

Illness can happen anywhere. Luckily, so can Connect Care.

Virtual visits available at school for $79 or less.

Charges only apply if you are able to be treated.

Keeping students and staff well - and at school

Kids need to feel good and be in school to learn. School-based telehealth gives students and teachers alike the ability to meet with a healthcare provider during school hours without having to leave school grounds. Parents can join a telehealth visit with their child without having to leave work or come to the school.

Intermountain Health

Connect Care may treat the following health conditions for the School-Based Telehealth Program:

- Allergies or minor allergic reactions
- Asthma
- Cold sores
- Cough, cold symptoms
- COVID-19

- Urinary tract infection *(female only, 12 & older)*

Scan here or go to **intermountainhealthcare.org/patient-portal** to get started today.

A summary of your visit will be available to view on the Intermountain Health patient portal.

Step One: **Download**

Using the QR code above, download the Intermountain Health app. Or, visit the patient portal on the web (no download required).

Step Two: **Login**

Login to the patient portal using your existing Intermountain Health or My Health+ username and password. If you don't have an existing account, simply create one in the app or online.

Step Three: **You're In!**

Explore how the patient portal takes the complexity out of managing your health so you and your family can spend more time living the healthiest lives possible.

Add a dependent child to your patient portal account:

1 - Go to Account Management
2 - Under Account Sharing click *People I have Access to*.
3 - Click *Request access to another account*
4 - Select *Request access for a minor*
5 - Fill out the form.
