New Year, New Us!

A PEEK INTO SOME NEW ELEMENTS OF HANG TIME

Welcome to Hang Time 2026/2027! We are so excited to be back with the students on campus and offering them even more exciting opportunities this school year. As we continue to grow, it is our mission to expand and improve each year, and we are accomplishing that goal!

Hang Time has welcomed Assistant Coordinator Victor Romero this year, who will be bringing his passion and expertise to our program to offer the students new opportunities to engage in exciting, relevant enrichments.

As part of these new enrichments, we now have a 3D printer, which will allow the students to design and create their own 3D models.

Students will also be able to participate in creating a podcast this year from the ground up, learning the technical, creative, and entertainment skills it takes to produce a quality show.

In addition to new staff and new enrichments, Hang Time will also be welcoming Getting Crafty to our campus on Fridays every other month beginning in September! The students who sign up will create art in a variety of mediums that will, at times, take multiple sessions to complete. We ask that if your student is signed up, they stay for the entirety of the 3 PM - 4 PM session each Friday so they are able to complete their projects.

We are excited for what is shaping up to be a fun-filled year at Vineyard Hang Time, and we can't wait to show you all that we accomplish together throughout this school year!

MEET MR. VICTOR

Vineyard Hang Time is happy to introduce our new Assistant Site Coordinator of Enrichments

My name is Victor Romero, and I am beyond excited to be your new Assistant Site Coordinator! My main mission is planning all of our student enrichments, which means after-school is about to be filled with high-energy, hands-on experiences designed specifically for junior high. As a musician and STEM enthusiast, I love finding creative ways to blend sound, science, tech, and collaborative challenges into dynamic group projects. Middle school is all about discovering new passions and finding your rhythm, and I'm dedicated to making our program a vibrant, supportive space where students can create, hang out with friends, and thrive. Keep an eye out for all the cool enrichment projects heading their way, and please feel free to say hi at pickup!

This or That?

DISNEYLAND OR UNIVERSAL STUDIOS?

"Disneyland because I have better memories there."

***"Disneyland because I LOVE* Star Wars."**

"Disneyland because of the food."

"Disneyland because it is so much better."

"Fast and Furious!"

"Universal Studios because Shrek!"

"Universal because of Harry Potter!"

"Disneyland because it has Mickey Mouse!"

"Universal Studios because the rides are better, it's more interactive, and I like the movies better."
