COMMUNICATION PATHWAYS

Solen Public School District #3

Communication works best when it flows both ways. We value working side-by-side with our families so everyone stays informed and connected. We work to provide important and timely information while encouraging families to play an active role in seeking out information.

INFINITE CAMPUS	MOBILE APP	SCHOOL WEBSITE	THRILL SHARE	REMIND
Keeps families informed and connected to their child's education. By regularly using the portal, parents and guardians can monitor grades, attendance, and schedules. Staying engaged through the parent portal strengthens communication between and school.	Helps families stay informed, connected, and engaged in their child's education. Provides convenient access to school announcements, calendars, events, emergency notations and other important updates.	Provides easy access to current information including school calendars, policies, contact information, academic resources and other important updates.	Provides the district with a centralized communication platform to keep all stakeholders connected. This platform allows us the manage our website, mobile device app, social media, live feed, and alert systems. Thrillshare ensures our information is timely, consistent, and accessible.	This app provides a convenient way to share reminders, announcements, deadlines, and important classroom information. This app is used by some of our teachers. You will receive a link if we have up to date contact information.

Our goal is to keep our emails and other forms of communication timely, focused, and worth reading. To be sure you're getting the updates you need, be sure the school has your most accurate contact information.

It is Solen Public School District policy that our teachers and staff do not communicate school business with their person text messaging and social media accounts.
