☐ I request that this student be permitted to carry and self-administer the above ordered medication. I take responsibility for this permission.

PARENT/GUARDIAN REQUEST/CONSENT

I hereby authorize the School District of Westfield to give medication(s) to my child according to the directions stated above and further authorize the School District to contact my child's physician. I agree to hold the School District, its employees and agents who are acting within the scope of their duties, harmless in any and all claims arising from the administration of this medication at school. I also agree to inform the school immediately, in writing, of any change of medication order. I agree to obtain a new physician's order for any changes to prescription medication's dose, time, etc.

I understand that over-the-counter (non-prescription) as needed medications may not be sent on school-sponsored field trips unless they are deemed medically necessary by the school nurse. I will supply limited quantities of the medication in the **original, labeled, unopened container, with the child's full name, name of drug and dosage, time and quantity to be given and the physician's name.**

I agree to drop off the medication at my child's school office. I agree not to send any medication to school with my child. I agree to pick up the medication either at the end of the school year (or at the end of summer school if my child attends summer school); and I acknowledge that the medication will be disposed of properly by the school nurse if I fail to pick up the medication at this time. I acknowledge that the school is not responsible for storing medications over the summer.

I agree to supply my child with their emergency medications (epinephrine, rescue inhaler, diabetes supplies, glucagon) and for my child to carry them to every after school activity, including athletic practices/games/events, etc. I agree that it is my child's responsibility to ensure they have their emergency medications with them at all times during after school activities.
