff members must immediately report and refer a violent student to the Principal or the Superintendent. All recommendations and referrals shall be made in writing unless the conditions underlying the recommendation or referral warrant immediate attention. In such cases a written report is to be prepared as soon as possible by the staff member recommending the suspension.
- The Superintendent or Principal, upon receiving a recommendation or referral for suspension or when processing a case for suspension, shall gather the facts relevant to the matter and record them for subsequent presentation at a hearing, if applicable.

7. Short-term Suspension from School (five (5) days or fewer):

- When the Superintendent or Principal (referred to as the “suspending authority”) proposes to suspend a student charged with misconduct for five (5) days or less pursuant to Education Law §3214(3), the suspending authority must immediately notify the student orally and provide him/her an opportunity to respond to the allegation(s). If the student denies the misconduct, the suspending authority must provide an explanation of the basis for the proposed suspension. The suspending authority must also notify the student’s parents in writing that the student may be suspended from school unless the student’s conduct has been determined by the District to pose a danger, in which case the parent(s)/guardian(s) will be notified in writing that their child has been suspended. The written notice must be provided by personal delivery, express mail delivery, or some other means that is reasonably calculated to assure receipt of the notice within 24 hours of the decision to propose or impose suspension at the last known address for the parents. Where possible, notice should also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting the parents.
- The notice shall provide a reasonable description of the charges against the student and the

incident for which suspension is proposed or imposed and shall inform the parents of the right to request an immediate informal conference with the Principal. At the informal conference, should the parent(s)/guardians so choose to attend, the parents/guardians shall be permitted to ask questions of the complaining witness(es) under such procedures as the Principal may establish. Parents should be aware that, depending on the circumstances, the Principal or their designee may be the complaining witness.

- The notice and opportunity for an informal conference shall take place before the student is suspended unless the student's presence in school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process. If, in the discretion of the District, the student's presence does pose such a danger or threat of disruption, the notice and opportunity for an informal conference shall take place as soon after the suspension as is reasonably practicable.
- After the informal conference in cases where a suspension is being proposed, should the parent(s) choose to attend, the Principal shall promptly advise the parent(s) in writing of his or her decision of whether to impose the suspension. In cases where the student's conduct has been determined by the District to pose a danger, the parent(s)/guardian(s) may be notified in writing prior to the informal conference that their child has been suspended. The Principal shall advise the parents that if they are not satisfied with the decision and wish to pursue the matter, they may file a written appeal to the Superintendent within thirty (30) days of the date of the letter, unless they can show extraordinary circumstances precluding them from doing so. Parents should understand that the Superintendent will review the record regarding the matter, but will not meet with the parent, the student, and/or advocates/attorneys regarding the appeal. The record is defined as those documents and/or information used by the Principal or their designee in determining to suspend the student, i.e. no additional documentation and/or information will be considered on appeal. The Superintendent shall issue a written decision regarding the appeal within ten (10) business days of receiving the appeal. If the parents are not satisfied with the Superintendent's decision, they may file a written appeal to the Board of Education with the District Clerk within thirty (30) calendar days of the date of the Superintendent's decision, unless they can show extraordinary circumstances precluding them from doing so. Parents should understand that the Board of Education will review the record regarding the matter, but will not meet with the parent, the student, and/or advocates/attorneys regarding the appeal.

8. Suspensions in Excess of Five (5) School Days – Superintendent's Hearings:

- When the Superintendent or Principal determines that a suspension for more than five (5) school days may be warranted, he or she shall give reasonable written notice to the student and the student's parent(s) of their right to a fair hearing pursuant to Education Law Section 3214. Such notice shall include that, at the hearing, the student has the right to be represented by counsel, the right to question witnesses against him or her, to present other evidence on his or her behalf, and the right to present witnesses and/or testify him/herself.

The Superintendent shall personally hear and determine the proceeding or may, in his or her discretion, designate a hearing officer to conduct the hearing. The hearing officer shall be authorized to administer oaths and to issue subpoenas in conjunction with the proceeding before him or her. A record of the hearing shall be maintained, but no stenographic transcript shall be required. A recording shall be deemed a satisfactory record. The hearing officer shall make findings of fact and recommendations as to the guilt or

innocence of the student and the appropriate measure of discipline, if any, to the Superintendent. The report of the hearing officer shall be advisory only, and the Superintendent may accept all or any part thereof. As soon as practicable following the conclusion of the hearing, the Superintendent shall provide the parent(s)/guardian(s) with their written decision.

D. Appeal of Superintendent's Decision:

If the student and/or parents/guardians disagree(s) with the decision of the Superintendent, they have the right to appeal the decision to the Board of Education. Such appeal must be in writing and should include the reason(s) why they believe the appeal should be granted. The appeal must be submitted within thirty (30) calendar days of the date of the Superintendent's decision to:

President, Board of Education
c/o District Clerk
Katonah-Lewisboro School District
60 North Salem Road
Cross River, NY 10518

The Board of Education will conduct a thorough review of the record to include:

- The transcript (or recording) of the Superintendent's Hearing;
- The report and recommendations of the Superintendent or designated hearing officer and all exhibits submitted at the hearing;
- The written request for appeal.

*Note: The record does not include any other information and/or documentation which was not introduced at the hearing or used in determining whether to suspend the student.

Parents/guardians requesting a Board of Education appeal of the Superintendent's decision may request a written transcript or audio copy, whichever is available, of the Superintendent's Hearing upon remittance of a fee for copying such written or audio transcript. Parents/guardians will be provided with a written response from the District Clerk advising parents of the date that the Board of Education will conduct the appeal in executive session. During the appeal process, parents shall not contact the Superintendent or Board of Education members regarding this matter. If the student and/or parent/guardian disagree with the final written decision of the Board of Education, an appeal can be made to the Commissioner of Education. Only final decisions of the Board may be appealed to the Commissioner of Education. Such appeal must be in writing and submitted to the Commissioner within thirty (30) calendar days from the date of the Board of Education's decision by writing to the Commissioner of Education.

E. Minimum Period of Suspension

1. Students who bring a weapon to school:

Any student found guilty of bringing a weapon onto school property will be subject to suspension from school for at least one (1) calendar year; the Superintendent has the authority to modify the one (1) year suspension on a case-by-case basis. In deciding whether to modify the penalty, the Superintendent may consider the following:

- The student's age
- The student's grade in school
- The student's prior disciplinary record
- The Superintendent's belief that other forms of discipline may be more effective

- Input from parents/guardians and/or teachers
- Other extenuating circumstances

For purposes of this section, a “weapon” means a firearm or other weapon, device, instrument, material, or substance, animate or inanimate, that is used for, or is readily capable of, causing death or serious bodily injury, except that such term does not include a pocket knife with a blade of less than 2 ½ inches in length.

A student may only be suspended in accordance with the requirements of state and federal law.

2. Students who commit violent acts other than bringing a weapon to school:

Any student, who is found to have committed a violent act, other than bringing a weapon onto school property, shall be subject to suspension from school for at least five (5) days. If the penalty exceeds the minimum five (5) day suspension, the student and the student’s parent(s) will be given the same notice and opportunity for a hearing given to all students subject to a long term suspension.

The suspending authority has the authority to modify the five (5) day suspension on a case-by-case basis. In deciding whether to modify the penalty, the suspending authority may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

3. Students who are repeatedly substantially disruptive of the educational process or repeatedly substantially interfere with the teacher’s authority over the classroom:

Any student, who repeatedly is substantially disruptive of the educational process or substantially interferes with the teacher’s authority over the classroom, may be suspended from school for at least five (5) days. For purposes of this Code of Conduct, “repeatedly is substantially disruptive of the educational process or substantially interferes with the teacher’s authority over the classroom” means engaging in conduct that results in the student being removed from the classroom by teacher(s) pursuant to Education Law § 3214 (3-a) and this Code on four or more occasions during a semester, or three or more occasions during a trimester, as applicable.

If the proposed penalty exceeds a five (5) day suspension, the student and the student’s parent(s) will be given the same notice and opportunity for a hearing given to students subject to a long-term suspension. The Superintendent of Schools has the authority to modify the suspension on a case-by-case basis. In deciding whether to modify the penalty, the Superintendent of Schools may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

Note: For discipline concerning students identified with or presumed to have a disability, please see Section X.

VIII. Referrals

1. Counseling

The Counseling Office shall handle all referrals of students to counseling.

2. PINS Petitions

The District may file a PINS petition (person in need of supervision) in Family Court for any student under the age of 18 who demonstrates that they require supervision and treatment by:

- a) Being habitually truant and not attending school as required by part one of Article 65 of the Education Law.
- b) Engaging in an ongoing or continual course of conduct that makes the student ungovernable or habitually disobedient and beyond the lawful control of the school.

3. Juvenile Delinquents and Juvenile Offenders

The Superintendent is required to refer the following students to the County Attorney for a juvenile delinquency proceeding before the Family Court:

Any student under the age of 16 who is found to have brought a firearm as defined by N.Y.S. penal law onto school property. Possession of other weapons may also be referred, *except a student 14 or 15 years old who qualifies for juvenile offender status under the Criminal Procedure Law §1.20(42).*

The Superintendent is required to refer students age 16 and older or any student 14 or 15 years old who qualifies for juvenile offender status *under the Criminal Procedure Law §1.20(42) to the appropriate law enforcement authorities.*

IX. Alternative Instruction

When a student of any age is removed from class by a teacher or a student of compulsory attendance age is suspended from school pursuant to Education Law §3214, the School District will take immediate steps to provide alternative means of instruction for the student, which should begin as soon as practicable.

X. Discipline of Students with Disabilities/Presumed to have a Disability

The Board of Education recognizes that the need to address disruptive or challenging behavior within its schools may result in the suspension, removal or other discipline of students with disabilities, or students presumed to have a disability for discipline purposes, who are or may be eligible for services under the Individuals with Disabilities Education Act (IDEA), Article 89 of the Education Law (Article 89), Section 504 of the Rehabilitation Act of 1973 (Section 504), and their implementing regulations. It also recognizes that such students are guaranteed certain procedural protections whenever school authorities determine that discipline is warranted.

Accordingly, it shall be the Board's policy that the procedures followed for suspending, removing or otherwise disciplining students with disabilities, or students presumed to have a disability for discipline purposes, who are or may be eligible for services under IDEA, Article 89 or Section 504 will conform with the procedural safeguards required by applicable laws and regulations.

This policy incorporates by reference the Procedural Safeguards for Students with Disabilities Subject to Discipline set forth in Part 201 of the Regulations of the Commissioner of Education, which implement the procedural protections provided under New York's Education Law and which coordinate the state's general procedures for suspension of students with disabilities with the requirements of IDEA and its implementing regulations.

XI. Corporal Punishment (Please refer to Board Policy 4321.12)

The Rules of the Board of Regents prohibit any teacher, administrator, officer, employee or agent of the District from the use of corporal punishment and/or verbal abuse against a student. Corporal punishment means any act of physical force upon a student for the purpose of punishing that student, except as otherwise provided below. The use of corporal punishment constitutes child abuse in an educational setting, in accordance with Education Law 1125.

Use of Protective Holds:

In situations where alternative methods cannot reasonably be used, the use of emergency physical interventions is permitted, for the following purposes:

- a) To protect oneself from physical injury; or
- b) To protect another student or teacher or any person from physical injury;

The use of aversive intervention is also prohibited, except in specific cases, subject to compliance with the procedures set out in the Commissioner's Regulations and Board Policy 4321.12.

In compliance with the Commissioner's Regulations, the Board of Education hereby adopts the following procedures for the investigation of complaints about the use of corporal punishment by District personnel.

- District personnel receiving any such complaint shall file a written report with the Assistant Superintendent within three school days of the reported incident.
- The District shall conduct and encourage appropriate staff members to attend seminars and workshops to update their knowledge of disciplinary rules and to discuss in detail the scope, application and elements of the offenses of such disciplinary rules. These seminar/workshops will be implemented in the regular monthly Principal's meetings or at other appropriate occasions, as necessary.
- The District shall direct its administrators, teachers and other appropriate staff members to explain in any records, correspondence or other disciplinary documents, the specific behavior that constitutes a violation of the disciplinary rules and results in discipline against any student.

XII. Sexual Harassment (Please also refer to Board Policy 0110)

The Katonah-Lewisboro School District is committed to a collegial environment in which all individuals are treated with respect and dignity. Each individual has the right to work and study in an atmosphere that promotes equal opportunities and prohibits discriminatory practices, including sexual harassment.

Therefore, the District expects that all relationships among persons in the District, including but not limited to employees, students, and certain non-employees (which includes contractors, subcontractors, vendors, consultants and other persons providing services pursuant to a contract, or their employees), will be free of bias, prejudice, and sexual harassment.

Sexual harassment is a form of sex discrimination and is unlawful under federal, state, and (where applicable) local law. Sexual harassment includes: harassment on the basis of actual or perceived or self-identified sex, sexual orientation, gender identity, gender expression, and transgender status; and sexual violence, even if not explicitly stated, or outside the school setting if the harassment impacts the individual's education or employment in a way that violates their legal rights.

Included within the broader definition of sexual harassment is gender-based harassment, which means

verbal, non-verbal or physical aggression, intimidation or hostility that is based on actual or perceived gender identity or expression. Sexual or gender-based harassment occurs when:

- a) submission to that conduct or communication is made a term or condition, either explicitly or implicitly, of an employee's or non-employee's employment or a student's education (including any aspect of the student's participation in school-sponsored activities, or any other aspect of the student's education); or
- b) submission to or rejection of such conduct or communication by an individual is used as a factor in decisions affecting employee's or non-employee's employment or a student's education; or
- c) the conduct or communication has the purpose or effect of substantially or unreasonably interfering with an employee's or non-employee's work performance or a student's academic performance or participation in school-sponsored activities, or creating an intimidating, hostile or offensive working or educational environment, even if the complaining individual is not the intended target of the sexual harassment;

Sexual violence means physical sexual acts perpetrated against a person's will or where a person is incapable of giving consent. A person may be incapable of giving consent due to age, drug or alcohol use, or intellectual or other disability. Sexual violence includes but is not limited to acts such as rape, sexual assault, sexual battery and sexual coercion. All such acts of sexual violence are forms of sexual harassment.

Sexual harassment can occur between persons of all ages and actual or perceived genders. It shall be a violation of this policy for any student, employee or third party (school visitor, vendor, etc.) to sexually harass any student, employee, or "non-employee".

School-related conduct that the District considers unacceptable and which may constitute sexual harassment includes, but is not limited to, the following:

- Unwanted sexual advances
- Subtle or overt pressure for sexual favors
- Sexual jokes
- Sexting (sending, receiving or forwarding sexually suggestive nude or nearly nude photos through social networking, text message or e-mail)
- Innuendos
- Advances or propositions
- Verbal abuse of a sexual nature
- Graphic commentary about an individual's body, sexual prowess or sexual deficiencies
- Leering, whistling, touching, pinching, assault, coerced sex acts or suggestive, insulting, or obscene comments or gestures
- Display on school property of sexually suggestive objects or pictures
- Wearing sexually suggestive garments
- Prohibited Conduct as outlined in Board Policy 0110.1 and 0110.2
- Other physical, verbal, or visual conduct of a sexual nature.

Any person who may be a target of sexual harassment by a student, district employee, "non-employee" or third party related to the school is encouraged to report complaints as soon as possible after the incident in order to enable the district to promptly and effectively investigate and resolve the complaint. Any person who witnesses or is aware of sexual harassment of a student, employee, or "non-employee" is required to

report the incident or behavior to the Building Principal, Sexual Harassment Compliance Officer or Title IX Coordinator. Targets are encouraged to submit the complaint in writing (Exhibit 0110-E.1); however, complaints may be filed verbally. Because sexual harassment may also implicate the District's Dignity for All Students Act (DASA) Policy 0116, a complaint alleging a violation of DASA may be made to a District Dignity Act Coordinators and/or any staff member in accordance with the DASA Policy 0116.

Students may also discuss their concerns with any trusted member of the staff such as a teacher, nurse, or counselor. Employees who believe they have been the target of sexual harassment or believe they have witnessed sexual harassment may also discuss their concerns with their supervisor. School employees receiving complaints of sexual harassment from "non-employees" shall direct the complainant to the Building Principal.

Any school employee who receives a complaint of sexual harassment from a student shall inform the student of the employee's obligation to report the complaint to the school administration, and then shall immediately notify the Building Principal, Sexual Harassment Compliance Officer or Title IX Coordinator. School employees receiving complaints of sexual harassment from employees and "non-employees" shall either direct the complaint to the Building Principal, or may report the incident themselves. Staff are required to report any knowledge of sexual harassment, and will be subject to discipline for failing to report suspected or reported sexual harassment knowingly allowing sexual harassment to continue, or engaging in any retaliation.

In order to assist with the investigation, targets are encouraged to document the harassment as soon as it occurs and with as much detail as possible including: the nature of the harassment; dates, times, places it has occurred; name of harasser(s); witnesses to the harassment; and the target's response to the harassment.

The complaint or allegation of sexual harassment will be investigated promptly by the Building Principal, Sexual Harassment Compliance Officer or Title IX Coordinator and may include interviews with the parties involved and, where necessary, with individuals who may have observed the alleged conduct or have relevant information.

Complaints will be kept confidential to the extent practicable and appropriate. Retaliation against an individual for reporting sexual harassment or in assisting in providing relevant information is a serious violation of this policy and will be treated with strict discipline.

If the initial investigation results in a determination that sexual harassment did occur, the investigator will promptly notify the Superintendent, who shall then take prompt disciplinary action in accordance with Board Policies 0110.1 and 0110.2 and their accompanying Regulations, the applicable collective bargaining agreement, or state law. Other responsive action to sexual harassment may include: training, referral to counseling, and referral to appropriate child protection and law enforcement authorities where the Building Principal, Sexual Harassment Compliance Officer or Title IX Coordinator has a reasonable suspicion that the alleged harassment involves criminal activity.

Any party who is not satisfied with the outcome of the initial investigation by the Building Principal, Sexual Harassment Compliance Officer, or Title IX Coordinator may request a district-level investigation by submitting a written complaint to the Superintendent within 30 days. No later than 30 days following receipt of the complaint, the Superintendent (or in cases involving the Superintendent, the Board-appointed investigator) will notify the target and alleged harasser, in writing, of the outcome of the investigation or provide all parties with a written status report if additional time is needed to complete the investigation or take appropriate action.

Targets of sexual harassment have the legal right to file a complaint with the Office of Civil Rights of the Department of Education, the U.S. Equal Employment Opportunity Commission and the New York State Division of Human Rights (DHR) (for employee targets), and other agencies that enforce laws

concerning discrimination.

XIII. Vaping, Smoking, Tobacco and Cannabis Use (Please also refer to Board Policy 1530)

Due to the health hazards associated with vaping, smoking, tobacco and cannabis, and in accordance with federal and state law, each school of the Katonah-Lewisboro Union Free School District is a non-vaping, non-smoking, tobacco free campus. For purpose of this provision, non-vaping shall refer to the prohibition of the use of any smoking device (electronic cigarette or vape device) by anyone and the possession of such devices or related substances by students. Pursuant to Federal and New York State law, smoking, vaping and tobacco or any other matter or substance that contains tobacco, nicotine, cannabis or cannabinoid hemp use is forbidden. No person, including visitors, shall vape, smoke, or use tobacco, and no student shall possess tobacco products or electronic cigarette or vape paraphernalia (including devices, cartridges/capsules, and related materials), on school grounds (i.e., any school facility, building, structure, and surrounding outside grounds within the school's property), at school sponsored activities and field trips, or on school buses or other vehicles transporting children.

XIV. Student Searches and Interrogations

The Board of Education is committed to ensuring an atmosphere on school property and at school functions that is safe and orderly. To achieve this kind of environment, any school official authorized to impose a disciplinary penalty on a student may question a student about an alleged violation of law or the District Code of Conduct.

School officials questioning students shall advise such student why he/she is being questioned. However, parents and students should be aware that school officials are under no obligation to contact a student's parent/guardian prior to questioning the student nor are students entitled to be advised of their legal rights, i.e. "Miranda" warning, prior to any questioning by a school official, as such rights only apply to situations where an individual is being questioned while in the custody of the police.

An authorized school official may conduct a search of a student and/or their belongings so long as the school official has a legitimate reason for the search. Before searching a student or the student's belongings, the authorized school official should attempt to get the student to admit that he or she possesses physical evidence that they violated the law or the District Code of Conduct, or get the student to voluntarily consent to the search. Searches will be limited to the extent necessary to locate the evidence sought. Please also refer to the District's Technology Responsible Use Policy, Policy No. 4526 for information related to search of District technology devices.

Whenever practical, searches will be conducted in the privacy of administrative offices and students will be present when their possessions are being searched.

A. Student Lockers, Desks and other School Storage Places

Student lockers, desks and other school storage places may be subject to search at any time by school officials without prior notice to students and without their consent.

The authorized school official conducting the search shall be responsible for promptly recording the following information about each search:

1. Name, age and grade of student searched.
2. Reasons for the search.
3. Name of any informant(s).

4. Purpose of search (that is, what item(s) were being sought).
5. Type and scope of search.
6. Person conducting search and his or her title and position.
7. Witnesses, if any, to the search.

The Principal or his or her designee shall be responsible for personally delivering dangerous or illegal items to police authorities.

C. Police Involvement in Searches and Interrogations of Students

District officials are committed to cooperating with police officials and other law enforcement authorities to maintain a safe school environment. Police officials, however, have limited authority to interview or search students in schools or at school functions, or to use school facilities in connection with police work. Police officials may enter school property or a school function to question or search a student or to conduct a formal investigation involving students only if they have:

1. A search or an arrest warrant; or
2. Probable cause to believe a crime has been committed on school property or at a school function.

Before police officials are permitted to question or search any student, the Principal or their designee shall first try to notify the student's parent to give the parent the opportunity to be present during the police questioning or search. If the student's parent cannot be contacted prior to the police questioning or search, the questioning or search shall be conducted only under exigent circumstances. The Principal or their designee will also be present during any police questioning or search of a student on school property or at a school function.

Students who are questioned by police officials on school property or at a school function will be afforded the same rights they have outside the school. This means:

1. They must be informed of their legal rights.
2. They may remain silent if they so desire.
3. They may request the presence of an attorney.

D. Child Protective Services (CPS) Investigations

Consistent with the District's commitment to keep students safe from harm and the obligation of school officials to report to Child Protective Services when they have reasonable cause to suspect that a student has been abused or maltreated, the District will cooperate with local Child Protective Services workers who wish to conduct interviews of students on school property relating to allegations of suspected child abuse, and/or neglect, or custody investigations.

All requests by Child Protective Services to interview a student on school property shall be made directly to Principal or their designee. The Principal or their designee shall set the time and place of the interview.

In accordance with the Family Court Act, a Child Protective Services worker may not remove a

student from school property without a court order, unless the worker reasonably believes that the student would be subject to danger of abuse if he or she were not removed from school before a court order can reasonably be obtained. If the worker believes the student would be subject to danger of abuse, the worker may remove the student without a court order and without the parent or guardian's consent.

XV. Visitors to the Schools (Please also refer to Board Policy 1240)

The Board encourages parents and other District adults to visit the District's schools and classrooms. Since schools are a place of work and learning, however, certain limits must be set for such visits. The Principal or his/ her designee is responsible for all persons in the building and on the grounds. For these reasons, the following rules apply to visitors to the schools:

- Anyone who is not a regular staff member or student of the school will be considered a visitor.
- All visitors to the school must enter through the main entrance, check in with the greeter and show photo identification. The greeter will issue a visitor's pass with the appropriate destination printed on it, which must be worn at all times while in the school or on school grounds. This includes but is not limited to parent pick up.
- Visitors are required to report only to their intended destination as printed on their visitor badges.
- The visitor must return the visitor's pass to the greeter before leaving the building.
- Visitors attending school functions after school hours are not required to register.
- Teachers are not expected to take class time to discuss individual matters with visitors.
- Any unauthorized person on school property will be reported to the Principal or his or her designee. Unauthorized persons will be asked to leave. The police may be called if the situation warrants.
- All visitors are expected to abide by the rules for public conduct on school property contained in this Code of Conduct.
- Student visitors to school must apply for permission from the appropriate official in accordance with the building Code of Conduct.
- Volunteers are required to complete a Volunteer Form.
- Visitors should be escorted to their destination when practicable.

XVI. Public Conduct on School Property (Please also refer to Board Policy 1520 and 1520-R)

The District is committed to providing an orderly, respectful environment that is conducive to learning. To create and maintain this kind of an environment, it is necessary to regulate public conduct on school property and at school functions. For purposes of this section of the Code of Conduct, "public" shall mean all persons when on school property or attending a school function including students, teachers and District personnel.

The restrictions on public conduct on school property and at school functions contained in this Code of Conduct are not intended to limit freedom of speech or peaceful assembly. The District recognizes that free inquiry and free expression are indispensable to the objectives of the District. The purpose of this Code of Conduct is to maintain public order and prevent abuse of the rights of others. All persons on school property or attending a school function shall conduct themselves in a respectful and orderly manner and must adhere to the guidelines set forth in section IV of this Code of Conduct.

XVII. Misuse of Electronic Media

Students in the Katonah-Lewisboro Union Free School District are now able to receive vast amounts of information through our computer networks and the Internet. The Internet represents a

massive set of computer databases and networks around the world, which are made available to our students in all schools. Contact can be made with students in other schools within the District, to students in other Districts, in other cities, and in other countries around the world. Massive amounts of information are available in text, photographs, and sound from local agencies and governments, to universities, people, and businesses in every corner of the globe.

Parents set appropriate guidelines for the use of such technology within the home. The District must also set guidelines for technology use within the schools to assure the proper use of materials on the Internet, to prevent inappropriate materials from being used in the school setting, and to ensure that all laws appropriate to such information be followed.

With the world now “at the fingertips” of our students, it is most important that the information, programs, and telecommunications made possible by technology, be used in a constructive, educational, safe, and legal manner. Students must know that with power comes responsibility.

Students and visitors are required to follow the Responsible Use Policy in effect in the District. It should be recognized that not all materials found on the Internet are appropriate for students and the District will make attempts to prevent such material from being accessed on our computers. While such material may be a small amount of the information available on the Internet, it does exist. If you have a question or concern regarding such material, please contact the school Library Media specialist.

Students who do not use the District’s technology in a responsible manner are subject to a range of consequences including, but not limited to, the suspension of the use of the Internet and/or network and/or computers within the District, and a Superintendent's suspension hearing. Please also refer to Board Policies 4526, 4526.1 and implementing Regulations 4526.E1, 4526.E2, 4526.E3 and 4526.1-R for specific rules governing the use of the District’s computers and computer network.

Police will be notified if a crime involving electronic media has taken place.

Tape recording or videotaping on school grounds, during school hours is prohibited unless for a valid educational purpose upon prior consent from the building Principal (or their designee) or the classroom teacher. Any student or visitor granted permission to photograph/record/tape on school grounds, during school hours who wishes to share such image/audio/video recording with any third party shall be further required to obtain prior consent from the building Principal or their designee to ensure that no unwarranted invasion of personal privacy results from such disclosure.

Please refer to the District's Responsible Use Policy. Please also refer to Board Policies 4526, 4526.1 and implementing Regulations 4526.E1, 4526.E2, 4526.E3 and 4526.1-R for specific rules governing the use of the District's computers and computer network.

XIX. In-Service Education

The Board will sponsor an in-service education program for all District staff members to ensure the effective implementation of the District's policy on school conduct and discipline, including but not limited to, guidelines for promoting a safe and supportive school climate while discouraging, among other things, discrimination or/or harassment against students by students and/or school employees; and including safe and supportive school climate concepts in the curriculum and classroom management. The Superintendent may solicit the recommendations of District staff, particularly teachers and administrators, regarding in-service programs pertaining to the management and discipline of students. Ongoing professional development will be provided, as needed.

Community of Acceptance

The Board of Education believes we have a responsibility to focus on creating an educational environment that is a community of acceptance, free of hostile or harassing conduct (verbal, physical, graphic or written), bullying and discrimination among students, teachers, administrators, staff, and parents. This policy of nondiscrimination includes, but is not limited to: creating a community of acceptance that provides opportunities in the curriculum, classroom, sports, after-school activities, and a character education program to explore and celebrate differences and strengths of culture, race, color, weight, national origin, ethnic group, religion, religious practice, disability, sexual orientation, gender and other differences, to examine and appreciate respective contributions to society, history and scholarship.
