Home of the Sioux!

Solen Public School District will provide opportunities for all students to develop their skills and talents to become productive citizens and lifelong learners.

September 23, 2026

Solen Public School Families,

We are pleased to announce that we have entered into an athletic co-op with two of our neighboring schools and communities, Fort Yates Public School and Selfridge High School. This represents an exciting opportunity to work together to strengthen our athletic programs and provide our students with meaningful opportunities to participate, compete, and grow. The co-op will begin at the beginning of the winter sports season this school year.

Recent years have shown us that it has been very challenging to maintain the participation numbers to maintain and further build our athletic programs. Through this newly formed co-op we will be able to combine our resources to create sustainable programs. This will provide opportunities for not only our students but those of FYPS and SHS.

Through this partnership, our student-athletes will have the chance to develop teamwork, leadership, responsibility, sportsmanship, and friendships that extend beyond their own school that they may not otherwise have.

We recognize that each school and community has its own history, traditions, and identity. Those traditions are important, and we are committed to honoring them as we build this partnership. There will be details to work through, but our schools will work collaboratively to make decisions that place the interests and well-being of students at the center.

We ask everyone to support this partnership and welcome the student-athletes and families from all three communities. The success of this will depend not only on what happens on the court, but also on the spirit of cooperation, respect, and encouragement we demonstrate toward one another.

We are excited about what this partnership can provide for our students and look forward to seeing our three communities come together to build a strong and successful athletic program.

Respectfully,

Superintendent Cari Kramer
