

CENTER FOR AGRICULTURE, SCIENCE
AND ENVIRONMENTAL EDUCATION

What is CASEE?

A half-day science-based high school program located on 80 acres of Department of Natural Resources land. The site includes: traditional classrooms and labs, ponds, forests, workshop, gardens, creek, greenhouses and trails.

Why do students attend CASEE instead of remaining full time at Prairie High School or Battle Ground High School?

Our students enjoy working with industry professionals, using industry equipment, conducting field studies, learning with state-of-the-art lab equipment, studying integrated subjects, doing small community projects, participating in community service and taking and leading field trips.

What classes are offered? Freshmen:

Natural Resources, Biology and Honors English I. Sophomores: Forestry, Wildlife, Environmental Science and Honors English II. Juniors: Advanced Restoration Ecology, Agroecology, Chemistry and English III. Seniors: Agricultural & Industrial Biotechnology, Aquatic & Marine Science and English IV.

What high school credits do students receive? One lab science, one English, one CTE (Career & Technical Education) elective per year. *All students have the opportunity to earn College in the High School credits, all at NO COST!*

How can I earn a Physical Education

credit? After attending CASEE for all four years, you will receive 1.0 PE credit. You will still need a 0.5 Health credit as well as a 0.5 PE credit.

Can a student take band, ROTC or Running Start and CASEE? YES. It is done by many students.

What if I need to leave for sports before school is out? Many of our students participate in sports. Afternoon students get picked up early for practice or games by the sports bus, coaches or parents.

Do students have opportunities for community service? Yes. Thirty hours on-site and 15 hours offsite are required per year.

How do students get to CASEE?

First Student bus transportation is provided to CASEE from BGHS and PHS. Students from alternative schools arrange their own transportation.

How do students apply for CASEE?

An application form is available on our website: casee.battlegroundps.org. Apply as soon as you can!

How do students forecast for CASEE?

Students forecast at their home school.
