

CCS Academic & Instructional Systems Communications Briefing Document

Introduction:

Cumberland County Schools acknowledges the critical role our teachers play in maintaining communication with parents and families through various tools that provide updates on student progress and feedback. To simplify and enhance the communication experience for parents, the Academics team is recommending specific tools tailored for different grade levels.

K-5 Grade Levels:

For elementary students, [ClassDojo](#) is the preferred tool. ClassDojo's interactive platform is particularly effective for younger students. It integrates seamlessly with PowerSchool and Clever systems and is user-friendly, featuring a robust behavior tracking component.

6-12 Grade Levels:

For secondary students, [Bloomz](#) and [Remind](#) are the recommended tools. Both platforms are user-friendly and include behavior tracking components. However, for district-wide behavior referrals, interventions, and reporting, ABE remains the primary tool.

For assistance or inquiries, please contact the Academic & Instructional Systems office at 910-678-2613.
