MISSION OF THE ALVA INDEPENDENT SCHOOL DISTRICT #001

Alva Goldbugs strive for excellence.

NONDISCRIMINATION

It is the policy of the Alva Independent School District #001 to provide equal opportunities without regard to race, color, national origin, sex, age, qualified handicap or veteran status. See Alva Independent School Board policies and forms pages 71-93

STUDENT CONDUCT

The Alva Board of Education and the superintendent of schools may establish written policies, rules and regulations of general application governing student conduct in all buildings. In addition, each principal, within his/her building, may establish certain written rules and regulations consistent with those established by the Board of Education and the superintendent.

The administration of Alva Independent School District is appreciative of the cooperative attitude of the students. It is important that our school learning atmosphere includes maintenance of order which permits cooperative students to pursue their education free from disruptions or distraction. The maintenance of order necessitates regulations relating to school discipline.

PARENT RESPONSIBILITY

The ultimate responsibility for student behavior rests with the parents. The following are among their specific responsibilities:

- (1) Support the school in requiring students to observe all school rules and regulations and accepting responsibility for any willful misbehavior on their part. Send students to school after giving proper attention to health, personal cleanliness, and neatness of dress.
- (2) Maintain an active interest in the student's work. Make it possible for them to complete assigned homework, particularly by providing a quiet place and conditions for study.

ATTENDANCE

State laws of Oklahoma require compulsory school attendance for anyone who has not reached the age of eighteen, graduated from high school, or furnishes satisfactory written evidence as to why the student should not attend school.

The curriculum offered in school is based on the assumption that the student will be present every day. No single factor will do more to aid a student's progress in school than regular attendance. If a student is absent, parents must call the office between **7:30 A.M. and 10:00 A.M. each day the student is absent**. A school representative will attempt to contact parents who do not call. If no contact is made, the absence will be recorded as unexcused. Students have 24 hours after the last day of their absence to get an absence excused. Students leaving during the day must be checked-out through the office by a parent or guardian or the person must have been granted pickup rights through the Wengage Student Records Portal. **LEAVING SCHOOL WITHOUT CHECKING OUT WILL RESULT IN AN UNEXCUSED ABSENCE**. Upon returning to school, the student must check into school at the front office. A student who is more than 15 minutes late is counted absent for the entire period. **Students must be in class 90% of the time. That means that students will only be allowed 9 absences each semester (exception-DCA's and special permission from the principal's office. Doctor's notes, court appearances, and family funerals are usually acceptable with proper documentation.) No credit (N/C) or "F" may be given if the student fails to meet the attendance requirement. A written appeal to the Attendance Appeals Committee with dates and documentation may be required if a student exceeds 9 absences in a semester and wishes to receive credit for classes (OSSAA regulation).**

Students may not be eligible to participate in an activity if they are absent from school the day of the activity except through special permission from the principal.

CALL THE HIGH SCHOOL 327-3682 THE MORNING THE STUDENT IS ABSENT BY 10:00 AM!

CHECKING A STUDENT OUT DURING THE SCHOOL DAY

If it is necessary for the student to leave campus during the school day (doctor's appointment or funeral) the parent/guardian or will be required to personally check the student out from the office or have an identified person with pickup rights through the Wengage Student Records Portal. If the student becomes ill during the school day, the student should go to the office and parents/guardians will be contacted by office staff. Students should **not** call their parents from the restroom nor stay in the restroom. The student will **not** be allowed to leave campus if the parent cannot be contacted (the principal may make exceptions in cases of emergency). The student's parent must sign-out in the office when leaving and sign-in upon returning to school using the School Safe ID system. An approved photo ID (state-issue driver's license will be needed when checking a student out of school. Only individuals listed in Wengage with a photo ID will be allied to check out a student from the school.

EXCUSED ABSENCES

An absence due to personal illness, death in the immediate family, family crisis situation, court, doctor or dental appointments, or religious holidays may be considered excused. The school reserves the right to request written documentation to verify the absence.

DISTANCE LEARNING ATTENDANCE -

Distance learning may be granted for the following reasons:

1. Extended personal or family illnesses
2. Extenuating circumstances deemed necessary by the principal.

For every day a student is absent, they will have one additional day to turn in distance learning assignments. If the student does not turn in their assignments they will be considered absent. Parents must notify the office to be considered for distance learning.

UNEXCUSED ABSENCES/TRUANCY

Any absence not covered in the above criteria will be considered unexcused. This includes, but not limited to, absences such as trancies and suspensions. Make-up work may not be allowed for credit for an unexcused absence. **Students will have one day to reconcile unexcused absences.**

The most common reasons for being assigned an unexcused absence include:

1. absent from school without parent's permission
2. leaving class without teacher's permission
3. leaving campus (building) without the principal's permission
4. failure to sign out when leaving
5. failure to report to class within first 15 minutes of class

DON'T COUNT ABSENT (DCA)

An official absence requested and sanctioned by the school, such as a school sponsored activity, may be allowed if the student has not used the maximum allowed days. The maximum number of absences for activities sponsored by the school or outside agencies, which removes the student from the classroom, shall be ten (10) for any one class period each school year.

If a student will be missing any class period due to an activity, the student will need to complete all assignments through Google Classroom. **Students who miss school because of excused absences or for a scheduled activity shall have one (1) day for each day missed to make up the missed schoolwork.**

PRE-ARRANGED ABSENCE

If a student knows they will be absent ahead of time, the parent should contact the office. All assignments will be made available through Google Classroom and will need to be completed and turned in to the teacher the first day of returning to class.

TARDY

A student is considered tardy when not in the assigned classroom when the bell rings. All teachers will report tardiness to the office via computer attendance reporting. Students held after class will need a written excuse from that teacher. Please see the discipline matrix for more information.

TRUANCY

A student absent without the consent of his or her parent(s) is truant and will receive an unexcused absence.

Truancy may be cause for disciplinary action, expulsion, or legal action. Students are truant if they: 1. Leave school without permission of the principal and have not signed out in the office. 2. Are absent from class without prior permission from parents. 3. Are absent from class without permission (skipping). 4. Obtain a pass to go to a certain place and do not report there. 5. Become ill and go home or stay in the restroom instead of reporting to the office. 6. Come to school, but do not attend class. 7. Do not attend a scheduled class/field trip without a reasonable excuse.

A student who is absent without a written valid excuse for four or more days or parts of days within a four-week period or is absent without valid excuse for ten or more days or parts of days within a semester will be reported to the student's parent/guardian, school resource officer and the Woods County District Attorney. The parent/legal guardians of the student may also incur legal liability regarding their failure to compel the student to attend school. (70 O.S. 10-106) At the close of each attendance period of the school term, the board of education of each school district shall notify in writing the Department of Human Services of the name of any child who has not been present for instruction at least ninety percent (90) of the time without valid excuse as defined in Section 10-105 of Oklahoma School Law.

EXCESSIVE TRUANCY AND THE DISTRICT ATTORNEY

Students with excessive truancy will be called to the attention of the school resource officer and Woods County District Attorney for prosecution of parent and/or student. If a child is absent without valid excuse four (4) or more days or parts of days within a four-week period or is absent without valid excuse for ten (10) or more days or parts of days within a semester, the attendance officer shall notify the parent, guardian, or custodian of the child and immediately report such absences to the Woods County District Attorney for juvenile proceedings pursuant to Title 10 of the Oklahoma Statutes. The parent/legal guardians of the student may also incur legal liability regarding their failure to compel the student to attend school (70-10-106). At the close of each attendance period of the school term,

the board of education of each school district shall notify in writing the Department of Human Services of the name of any child who has not been present for instruction at least ninety percent (90) of the time without valid excuse as defined in Section 10-105 of Oklahoma School Law.

CHANGE OF ADDRESS

All serious accidents or illnesses are reported to parents. Please keep an updated phone number, address and person to contact for emergencies on file in the school office.

MAKE-UP WORK

A student will be permitted to make up work missed during the day of an excused absence with the exception of work which required his/her physical presence in the class to complete (for example, certain drama and choir experiences). Assignments will be posted and can be accessed through Google Classroom. **Students who miss school because of excused absences or for a scheduled activity shall have one (1) day for each day missed to make up the missed schoolwork.** If a student is in class when an assignment is made or is in attendance in the class prior to the due date, it is the student's responsibility to have the assignment to the teacher on the due date.

DISCIPLINE POLICY

The Board of Education and Administration of the Alva Independent School District #001 believes the primary function of the schools is to educate children. The students have the right to learn free of unnecessary distractions and to attend a school in which an atmosphere conducive to learning exists.

Education includes establishing norms of acceptable social behavior and assisting students in understanding and attaining those norms. From time to time, it will be necessary for the benefit of the individual and of the school for the faculty and administrators to enforce corrective actions for breaches in acceptable behavior.

The teacher or administrator shall have the same right as a parent or guardian to control and discipline a child while the child is in attendance in the Alva School District or in transit to or from the school or while attending or participating in any school function authorized by the school district (70 O.S.6-114, School Laws of Oklahoma).

Each student shall be treated in a fair and equitable manner. The severity of the disciplinary action will be based upon a careful assessment of the circumstances surrounding each infraction. (See board policy FO)

CONDUCT AT SCHOOL SPONSORED EVENTS

Students shall follow the same rules at school-sponsored activities as they follow at school. Inappropriate behavior will be dealt with, and students may not be allowed to attend other outside school functions as determined by the administrator. School functions are an extension of learning therefore the same rules and regulations apply.

FORMS OF DISCIPLINE

BEFORE/AFTER SCHOOL DETENTION

detention will take place in a designated area. Students should report from 7:00-7:50 am or 3:10- 4:00 pm whichever is assigned.. All students will stay busy with class work or unfinished assignments. If all classwork is completed, students will be allowed to read a library book.

LUNCH DETENTION

Lunch detention will be held in a designated classroom. Students in lunch detention will have the option of eating a school lunch or bringing a lunch from home. **Students will not be allowed to have take-out food delivered to them by a parent or any other means.** Students will stay in the lunch detention room until the 5th period bell rings.

CORPORAL PUNISHMENT

Corporal punishment may only be given to a student who has a "Parental Consent to Administer Corporal Punishment" form signed by the student's parent/guardian on file in the principal's office. "Swats", defined as using a wooden paddle to administer with reasonable force to the buttocks of students, will be given and witnessed by certified personnel in a school office, room, or other place out of the presence of other persons.

IN-SCHOOL SUSPENSION (ISS)

ISS is an alternative form of discipline for more serious issues. The student is removed from the regular educational environment yet continues to attend school and receive instruction. ISS is during the regular school day in the ISS room. A student must serve ISS on consecutive school days. A student in ISS may lose his eligibility to participate in extracurricular activities. The administration will notify the parent/guardian by telephone or written

letter when a student has been placed in ISS. The classroom teachers will prepare assignments for each student and will grade these assignments upon his/her return. Each student will receive credit for work completed during this time. Students in ISS will have the option of eating a school lunch or bringing a lunch from home and will eat in the ISS room. Students **will not** be allowed to have take-out food delivered to them by a parent or any other means. Students **WILL NOT** be allowed to leave the classroom unsupervised. Students should stay engaged in classroom assignments, a library book, etc. No communication between other students is permitted, and if it is observed, additional days of ISS may be assigned. Students will not be allowed to use cell phones or any other device to communicate with other students while in ISS. A student will be permitted to use a Chromebook or a device for educational purposes only. Cell phones will be checked into the office during the time a student is in ISS. The student is welcome to leave their cell phone at home during this time.

OUT OF SCHOOL SUSPENSION (OSS)

Suspension is the temporary denial by the school administration of the right to attend class, school, or school sponsored or authorized functions. The principal has authority to suspend a student for a period of up to, and including, ten (10) days. The student has the right to appeal the suspension decision to a suspension appeal committee designated by the building principal. A student will be suspended from school for serious offenses and/or for multiple infractions of lesser offenses. No student suspended from school shall participate in nor attend extra-curricular activities on school property or their sites where school activities occur during the period of suspension. A student shall serve the assigned suspension period on consecutive school days. **Be advised that the presence of a suspended pupil on any public-school campus is prohibited.** Parents will be notified of out of school suspension. The parents shall bear the responsibility for monitoring the student's progress until the student is readmitted into school. Credit will be granted for academic work completed during the suspension at the discretion of the administrator.

LONG TERM OUT OF SCHOOL SUSPENSION (OSS)

For suspensions of more than ten days, any requested review of the initial decision of the administrator must be submitted to the principal within 3 days. The review shall be conducted by an assigned administrator. If the assigned administrator does not withdraw the suspension, the student may request an appeal before the board of education. The student has ten (10) days to file the appeal. The board of education shall review the documentation of the administrative hearings and determine the guilt or innocence of the student and the reasonableness of the punishment. The student may submit any written documentation or arguments to the board for its consideration. The appeal to the board is an appeal, not a new hearing of witnesses upon the appeal unless requested by the board. The decision of the board of education is final. Students on a long-term suspension will be offered an educational plan, which normally consists of taking semester tests in core classes to earn credit. According to Oklahoma state law, students suspended for a violent or heinous act will not be provided an educational plan.

STUDENTS SUSPENDED BY ANOTHER SCHOOL Section A.

Alva Independent School District will prohibit any student who is under suspension from another school (public or private) from enrolling in the Alva School District. (hereafter the "Prohibition Term"). This prohibition includes students who establish or attempt to establish a bona fide residency within the Alva Independent School District either before or during their suspension from another school.

Any student subject to a Prohibition Term pursuant to this policy may appeal that decision to the Superintendent or his/her designee by requesting such an appeal within five (5) working days (excluding weekends) of the student's notice of the decision. Any student dissatisfied with the decision of the Superintendent or his/her designee may appeal that decision to the Board of Education by requesting such an appeal within five (5) working days (excluding weekends) of the student's notice of the decision. Student appeal requests to the Superintendent and to the Board must be made in writing to the Superintendent. Failure to appeal in a timely manner waives all rights to further challenge such a decision. On appeal, both the Superintendent or his/her designee and the Board of Education will consider the following issues:

1. Whether the student is under suspension from another school and
2. The reason for the suspension If the student was suspended from another school for a violent act or an act showing deliberate or reckless disregard for the health or safety of faculty or the students, then the Prohibition Term will be upheld. The student will be eligible to enroll following the expiration of the

Prohibition Term except as otherwise provided in Section C. of this Policy. If the student was suspended from another school for something other than a violent act or an act showing deliberate or reckless disregard for the health or safety of faculty or other students, then the Superintendent or his/her designee will also consider.

3. Whether the length of the suspension and any conditions imposed pursuant to the suspension are consistent with the Alva School District's suspension policy for the same or similar offenses.

If the answer to three (3) is in the affirmative, the Prohibition Term will be upheld. The student will be eligible to enroll following the expiration of the Prohibition Term. If the suspension imposed upon the student is found to be inconsistent with the Alva Independent School District's student suspension policy or practices for similar offenses, then the Superintendent or his/her designee may consider modifications to the Prohibition Term and/or the conditions associated with that Prohibition Term to make the Prohibition Term consistent with the Alva Independent School District's suspension policy or practices. Any student dissatisfied with the decision of the Superintendent or his/her designee may appeal that decision to the Board of Education by requesting in writing such an appeal within five (5) working days (excluding weekends) of the student's notice of the decision. The student will be eligible to enroll following the expiration of the Prohibition Term, as modified.

Student Seeking a Transfer Section B.

The Alva Independent School District will not approve a transfer of any student who is under suspension from another public or private school district at the time of the student's proposed transfer.

Students Removed from School by Administrative or Judicial Process Section C.

The Alva Independent School District will not provide education services in the regular school setting to any student who has been adjudicated as a delinquent for a violent offense or convicted as an adult of a violent offense or who has been removed from a school (public or private) by administrative or judicial process for a violent act or an act showing deliberate or reckless disregard for the health or safety of faculty or other students until the Alva Independent School District determines that the student no longer poses a threat to himself, other students or faculty.

Any student excluded from the regular school setting pursuant to this policy may appeal that decision to the Superintendent or his/her designee by requesting an appeal within five (5) working days (excluding weekends) of the student's notice of the decision. Any student dissatisfied with the decision of the Superintendent or his/her designee may appeal that decision to the Board of Education by requesting such an appeal within five (5) of the student's notice of the decision. Such appeal requests to the Superintendent and to the Board must be made in writing to the Superintendent. Failure to appeal in a timely manner waives all rights to further challenge such a decision.

Upon appeal, both the Superintendent or his/her designee and the Board of Education will consider the following issues: (1) whether the student has been removed from school by administrative or judicial process; (2) whether the reason for removal was a violent act or an act showing deliberate or reckless disregard for the health or safety of faculty or other students; and, (3) whether the student poses a threat to himself/herself, other students or faculty.

A trained employee of Alva Independent Schools may check the neurological function of the student by means of simple examination of the pupillary reflexes and muscle functions of the eye (Rapid Eye Test). This procedure is frequently used in Alva Independent School athletic programs to determine if the brain functions have been impaired by injury, illness, or disease. If neurological dysfunction is suspected, regardless of the cause, the parent/guardian will be contacted immediately. In most cases, civil authorities will also be contacted. The above behaviors, as well as the neurological examination, may be sufficient probable cause to search the student (clothes, locker, vehicle, book bag, etc.) for illegal drugs, drug paraphernalia, weapons, or other contraband.

4. Interview all possible witnesses and obtain written statements if possible.

GRADES/GRADUATION

ACADEMIC HONESTY

IF YOU ARE CAUGHT VIOLATING THE RULES OF ACADEMIC HONESTY, YOU WILL FACE APPROPRIATE CONSEQUENCES.

Students at Alva High School are expected to maintain the highest standards of academic conduct and integrity. Academic dishonesty violates the very purpose of scholarship. Cheating harms our school in a number of ways. Honest students are frustrated by the unfairness of cheating that goes undetected and unpunished. Cheating students skew the curve, resulting in lower grades for hardworking students who do their own work. Cheaters also cheat themselves of a real education. They not only rob themselves of general knowledge, but also of the experience of “learning to learn” that makes them invaluable to employers. Most professions have codes of ethics and standards to which employees are expected to adhere.

YOU ARE GUILTY OF CHEATING WHENEVER YOU PRESENT AS YOUR OWN WORK SOMETHING THAT YOU DID NOT DO. YOU ARE ALSO GUILTY OF CHEATING IF YOU HELP SOMEONE ELSE TO CHEAT! These may include (but not be limited to) the following:

1. Using another writer’s words without proper citation (i.e. term papers)
2. Using an author’s exact words without quotation marks (i.e. term papers)
3. Borrowing all or part of another student’s paper or using someone else’s outline to write your own paper.
4. Using a paper writing “service” or having a person write a paper for you
5. Borrowing computer codes (passwords) from another student and representing it as your own
6. The information guidelines that define plagiarism also apply to internet websites
7. Submitting a single paper for credit in two different classes
8. Copying from someone else’s paper, using notes (unless expressly allowed by the instructor), altering the exam for re-grading, getting advance copies of the test or allowing another to test for you
9. Group projects require careful division of responsibility and careful coordination. An instructor may deem a student “cheating” when he/she refuses to comply with group direction and offer an equal part.
10. Any unauthorized electronic device used to gain an advantage in the classroom is cheating.
11. Using any device to share or exchange information in an unauthorized manner is cheating

CONSEQUENCES OF MISCONDUCT

1. First time offending students will be issued a grade of 0 (zero) in the class.
2. Second time offending students will be issued a grade of 0 (zero) in the class and 3 days of In School Detention. Students participating in any school sanctioned activity (both competitive and noncompetitive) will be ineligible during the In School Detention days.
3. Third time offending students will be issued a grade of 0 (zero) in the class and 1 day Suspension from school. Students participating in any school sanctioned activity (both competitive and noncompetitive) will be ineligible the day of Suspension.
4. Any subsequent violation will result in the loss of the right to participate in any activity or sports for the remainder of the semester. Students will give up any honors, elective office, or recognition of excellence.
5. Any subsequent violation will result in the loss of the right to participate in any activities or sports for the remainder of the school calendar year and will forfeit the right to locally generated scholarships or academic awards.

IT IS THE STUDENTS RIGHT TO APPEAR BEFORE THE COMMITTEE ON ACADEMIC CONDUCT IF YOU FEEL YOU HAVE BEEN WRONGLY ACCUSED.

ELIGIBILITY

A student must maintain academic eligibility to participate in any authorized school activity. For academic eligibility purposes authorized school activities include, but are not limited to, competitive events against other schools, field trips, student activities outside the normal school day, and non-classroom activities. A student who is ineligible will not suit up or travel with the team, group or organization. Students participating in school activities must be in attendance 90% of the time. All students will be required to have passed five (5) classes at the end of the previous semester and maintain a passing grade on a weekly basis in all subjects before participating with an athletic team, competitive activity class, etc. (OSSAA Rule) Students will need to work with teachers to regain eligibility.

GRADES

Progress reports will be issued at the mid-term of the semester. Report cards are issued at the end of each semester. Only semester grades are recorded on the permanent record (transcript). The following grading scales are used at Alva High School:

AHS Scale	A	90-100
	B	80-89
	C	70-79
	D	60-69
	F	0-59
	P	Work Study Classes

All grades will be rounded to the nearest whole unit. Semester tests will not count more than 10 percent of a student's grade. Students should be in class 90% of the time to receive credit for the class (exception-DCA's and special permission from the principal's office). No credit (N/C) or "F" may be given if the student fails to meet the attendance requirement. Teachers will give a minimum of two (2) grades per week when possible.

HOMEWORK

Student homework assignments may be given per the teacher's classroom policy. Students will be allowed a minimum of a "**day-for-a day**" to turn in homework when the student has been absent from school with permission. (i.e. A student who is absent on Monday due to an excused absence and comes back to school on Tuesday must turn in assignments on Wednesday for the classes missed.) Students absent without permission or approved documentation will receive a grade of zero for missed assignments including homework.

No extra credit will be allowed except for academic work.

HOME SCHOOLED AND NON-ACCREDITED SCHOOL ENTRY POLICY

Pupils entering Alva Independent Schools from a secondary school not accredited by the State Department of Education or home schooled may be administered a comprehensive evaluation in the core subject areas and shall be placed according to their level of mastery by the State Department of Education's Priority Academic Student Skills. All assessments shall be administered by the Alva Independent School District, and the results shall be kept on file for one year.

- (1) In order to enroll in courses that have a prerequisite, a student must pass proficiency examination.
- (2) Proficiency must be demonstrated by comprehensive evaluation on courses required.
- (3) Comprehensive evaluation will only be given for core curriculum courses.
- (4) Comprehensive evaluation results will be posted on individual students' records.

INCOMPLETE GRADES

Incomplete class work must be completed within **five** days of the end of the semester or by arrangement with the principal. Incomplete work will be given a zero and figured into the final grade.

PROFICIENCY-BASED PROMOTION

Proficiency-Based Promotion is based on demonstrated knowledge and ability in the absence of instruction. Students in grades 1-12 are allowed to test in the following areas: Language Arts/English, Reading, Science, Math, Social Studies, and Foreign Language.

Students will advance to the next course/grade level of difficulty upon demonstrating with 90% proficiency on both content tests and performance assessments. Students, parents, or guardians must apply in writing for proficiency-based promotion to the building administrator in charge of their current school by August 15 and December 15. Forms are available at each school site.

PROMOTION AND RETENTION OF STUDENTS

Whenever a teacher or teachers recommend that a student be retained at the present grade level or not passed in a course, the parent or guardian, if dissatisfied with the recommendation, may appeal the decision by complying with the district's appeal process. The decision of the board of education shall be final. The parent may prepare a written statement to be placed in and become a part of the permanent record of the student stating the reason(s) for disagreeing with the decision of the board.

SEMESTER TESTS

Semester tests will not count more than 10 percent of a student's grade
All students will take semester test based on the following criteria:

1. The student will take a semester test in any subject in which he/she has a "D".
2. Any student whose absences and/or tardies exceed allowed number **per class**. Activity absences (DCA) will not count as an absence nor those absences approved by law.
3. Students who meet the following criteria will be exempt from taking semester tests:
 - a. 3 absences or less and an A
 - b. 2 absences or less and a B
 - c. 1 absence or less and a C

Any student who is truant or has an unexcused absence at any time during the semester will not be eligible for exemptions.

Students required to take the semester test, and who do not report for the test(s) will have one week to complete the test or the test will go down as an "0". The principal will determine the testing schedule.

An absence will be considered "Excused" due to personal illness, death in the immediate family, family crisis situation, court, doctor or dental appointments, or religious holidays may be considered excused. The school reserves the right to request written documentation to verify the absence.

Any absence not covered in the above criteria will be considered unexcused. This includes, but not limited to, absences such as trancies and suspensions. Make-up work may not be allowed for credit for an unexcused absence. **Students will have one day to reconcile unexcused absences.**

The most common reasons for being assigned an unexcused absence include:

1. absent from school without parent's permission
2. leaving class without teacher's permission
3. leaving campus (building) without the principal's permission
4. failure to sign out when leaving
5. failure to report to class within first 15 minutes of class

SEXUAL HARASSMENT

The policy of this school district forbids discrimination against an employee or applicant for employment on the basis of sex. Alva Board of Education will not tolerate sexual harassment by any of its employees. It is the intent of the Alva Board of Education to maintain a learning and working environment that promotes treating people with dignity and respect. Sexual harassment undermines that effort and is legally classified as sexual discrimination. Therefore, Alva Public Schools will not tolerate or condone any form of sexual harassment by employees, students, or third parties of the district.

Sexual harassment violates Title VII of the 1964 Civil Rights Act, and amended by the Civil Rights Act of 1991. Any employee or student who is subjected to such harassment, including a hostile environment, or who has knowledge of such harassment, should report it to an administrator who is responsible for complaint investigation. The administrator will take steps for further action.

Alva Board of Education will act to investigate all complaints, either formal or informal, verbal or written, of sexual harassment and to discipline any student or employee who sexually harasses a student or employee of the school district.

A HOSTILE WORK ENVIRONMENT

A hostile work environment is defined as an environment that limits or precludes a reasonable employee or student from working to his/her maximum potential. The existence of a hostile work environment shall be decided only after a full review of all relevant circumstances; provided, it shall be a hostile work environment if any employee complains about behavior in writing and such behavior continues or is allowed to continue.

CONDUCT OF A SEXUAL NATURE

1. Conduct of a sexual nature may include verbal or physical advances, including subtle pressure for sexual activity; touching, pinching, patting, or brushing against; comments regarding physical or personality characteristics of a sexual nature; and sexually oriented “kidding,” “teasing,” double meanings, and jokes.
2. When the allegedly harassed employee has indicated, by his or her conduct, that it is unwelcome verbal or physical conduct of a sexual nature, the conduct may constitute sexual harassment.

SEXUAL HARASSMENT

Sexual harassment is defined as unwelcome sexual advances, requests for sexual favors, verbal or electronic communication or physical conduct of a sexual nature when either of the following situations exist:

1. Submission to such conduct is made explicitly or implicitly a term or condition of an individual's employment, education, or participation in an educational program or activity
 - a. Submission to the conduct or communication that is made either an explicit or implicit condition of employment or education
 - b. Submission to or rejection of the conduct or communication that is used as a basis for an employment decision or student evaluation.
 - c. Conduct or communication that substantially interferes with an employee's work performance or creates an intimidating, hostile, or offensive work environment.
2. Submission to or rejection of such conduct is used as the basis for evaluation, particularly in making employment, academic, or activity decisions affecting the individual
3. It is sexual harassment for an administrator or supervisor to use his or her authority to solicit sexual favors or attention from subordinates when the subordinate's failure to submit will result in adverse treatment, or when the subordinate's acquiescence will result in preferential treatment.

4. Such conduct has the purpose or effect of unreasonably interfering with an individual's education or activity, work performance, or creating an intimidating, hostile or offensive education or employment environment.

This policy applies to all students, all district employees, and third parties of the district. (Third parties are defined as any individual who enters the school premises other than students or employees, i.e. parents, contractors, and vendors). Any sexual harassment as defined when perpetrated on any student or employee by any student or employee will be treated as sexual harassment under this policy.

Regulation Definitions, Reporting and Investigation of Sexual Harassment

Sexual harassment can occur staff-to-student, student-to-student, staff-to-staff, and student-to-staff (male-to-male, female-to-female, female-to-male, and male-to-female). Sexually harassing behaviors may include, but are not limited to,

1. Verbal harassment or abuse: derogatory comments, slurs, jokes, epithets, sexually suggestive slang.
2. Pressure for sexual activity: continuing to express sexual interest after being informed that the interest is unwelcome. (Reciprocal attraction between peers is not considered sexual harassment.)
3. Unwelcome touching or sexually offensive pranks: bra-snapping, skirt "flip-ups", pulling down someone's pants/skirt, and pinching.
4. Unwelcome nonverbal activities: leers, stares, gestures, blocking movement, display of sexually suggestive objects, pictures, or cartoons.
5. Suggesting or demanding sexual involvement as a means to control, influence, or effect the career, salary and/or work environment of another employee or to affect the educational opportunities, grades, honors, programs or activities available to students at or through the school.

An employee or student who has initially welcomed verbal or physical conduct or communication of a sexual nature by active participation must give specific notice to the alleged harasser that such conduct is no longer welcome in order for any such subsequent conduct to be deemed unwelcome.

REPORTING SEXUAL HARASSMENT

Any person who believes he/she has been the victim of sexual harassment by a student or an employee of the school district, or any third person with knowledge or belief of conduct which may constitute sexual harassment should report the alleged acts immediately to an appropriate school district official as designated in this policy. The district encourages the reporting party or complainant to use the report form available from the principal of each building or available from the superintendent's office.

Students who feel that they have been subjected to sexual harassment are encouraged to report the incident(s) to an appropriate teacher or administrator. If the student's immediate teacher or administrator is the alleged offender, the report should be made to the next level of administration or to any responsible adult.

School district employees who feel they have been subjected to sexual harassment should report the incident(s) to the site administrator or to the superintendent if the site administrator is the harasser. Sexual Harassment Report Form (Regulation 2) must be completed as part of the documentation necessary to resolve the claim.

School employees and third parties are responsible for reporting alleged violations of the school district's policy.

INVESTIGATING SEXUAL HARASSMENT

In determining whether conduct constitutes sexual harassment, the circumstances, the nature of the conduct, and the context in which the alleged conduct occurred will be investigated. Relationships between the parties involved and the context in which the alleged incident occurred will be part of the investigation. The superintendent is delegated the authority and the responsibility of investigating and resolving complaints of sexual harassment. The superintendent may designate others to assist in the investigative process. If a third party is designated to investigate an alleged incident, a written report of the status of the investigation shall be submitted within ten working days to the superintendent.

The investigation may consist of personal interviews with the complainant, the individual(s) against whom the complaint is filed, and others who may have knowledge of the alleged incident(s) or circumstances giving rise to the complaint. The investigation may also consist of any other methods and documents deemed pertinent by the investigator.

The district may take immediate steps, at its own discretion, to protect the complainant, students and employees pending completion of an investigation of alleged sexual harassment.

CONSEQUENCES OF SEXUAL HARASSMENT

Any employee found to have engaged in sexual harassment of students shall be subject to sanctions including, but not limited to, verbal warning, written reprimand, mandatory harassment training, transfer, suspension, or termination of employment subject to applicable procedural and due process requirements.

Any student found to have engaged in sexual harassment while involved in a school activity shall be subject to disciplinary action which may include, but not be limited to, verbal and/or written warning or reprimand, counseling, mandatory harassment training, community service or suspension, consistent with the student discipline code.

Any school district action taken pursuant to this policy will be consistent with other district policies. The board of education will take such disciplinary action it deems necessary and appropriate, including warning, suspension, or immediate discharge to end sexual harassment and prevent its recurrence.

APPLICATION

This policy applies to all students, employees (including administrators, teachers, and support staff) and third parties of this school district. Third parties are any individual who enters the school premises who is not a student or an employee. This includes visitors, parents, contractors, consultants and vendors.

It applies to students and employees in connection with all academic, educational, extra-curricular, athletic, and other programs of the school, whether they take place in the facilities of the school, on a school bus, at a class or training program sponsored by the school.

PROHIBITION OF RETALIATION

The district will discipline any covered individual who retaliates against any person who reports alleged sexual harassment or who retaliates against any person who assists in an investigation or proceeding relating to a sexual harassment complaint. Retaliation includes, but is not limited to, any form of intimidation, reprisal or harassment.

NON-HARASSMENT

The board recognizes that not every advance or consent of a sexual nature constitutes harassment. Whether a particular action or incident is a personal, social relationship without a discriminatory employment effect requires a determination based on all the facts and surrounding circumstances. False accusations of sexual harassment can

have a serious detrimental effect on innocent parties, and the bringing of such a false accusation is, and will be treated as a disciplinary offense.

 The current childhood immunization schedule may be found at <https://www.cdc.gov/vaccines/schedules/index.html>.

- Doses administered 4 days or less before the minimum intervals or ages are counted as valid doses. This does not apply to the 28-day minimum interval between doses of live vaccines not administered on the same day.
- If a parent reports their child had varicella disease (chickenpox), the child is not required to receive varicella vaccine. Record the child's history of varicella.
- The first doses of measles, mumps, and rubella (MMR), varicella, and hepatitis A vaccines must be administered on or after the child's first birthday (or within 4 days before the birthday), or they will not count toward the immunization requirement and must be repeated.
- It is not necessary to restart the series of any vaccine if a dose was given late or if a dose is past due. Additional doses of a vaccine series that are administered after the due date do not affect final immunity.
- Children may be allowed to attend child care and school if they have received at least one dose of all required vaccines due for their age or grade, and the next doses are not yet due. They must complete the remaining doses of vaccine on schedule. These children are in the process of receiving immunizations.
- Hib and PCV vaccines are not required for students in preschool, pre-kindergarten, or kindergarten programs operated by schools, unless the facility is a licensed child care facility. Hib and PCV vaccines are required for children attending licensed child care facilities.
 - ☐ If the 4th dose of DTaP is administered on or after the child's 4th birthday, then the 5th dose of DTaP is not required.
 - ☐ The number of doses of PCV and/or Hib may range from 1 to 4 depending on the age of the child, when the first dose was given, and type of vaccine used.
- If the 3rd dose of IPV is administered on or after the child's 4th birthday, and at least six months from the previous dose, then the 4th dose of IPV is not required.
- Students 11 through 15 years of age who have not received Hep B vaccine may receive a 2-dose series of Merck® Adult Hepatitis B vaccine to comply with this requirement. All other children (younger or older) must receive 3 doses of pediatric hepatitis B vaccine.
- The Centers for Disease Control and Prevention (CDC) recommends a dose of Tdap on or after the 10th birthday even if previously received. An inadvertent dose of DTaP on or after the 10th birthday may be accepted for the 7th grade Tdap requirement.

El calendario actual de inmunización infantil se puede encontrar en <https://www.cdc.gov/vaccines/schedules/index.html>.

- Las dosis administradas 4 días o menos antes de los intervalos mínimos o edades se cuentan como dosis válidas. Esto no se aplica al intervalo mínimo de 28 días entre las dosis de vacunas vivas no administradas el mismo día.
- Si un padre o una madre informa que su hijo/a tenía la enfermedad de varicela, no se requiere que el niño/a reciba la vacuna contra la varicela. Registre el historial de varicela del niño/a.
- Las primeras dosis de las vacunas contra el sarampión, las paperas y la rubeola (MMR), la varicela y la hepatitis A deben administrarse en o después del primer cumpleaños del niño/a (o dentro de los 4 días antes del cumpleaños), o no contarán para el requisito de inmunización y debe ser repetido.
- No es necesario reiniciar la serie de ninguna vacuna si una dosis se administró tarde o si una dosis está vencida. Las dosis adicionales de una serie de vacunas que se administran después de la fecha de vencimiento no afectan la inmunidad final.
- Se puede permitir que los niños/as asistan al cuidado infantil y la escuela si han recibido a menos una dosis de todas las vacunas requeridas debido a su edad o grado, y las siguientes dosis aún no se deben. Deben completarse las dosis restantes de vacuna a tiempo. Estos niños/as están en el proceso de recibir inmunizaciones.
- Las vacunas contra Hib y PCV no se requieren para estudiantes en programas de preescolar, pre-kindergarten o el kinder operados por escuelas, a menos que el centro sea un centro de cuidado infantil con licencia. Se requieren vacunas contra Hib y PCV para los niños/as que asisten a centros de cuidado infantil con licencia.
- Si la 4^a dosis de DTaP se administra en o después del 4^o cumpleaños del niño/a, entonces no se requiere la 5^a dosis de DTaP.
- El número de dosis de PCV y/o Hib puede variar de 1 a 4 dependiendo de la edad del niño/a, cuando se administró la primera dosis y el tipo de vacuna utilizada.
- Si la 3^a dosis de IPV se administra en o después del 4^o cumpleaños del niño/a, y al menos seis meses después de la dosis anterior, entonces no se requiere la 4^a dosis de IPV.
- Los estudiantes de 11 a 15 años de edad que no hayan recibido la vacuna contra la hepatitis B pueden recibir una serie de 2 dosis de la vacuna Merck® contra la hepatitis B para adultos para cumplir con este requisito. Todos los demás niños/as (menores o mayores) deben recibir 3 dosis de la vacuna pediátrica contra la hepatitis B.
- Los Centros para el Control y la Prevención de Enfermedades (CDC por sus siglas en inglés) recomiendan una dosis de Tdap en o después del 10^o cumpleaños, incluso si se recibió previamente. Se puede aceptar una dosis inadvertida de Tdap en o después del 10^o cumpleaños para el requisito de Tdap de 7^o grado.

Vaccine-Preventable Diseases and the Vaccines that Prevent Them

Diphtheria (Can be prevented by DTaP & Tdap vaccine)

Diphtheria is a very contagious bacterial disease that affects the respiratory system, including the lungs. Diphtheria bacteria can be passed from person to person by direct contact with droplets when an infected person coughs or sneezes. When people are infected, the diphtheria bacteria produce a toxin (poison) in the body that can cause weakness, sore throat, low-grade fever, and swollen glands in the neck. Effects from this toxin can also lead to swelling of the heart muscle and, in some cases, heart failure. In severe cases, diphtheria can cause coma, paralysis, and even death.

Hepatitis A (Can be prevented by HepA vaccine)

Hepatitis A is an infection of the liver caused by hepatitis A virus. The virus is usually spread person-to-person through the fecal-oral route. In other words, the virus is taken in by mouth from contact with objects, food, or drinks contaminated by the feces (stool) of an infected person. Symptoms include fever, tiredness, loss of appetite, nausea, abdominal discomfort, dark urine, and jaundice (yellowing of the skin and eyes). An infected person may have no symptoms, may have mild illness for a week or two, or may have severe illness for several months that requires hospitalization. In the U.S. about 100 people a year die from hepatitis A.

Hepatitis B (Can be prevented by HepB vaccine)

Hepatitis B is an infection of the liver caused by hepatitis B virus. The virus spreads through exposure to blood or other body fluids, for example, from sharing personal items, such as razors or during sex. Hepatitis B causes a flu-like illness with loss of appetite, nausea, vomiting, rashes, joint pain, and jaundice. The virus stays in the liver of some people for the rest of their lives and can result in severe liver diseases, including fatal cancer.

Human Papillomavirus (Can be prevented by HPV vaccine)

Human Papillomavirus also known as HPV, is a very common virus that is spread by skin-to-skin contact during any type of sexual activity with another person. About 79 million Americans, most in their late teens and early 20s, are infected with HPV. HPV is so common that nearly all sexually active men and women get it at some point in their lives. It is a major cause of cervical cancer in women and genital warts in women and men. Every year in the U.S. about 4,000 women die from cervical cancer caused by HPV and about 8,000 men get cancers caused by HPV.

Measles (Can be prevented by MMR vaccine)

Measles is one of the most contagious viral diseases. Measles virus is spread by direct contact with the airborne respiratory droplets of an infected person. Measles is so contagious that just being in the same room after a person who has measles has already left can result in infection. Symptoms usually include a rash, fever, cough, and red, watery eyes. Fever and rash can last for up to a week, and the coughing lasts about 10 days. Measles can lead to pneumonia, seizures, brain damage, and death.

Meningococcal Disease (Can be prevented by MCV vaccine)

Meningococcal disease is caused by bacteria and is a leading cause of bacterial meningitis (infection around the brain and spinal cord) in children, teens and young adults. The bacteria are spread by droplets from the nose and throat through coughing, sneezing or kissing. Symptoms include nausea, vomiting, sensitivity to light, confusion and sleepiness. Meningococcal disease also causes blood infections. About one of every ten people who get the disease dies from it. Survivors of meningococcal disease may lose their arms or legs, become deaf, have problems with their nervous systems, become developmentally disabled, or suffer seizures or strokes.

Mumps (Can be prevented by MMR vaccine)

Mumps is an infectious disease caused by the mumps virus, which is spread in the air by a cough or sneeze from an infected person. A child can also get infected with mumps by coming in contact with a contaminated object, like a toy. The mumps virus causes fever, headaches, painful swelling of the salivary glands under the jaw, muscle aches, tiredness, and loss of appetite. Severe complications for children who get mumps are not common, but can include meningitis (infection of the covering of the brain and spinal cord), encephalitis (inflammation of the brain), permanent hearing loss, or swelling of the testes, which can lead to sterility in men, although this is rare.

Pertussis (Whooping Cough) (Can be prevented by DTaP & Tdap vaccines)

Pertussis is caused by bacteria spread through direct contact with respiratory droplets when an infected person coughs or sneezes. In the beginning, symptoms of pertussis are similar to the common cold, including runny nose, sneezing, and cough. After 1-2 weeks, pertussis can cause spells of violent coughing and choking, making it hard to breathe, drink, or eat. This cough can last for weeks. Pertussis is most serious

1-5-16

Immunization Service Oklahoma State Department of Oklahoma (405) 271-4073

for babies, who can get pneumonia, have seizures, become brain damaged, or even die. About two-thirds of children under 1 year of age who get pertussis must be hospitalized.

Polio (Can be prevented by IPV vaccine)
Polio is caused by a virus that lives in an infected person's throat and intestines. It spreads through contact with the feces (stool) of an infected person and through droplets from a sneeze or cough. Symptoms typically include sudden fever, sore throat, headache, muscle weakness, and pain. In about 1% of cases, polio can cause paralysis. Among those who are paralyzed, up to 5% of children die because they become unable to breathe.

Rubella (German Measles) (Can be prevented by MMR vaccine)

Rubella is caused by a virus that is spread through coughing and sneezing. In children rubella usually causes a mild illness with fever, swollen glands, and a rash that lasts about 3 days. Rubella rarely causes serious illness or complications in children, but can be very serious to a baby in the womb. If a pregnant woman is infected, the result to the baby can be devastating, including miscarriage, serious heart defects, mental retardation, and loss of hearing and eye sight.

Tetanus (Lockjaw) (Can be prevented by Tdap vaccine)

Tetanus is caused by bacteria found in soil. The bacteria enter the body through a wound, such as a deep cut. When people are infected, the bacteria produce a toxin (poison) in the body that causes serious, painful spasms and stiffness of all muscles in the body. This can lead to "locking" of the jaw so a person cannot open his or her mouth, swallow, or breathe. Complete recovery from tetanus can take months. Three of ten people who get tetanus die from the disease.

Varicella (Chickenpox) (Can be prevented by varicella vaccine)

Chickenpox is caused by the varicella zoster virus. Chickenpox is very contagious and spreads very easily from infected people. The virus can spread from either a cough or a sneeze. It can also spread from the blisters on the skin, either by touching them or by breathing in the viral particles. Typical symptoms of chickenpox include an itchy rash with blisters, tiredness, headache and fever. Chickenpox is usually mild, but it can lead to severe skin infections, pneumonia, encephalitis (brain swelling), and even death.

Annually, students will be given a copy of the "Drug-Free School and Campuses Program" in the Alva School District and notified that compliance is mandatory as a condition of enrollment. This program to be implemented annually includes:

- * Code of conduct which prohibits drug, low-point beer and alcohol use

The parents will also be notified that as a condition of enrollment, the student must agree, in writing, to abide by the terms of this policy.

The school administration will conduct a biennial review of the "Drug-Free School and Campuses Program" to determine its effectiveness, implement needed changes and ensure that disciplinary sanctions are consistently enforced.

The Alva School District will certify to the secretary of the U.S. Department of Education that it has adopted and implemented a program to prevent the unlawful possession, use or distribution of illicit drugs, low-point beer and alcohol by students and employees.

Any student who violates the code of conduct will be subject to disciplinary action which may include suspension, expulsion and referral to law enforcement agencies for prosecution.

Possession, distribution, or being under the influence of alcohol or drugs as mentioned in the opening paragraph, on school property or at a school function will result in the following discipline actions:

- First offense will be 5 days in-school suspension plus the student will attend two counseling sessions which shall be performed after school hours and the school must receive documentation of attendance. The student will not participate in any school activities or functions for two weeks. Failure to attend scheduled counseling will initiate other discipline actions.
- Second offense the student will be placed in in-school suspension for two weeks and it will be recommended that drug or alcohol assessment be performed and the student will not be allowed to participate in any activities for 90 days.
- Third offense the student will be suspended from school for five days without the opportunity to make up grades during this period and will not be eligible for school activities for 175 school days.

Any student deemed guilty of this policy and who has a contract with OHLAP will forgo his/her OHLAP eligibility.

The Alva School District hereby commits itself to a continuing good faith effort to maintain a drug-free school. Throughout the school year, students will be required to attend drug awareness programs which will educate students about the dangers of drug abuse; available drug counseling, rehabilitation and re-entry programs and in-depth discussion of the schools "Drug Free Program."

Students should refer to discipline policy in the Student Handbook for more information.

RACIAL HARASSMENT

It is the policy of the Alva Public Schools that racial discrimination and harassment constitute unethical and unacceptable conduct that will not be tolerated at any level. All students and employees are strictly prohibited from engaging in any form of racial discrimination or harassment directed towards an employee, student, vendor, or applicant for employment, and anyone in such conduct is subject to disciplinary action in accordance with District policy. All staff members and students of the District are to respect this policy, abide by this policy and are expected to enforce this policy by seeking to eliminate any and all types of racial harassment. All District employees have an obligation to respond to complaints of student-on-student harassment, including but not limited to complaints about harassment by non-District students. Staff members will report suspected violations of this policy and incidents of racial discrimination or harassment to the Site Principal and/or the Superintendent and assist in the elimination of racial harassment in any and all of the District's schools.

Racial discrimination and harassment includes but is not limited to verbal or physical contact, epithets, slurs, gestures, or graffiti, even in jest, that are targeted toward an individual because of their race. Individuals bring different levels of sensitivity to interaction. What may seem harmless, trivial, or "all in good fun" to one person may be extremely offensive to the person to whom the comments or actions are directed.

Any person believing that he or she has been the subject of racial discrimination or harassment (whether by a student, District employee, non-District student or other individual) should immediately report the incident in writing to a teacher, site principal, or the Superintendent. Any individual who reports racial discrimination or harassment will not be retaliated against for making such report. Complaints will be handled as quickly, confidentially and fairly as possible.

The person receiving the written report shall immediately report the incident to the Superintendent. The Superintendent shall designate a principal to conduct an initial investigation; provided that the Superintendent may conduct the investigation in the event he or she determines that to be appropriate. Within ten (10) days of the completion of the investigation, the Superintendent shall advise the complainant in writing of his or her findings and the disposition of the complaint.

Any person having questions regarding (1) racial discrimination or harassment, or (2) the District's process for reporting or addressing racial discrimination or harassment should contact Superintendent, Alva Public Schools, 418 Flynn Street, Alva, OK 73717; (580) 327-4823 | email: schools@alvaschools.net.

Discipline Policy

Any faculty or staff member found to be guilty of verbal acts, such as racial slurs, disparaging comments, or epithets; or physical acts, such as harassment or intimidation, may be subject to any or all of the following disciplinary actions, according to the severity of the action:

- | | |
|---------|--|
| First: | An administrative reprimand will be placed in the offending party's personnel file. |
| Second: | An official board of education reprimand, along with compulsory participation in an equity assurance workshop. |
| Final: | A required appearance before the board of education for the specific purpose of imposing sanctions, up to and including suspension without pay or complete dismissal from service. |

RACIAL HARASSMENT (Cont.)

Any student found to be out of compliance with this policy through verbal acts, such as racial slurs, disparaging comments or epithets; or physical acts, such as harassment or intimidation, will be subject to discipline under the following guidelines:

First Offense:	Discussion with principal or in-school suspension.
Second Offense:	In-school suspension or out of school suspension for less than five (5) days.
Third Offense:	Out of school suspension for five (5) days or more.
Final Offense:	Recommendation of long-term suspension to board of education pursuant to the guidelines set forth by the laws of the state of Oklahoma. (See also policy FOD.)

Counseling Services

Any person found to be either a victim or offender in an incident of a discriminatory nature shall be made aware of counseling services that are available through the counseling services of the school district or the guidance services with Woods County, Oklahoma.

Any student who is a victim of discrimination or is found to be guilty of discriminatory behavior will have available counseling services through the counseling services of the school district.

DIRECT THREAT

“Direct threat” means a significant risk to the health or safety of others that cannot be eliminated by a modification of policies, practices or procedures, or by the provision of auxiliary aids and services. In determining whether an individual poses a direct threat to the health or safety of others, the district will make individualized assessments, based on reasonable judgment that relies on current medical knowledge or on the best available evidence, to ascertain:

1. The nature, duration, and severity of the risk,
2. The probability that the potential injury will actually occur, and
3. Whether reasonable modifications of the District’s policies, practices, or procedures or the provision of auxiliary aids or services will mitigate the risk.

When the district intends to impose adverse action on a student with a disability based on a direct threat, written notice of the district direct threat inquiry will be provided to the parent of the student who is the subject of the direct threat inquiry. This written notice, subject to paragraph 6 below, will include:

1. An invitation to provide documents and other information related to the direct threat inquiry and notice that if a response is not received, the direct threat inquiry will proceed with the documents and other information the district has available;
2. The name and contact information of the district employee conducting the inquiry;
3. Identification of the appropriate district personnel responsible for making the determination of whether the student poses a direct threat to the health or safety of others;
4. Notice that the student will not be subject to disciplinary action on the basis of unfounded fear, prejudice, and stereotypes;
5. The district’s determination that a student poses a direct threat to the health or safety of others will be an individualized assessment based upon reasonable judgment that relies on current medical knowledge or on the best available evidence, to ascertain: the nature, duration, and severity of the risk; the probability that the potential injury will actually occur; and whether reasonable modifications of policies, practices or procedures or the provision of auxiliary aids or services will mitigate the risk
6. Notice that in exceptional circumstances, such as situations where safety is of immediate concern, the district may take interim steps pending a final decision regarding adverse action against the student so long as minimal due process is provided in the interim and due process is offered later;
7. Notice of the student’s applicable appeal rights in the event of discipline or other adverse action; and
8. A copy of this policy.

CHILD FIND

In accordance with the requirements of the Individuals with Disabilities Education Act, the State Department of Education, Section 504 of the Rehabilitation Act, and Title II of the Americans with Disabilities Act, this policy addresses the district's Child Find system responsibility to identify, locate, and evaluate students suspected of having a disability, ages 3 through 21, who may need special education and related services, regardless of the severity of the disability or whether the student is advancing from grade to grade. As part of its child find duties, the district will be responsible for coordinating with the SoonerStart Early Intervention Program regarding the Child Find system for children ages birth to 3 years of age. The district's Child Find system includes the district coordinating with other agencies and promoting public awareness.

The district's Child Find system includes all children within the district's geographical boundaries including students who are:

- Enrolled in public school;
- Enrolled in charter schools, virtual charter schools, and alternative schools;
- Enrolled in homeschool;
- Enrolled in private elementary and secondary schools (including religious schools) located in the LEA; including out-of-state parentally-placed private school students with disabilities even if the students are not legal residents of the LEA;
- Enrolled in educational programs in correctional facilities located in the LEA;
- Enrolled in Head Start;
- Enrolled in state institutions;
- Enrolled in other child care or treatment facilities;
- Not enrolled in elementary or secondary school, including children ages 3 through 5;
- Highly mobile students, such as migrant and homeless as defined by the McKinney Vento Homeless Assistance Act; and
- Wards of the state.

The district will take appropriate and necessary steps to ensure that its staff and the general public are informed of:

- The availability of special education services;
- A student's rights to a free and appropriate public education;
- Confidentiality protections; and
- The special education referral process.

The district may accomplish this by a variety of methods, including but not limited to distributing brochures or flyers throughout the community, including information in school or district publications, disseminating articles and announcements to newspapers, arranging for radio and television messages and appearances, speaking at faculty meetings or district professional developments, and making presentations, as well as electronic forms of communication.

In the identification process, the district may use screening or coordinated early intervention services. The district's general education interventions will not delay the initial evaluation for special education services of a student suspected of having a disability. The procedural rights under the Individuals with Disabilities Education Act and Section 504/Title II are afforded when the student is referred for a special education evaluation by the parent or the district.

If, through Child Find activities, a child is identified as possibly having a disability and needing special education services, the district may seek parent consent to evaluate the child. Special education referrals may be made for a variety of reasons, including but not limited to academic and/or behavioral concerns. All necessary evaluations will be conducted in compliance with federal and state laws and regulations.

ALVA PUBLIC SCHOOLS

SECTION 504 OF THE REHABILITATION ACT OF 1973/ TITLE II OF THE AMERICANS WITH DISABILITIES ACT INFORMATION AND PROCEDURAL SAFEGUARDS

Section 504 of the Rehabilitation Act of 1973 requires that *"No otherwise qualified individual with a disability in the United States . . . shall, solely by reason of her or his disability, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. . ."* Title II of the Americans with Disabilities Act has a similar anti-discrimination requirement.

Section 504 applies to preschool, elementary, secondary, and adult education programs and activities that receive or benefit from Federal financial assistance for the operation of such programs or activities. Each recipient that operates a federally assisted public elementary or secondary education program must provide a free and appropriate public education to each qualified person in its jurisdiction, regardless of the nature or severity of the person's disability. Recipients that operate a public elementary or secondary education program must also annually attempt to identify and locate unserved children with disabilities.

Section 504 regulations at 34 C.F.R. § 104.3 (j-l) define a person with a disability as any person who: has a physical or mental impairment which substantially limits one or more major life activities; has a record of such an impairment; or is regarded as having such an impairment.

For purposes of public educational services, a qualified person with a disability is: of an age that persons with disabilities are provided such services; of any age that it is mandatory under state law to provide such services to persons with disabilities; or a person for whom a state is required to provide a free appropriate public education under the Individuals with Disabilities Education Act (IDEA).

Provision of an appropriate education means the provision of regular or special education and related services such that:

- Educational services are designed to meet individual educational needs of children with disabilities as adequately as the needs of non disabled persons are met;
- Each child with a disability is educated with nondisabled children, to the maximum extent appropriate to the needs of the child with a disability; and
- Nondiscriminatory evaluation and placement procedures are established to guard against misclassification or misplacement of students, and a periodic reevaluation is conducted of students who have been provided special education or related services.

Procedural safeguards shall be established and implemented so that parents and guardians are notified of their rights, as follows:

- Receive notice with respect to actions regarding the identification, evaluation, or educational placement of children who, because of a disability, need or are believed to need special instruction or related services;
- Have the interpretation of evaluation data and placement decisions made by a group of persons knowledgeable about the child, the meaning of the evaluation data, and the placement options (504 team);
- The 504 team shall draw upon information from a variety of sources, including aptitude and achievement test, teacher recommendations, physical condition, social or cultural background, and adaptive behavior, and ensure that this information is documented and carefully considered;
- Have the opportunity to review relevant records;
- If parents or guardians disagree with the school district's decision, may challenge the identification, evaluation and placement decisions made with respect to their children in an impartial hearing, with an opportunity for their participation and for representation by counsel, by contacting the Section 504/Title II Coordinator in writing to request the hearing;
- If parents or guardians disagree with the impartial hearing decision, may challenge that decision by requesting an impartial review of the decision by contacting the Section 504/Title II Coordinator in writing to request the review within 30 days of receipt of the hearing decision; and
- If parents or guardians disagree with the impartial review decision, may challenge that decision by filing an action in state or federal court.

Provision of a free public education requires recipients that operate a public elementary or secondary education program to provide services without cost to the person with a disability or to the child's parents or guardians, except for those fees imposed on nondisabled persons, parents or guardians. It also means that, if a school district is unable to provide a child with a disability with an appropriate education and places or refers that child to a program it does not operate, the district is still responsible for the costs of the program including tuition, room and board, transportation, and non-medical care.

An appropriate education could consist of education in regular classes, education in regular classes with the use of supplementary services, or special education and related services. Special education may include specially designed instruction in classrooms, at home, or in private or public institutions, and may be accompanied by such related services and developmental, corrective, and other supportive services, including psychological counseling and medical diagnostic services.

Children with disabilities must also be afforded an equal opportunity to participate in nonacademic and extracurricular services and activities such as counseling, physical education, recreational athletics, transportation, health services, recipient-sponsored clubs, recipient employment and assistance in obtaining employment. These services must be provided by the recipient in such a manner as is necessary to afford students with disabilities an equal opportunity for participation.

Elementary and secondary school recipients operating preschool and adult education programs may not exclude qualified persons with disabilities and must take into account their needs in determining the aid, benefits, or services to be provided under these programs or activities.

The district prohibits retaliation, intimidation, threats, or coercion of any person for opposing discrimination or for participating in the district's discrimination complaint process or making a complaint, testifying, assisting, appealing, or participating in any other discrimination complaint proceeding or hearing. The district will take steps to prevent the alleged perpetrator or anyone else at the district from retaliating against the alleged victim or any person who acts to oppose discrimination or participates in the complaint process. These steps include notifying

students and employees that they are protected from retaliation, making sure that victims know how to report future problems and making follow-up inquiries to see if there have been any new incidents. If retaliation occurs, the district will take strong responsive action.

The Office for Civil Rights of the United States Department of Education enforces the requirements of Section 504 of the Rehabilitation Act of 1973 and Title II of the Americans with Disabilities Act. The address of the Regional Office which includes Oklahoma is: Office for Civil Rights, U.S. Department of Education, One Petticoat Lane, 1010 Walnut Street, Suite 320
Kansas City, MO 64106.

Persons with questions or concerns about this Information and Procedural Safeguards form or about the implementation of Section 504 or Title II of the Americans with Disabilities Act in the Alva Public Schools should contact Superintendent, Section 504/Title II Compliance Coordinator, Alva Public Schools, 418 Flynn Street, Alva, OK 73717; (580) 327-4823 | email: schools@alvaschools.net.

EDUCATIONAL SERVICES FOR STUDENTS UNDER SECTION 504 AND TITLE II OF THE AMERICANS WITH DISABILITIES ACT

The district recognizes its responsibilities to children who are or may be qualified persons with disabilities under Section 504 of the Rehabilitation Act of 1973 ("Section 504") and Title II of the Americans with Disabilities Act ("Title II"). In an effort to ensure that district employees understand and implement the requirements of Section 504 and Title II, the board of education adopts the following policy.

Qualified Individual with a Disability

All qualified persons with disabilities within the jurisdiction of the district are entitled to a free appropriate public education ("FAPE"), regardless of the nature or severity of the person's disability. Section 504 and Title II define a person with a disability as any person who (a) has a physical or mental impairment that substantially limits one or more major life activities, (b) has a record of such an impairment or (c) is regarded as having such an impairment. The definition of disability shall be construed in favor of broad coverage of individuals, to the maximum extent permitted by Section 504 and Title II.

The term "physical or mental impairment" means (a) any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more of the following body systems: neurological; musculoskeletal; special sense organs; respiratory, including speech organs; cardiovascular; reproductive, digestive, genito-urinary; hemic and lymphatic; skin; and endocrine; or (b) any mental or psychological disorder, such as mental retardation, organic brain syndrome, emotional or mental illness, and specific learning disabilities. The phrase "physical or mental impairment" includes, but is not limited to, such contagious and noncontagious diseases and conditions as orthopedic, visual, speech and hearing impairments, cerebral palsy, epilepsy, muscular dystrophy, multiple sclerosis, cancer, heart disease, diabetes, mental retardation, emotional illness, specific learning disabilities, HIV disease (whether symptomatic or asymptomatic), tuberculosis, drug addiction, and alcoholism. The following are excluded from the term "physical or mental impairment:" (a) an individual who currently engages in the illegal use of drugs; (b) homosexuality and bisexuality; (c) transvestism, transsexualism, pedophilia, exhibitionism, voyeurism, gender identity disorders not resulting from physical impairments, or other sexual behavior disorders; (d) compulsive gambling, kleptomania, or pyromania; and (e) psychoactive substance use disorders resulting from current illegal use of drugs.

The term "major life activities" includes, but is not limited to, functions such as caring for one's self, performing manual tasks, seeing, hearing, eating, sleeping, walking, standing, lifting, bending, speaking, breathing, learning, reading, concentrating, thinking, communicating and working. A "major life activity" also includes the operation of a major bodily function, including but not limited to, functions of the immune system, normal cell growth, digestive, bowel, bladder, neurological, brain, respiratory, circulatory, endocrine and reproductive functions.

An impairment that substantially limits one major life activity need not limit other major life activities in order to be considered a disability. Also, an impairment that is episodic or in remission is a disability if it would substantially limit a major life activity when active.

MITIGATING MEASURES

The determination of whether an impairment substantially limits a major life activity shall be made without regard to the ameliorative effects of mitigating measures such as:

1. medication, medical supplies, equipment, or appliances, low-vision devices (which do not include ordinary eyeglasses or contact lenses), prosthetics including limbs and devices, hearing aids and cochlear implants or other implantable hearing devices, mobility devices, or oxygen therapy equipment and supplies;
2. use of assistive technology;
3. reasonable accommodations or auxiliary aids or services; or
4. learned behavioral or adaptive neurological modifications.

The ameliorative effects of the mitigating measures of ordinary eyeglasses or contact lenses shall be considered in determining whether an impairment substantially limits a major life activity.

For purposes of this policy, a "qualified person with a disability" is a person with a disability who is (a) of an age during which it is mandatory under Oklahoma law to provide such services to persons with disabilities; (b) of an age during which persons without disabilities are provided such services; or (c) a person for whom a state is required to provide a FAPE under the Individuals with Disabilities Education Act.

APPROPRIATE EDUCATION

An appropriate education may comprise education in regular classes, education in regular classes with the use of related aids and services, or special education and related services in separate classrooms for all or portions of the school day. Special education may include specially designed instruction in classrooms, at home, or in private or public institutions and may be accompanied by related services such as speech therapy, occupational and physical therapy, psychological counseling and medical diagnostic services necessary to the child's education.

An appropriate education in the district will include:

- Regular or special education and related aids and services designed to meet the individual education needs of students with disabilities as adequately as the needs of nondisabled students are met;
- The education of each student with a disability with nondisabled students, to the maximum extent appropriate to the needs of the student with a disability;
- Evaluation and placement procedures established to guard against misclassification or inappropriate placement of students, and a periodic reevaluation of students who have been provided special education or related services; and
- Establishment of due process procedures that enable parents and guardians to receive required notices, review their child's records and challenge identification, evaluation and placement decisions, and that provide for an impartial hearing with the opportunity for participation by parents and representation by counsel, and a review procedure.

The district will design education programs for students with disabilities to meet their individual needs to the same extent that the needs of nondisabled students are met. The district will provide the quality of education services to students with disabilities that equals the quality of services provided to nondisabled students. The district will provide teachers for students with disabilities who are trained in the instruction of individuals with disabilities. The

district will provide comparable facilities for students with disabilities and make appropriate materials and equipment available. The district will not exclude students with disabilities from participating in nonacademic services and extracurricular activities on the basis of disability. The district will provide persons with disabilities an opportunity to participate in nonacademic services that is equal to that provided to persons without disabilities. These services may include physical education and recreational athletics, transportation, health services, recreational activities, special interest groups or clubs sponsored by the district, and referrals to agencies that provide assistance to persons with disabilities and employment of students.

EDUCATION SETTING

The district will place students with and without disabilities in the same setting, to the maximum extent appropriate to the educational needs of the students with disabilities. The district shall place students in the regular education environment unless the district demonstrates that the education of the student in the regular education environment with the use of supplementary aids and services cannot be achieved satisfactorily. Students with disabilities will participate with nondisabled students in both academic and nonacademic services, including meals, recess and physical education, to the maximum extent appropriate to their individual needs.

As necessary, the district will provide specific supplementary aids and services for students with disabilities to ensure an appropriate education setting. Supplementary aids may include, but are not limited to, interpreters for students who are deaf, readers for students who are blind, and equipment to make physical accommodations for students with mobility impairments.

If the district places an individual with disabilities in another school, the district will take into account the proximity of the other school to the student's home.

EVALUATION PLACEMENT

The district shall annually undertake to identify and locate every qualified child with a disability residing in the district's jurisdiction who is not receiving a public education and take appropriate steps to notify children with disabilities and their parents or guardians of the district's duties under Section 504 and Title II.

Examples of situations in which school personnel may reasonably conclude that a student needs or is believed to need special education or related aids and services includes (a) when a teacher, based on observation of or work with the student, expresses a view that an evaluation is needed, or (2) when the parent of a student has requested an evaluation.

The district will make evaluation and placement decisions in accordance with appropriate procedures required by law. The district will conduct an individual evaluation of any student who, because of a disability, needs or is believed to need, special education or related services before any action is taken with respect to the initial placement of the student in regular or special education or before any significant subsequent change in that placement. The district will use tests and other evaluation materials that have been validated for the specific purpose for which they are used. The tests and other evaluation materials will include those tailored to assess the student's specific areas of educational need, not merely those designed to provide a single general intelligence quotient (IQ) score. Trained personnel will administer the tests and other evaluation materials in conformance with the instructions provided by their producer. The district will select and administer tests so as best to ensure that, when a test is administered to a student with impaired sensory, manual or speaking skills, the test results accurately reflect the student's aptitude or achievement level or whatever other factor the test purports to measure, rather than reflecting the student's impaired sensory, manual or speaking skills, unless those skills are the factors the test purports to measure. In interpreting evaluation data and making placement decisions, the district will draw upon information from a variety of sources, including but not limited to aptitude and achievement tests, teacher recommendations, physical condition, social or cultural background and adaptive behavior. Grades alone are an insufficient basis upon which to determine whether a student has a disability and may not be the determinative factor in deciding whether a student with a disability needs special education or related aids and services. Grades are just one consideration and do not provide information on how much effort or how many outside resources are required for the student to achieve those grades. A multidisciplinary group, including persons knowledgeable about the child, the meaning of the evaluation data and

the placement options, will document and consider carefully information obtained from all such sources in making eligibility and placement decisions. A parent is a required participant if he or she is a person knowledgeable about the student. The district will ensure that the placement decision is made in a timely manner, and in the least restrictive environment in accordance with Section 504 and Title II.

The multidisciplinary group will consider reevaluation at least every three years for each student for whom the district is providing a FAPE or more frequently if conditions warrant or if the child's parent or teacher requests a reevaluation. While reevaluation does not require prior parental consent, parental notification prior to reevaluation is required. Reevaluation shall occur using the same evaluation criteria for an initial evaluation. The district shall reevaluate a student with a disability in the following circumstances, including, but not limited to, a reevaluation (1) in any area where a disability is suspected, (2) if the student's behaviors or needs have changed warranting a reevaluation, and (3) before any significant change in placement (including, for example, termination or significant reduction of educational or related services). Reevaluations will be completed within a reasonable period of time.

Section 504/Title II Plan

When the multidisciplinary group determines that a student is eligible for educational services under Section 504 and Title II, it will prepare a plan documenting how the district will provide FAPE for that student. The plan will identify the educational services, related services and supplementary aids and services needed to meet the student's individual educational needs in the least restrictive environment, the person(s) responsible for implementing each component of the plan, the starting and ending dates for each component and a date, no less than annually, on which to review the plan.

The district will provide appropriate education and related aids and services free of charge to students with disabilities and their parents or guardians, except for fees equally imposed on nondisabled persons or their parents or guardians.

If the district is unable to provide a FAPE itself, it may place a person with a disability in, or refer the person to, a program other than the one it operates. However, the district will remain responsible for ensuring that the education offered to the student is appropriate, as defined by law, and for coverage of financial obligations associated with the placement. The district will ensure that adequate transportation is provided to and from any program in which it places the student that is not operated by the district, at no greater personal or family cost than would be incurred if the student were placed in the district's program.

PROCEDURAL SAFEGUARDS

The district will employ procedural safeguards regarding the identification, evaluation or educational placement of persons who, because of disability, need or are believed to need special instruction or related services. District personnel will notify parents or guardians of any evaluation or placement actions and parents or guardians will be allowed to examine the student's records. The district will provide parents or guardians with a copy of its *Section 504 of the Rehabilitation Act of 1973/Title II of the Americans with Disabilities Act Information and Procedural Safeguards form* annually at the student's Section 504 plan meeting and when the district (a) seeks parent or guardian consent for Section 504 evaluation or reevaluation, (b) receives a complaint from the parent or guardian alleging failure to comply with Section 504 or Title II requirements, (c) receives a request from the parent or guardian for a copy of the *Procedural Safeguards* form, and (d) takes any action with respect to the identification, evaluation, or educational placement of the student.

The district will provide an impartial hearing by an objective, neutral hearing officer that will allow parents or guardians to challenge identification, evaluation and placement procedures and decisions. If parents or guardians disagree with the district's decisions, they will be afforded an impartial hearing, with an opportunity for their participation and for representation by counsel. The district will make available an impartial administrative review procedure by an objective, neutral review officer to parents or guardians who want to challenge the hearing decision. If the parent or guardian wants to challenge the administrative review decision, he or she may file an action in state or federal court.

RETALITATION

The district also prohibits retaliation, intimidation, threats, or coercion of any person for opposing discrimination or for participating in the district's discrimination complaint process or making a complaint, testifying, assisting, appealing, or participating in any other discrimination complaint proceeding or hearing. The district will take steps to prevent the alleged perpetrator or anyone else at the district from retaliating against the alleged victim or any person who acts to oppose discrimination or participates in the complaint process. These steps include notifying students and employees that they are protected from retaliation, making sure that victims know how to report future problems and making follow-up inquiries to see if there have been any new incidents. If retaliation occurs, the district will take strong responsive action.

Persons with complaints or concerns about the application of this policy should contact the district's 504/Title II Coordinator:

District personnel must consider any unique circumstances on a case-by-case basis when determining whether a change of placement is appropriate for a child with a disability who violates the district's code of student conduct.

SHORT-TERM REMOVAL

District personnel may remove a child with a disability who violates the district's code of student conduct from the child's current placement to an appropriate interim alternative educational setting, another setting or suspension, for not more than ten (10) consecutive school days (to the extent those alternatives are applied to children without disabilities) and for additional removals of not more than ten (10) consecutive school days in the same school year for separate incidents of misconduct, as long as those additional removals do not constitute a change of placement.

A change of placement occurs if --

1. the removal is for more than ten (10) consecutive school days; or
2. the child has been subjected to a series of removals that are ten (10) days or less during the same school year that constitute a pattern. School personnel determine whether a pattern exists by considering the following factors on a case-by-case basis:
 - a. the series of removals total more than ten (10) school days in a school year;
 - b. the child's behavior is substantially similar to the child's behavior in previous incidents that resulted in the series of removals; and
 - c. such additional factors as the length of each removal, the total amount of time the child has been removed and the proximity of the removals to one another.

In school alternative placements for more than ten (10) consecutive school days, or those which may constitute a pattern of exclusion, may be a change of placement if the student does not receive education services required under the student's IEP or Section 504/Title II Plan.

In-school suspensions for more than ten consecutive school days or that constitute a pattern of exclusion may be a significant change of placement if the student does not receive educational services required under Section 504 and Title II."

EDUCATIONAL SERVICES DURING A SHORT-TERM DISCIPLINARY REMOVAL

The district will provide a child with a disability the same level of services it provides children without disabilities during removals for ten (10) school days or less during the school year.

After a child with a disability has been removed from his or her current placement for ten (10) school days in the same school year, if a subsequent removal is imposed for not more than ten (10) consecutive school days and is not a change of placement, district personnel, in consultation with the child's special education teacher, will determine the extent to which services are needed, so as to enable the child to continue to appropriately progress in the general curriculum, although in another setting, and to appropriately advance toward meeting the goals set out in the child's IEP or Section 504/Title II Plan.

NOTIFICATION

On the date on which the decision is made to make a disciplinary removal that constitutes a change of placement of a child with a disability because of a violation of the district's code of student conduct, district personnel will notify the child's parents of the decision and provide the parents of children who are eligible for special education and related services under the IDEA with a copy of the district's *Parents Rights in Special Education: Notice of Procedural Safeguards* form. District personnel will provide the parents of children who are eligible for special education and related services only under Section 504/Title II with a copy of the district's *Section 504 Information and Procedural Safeguards* form.

SPECIAL CIRCUMSTANCES

District personnel may also remove a student to an interim alternative educational setting for not more than 45 school days without regard to whether the behavior is determined to be a manifestation of the child's disability, if the child:

1. carries or possesses a weapon at school, on school premises, or to or at a school function;
2. knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance at school, on school premises or at a school function; or
3. has inflicted serious bodily injury upon another person while at school, on school premises or at a school function.

MAKING A MANIFESTATION DETERMINATION

Except for removals that will be for not more than ten (10) consecutive school days and will not constitute a change of placement, within ten (10) school days of any decision to change the placement of a child with a disability because of a violation of the district's code of student conduct, the child's IEP or Section 504/Title II team will meet to review all relevant information in the student's file, including the child's IEP or Section 504/Title II Plan, any teacher observations, psychological evaluation data related to the student's current behavior, and any relevant information provided by the parents to determine:

1. if the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or
2. if the conduct in question was the direct result of an inappropriate placement or the district's failure to implement the IEP or Section 504/Title II Plan.

The conduct will be determined to be a manifestation of the child's disability if the child's IEP or Section 504/Title II team determines that a condition in either (1) or (2) of this paragraph was met.

If the child's IEP or Section 504/Title II team determines that the conduct in question was the direct result of the district's failure to implement the IEP or 504 Plan, the district will take immediate steps to remedy those deficiencies.

DETERMINATION THAT BEHAVIOR IS A MANIFESTATION OF THE CHILD'S DISABILITY

If the IEP team determines that the conduct was a manifestation of the child's disability, the team will either:

1. conduct a functional behavior assessment, unless the district had conducted a functional behavior assessment before the behavior that resulted in the change of placement occurred and further functional behavior assessment is deemed unnecessary, and implement a behavior intervention plan for the child; or

2. if a behavior intervention plan already has been developed, review the behavior intervention plan and modify it, as necessary, to address the behavior.

If the Section 504/Title II team determines that the conduct was a manifestation of the child's disability, the team will determine what, if any, modifications to the student's educational placement are necessary, including conducting a functional behavior assessment and developing or revising a behavior intervention plan (if appropriate).

Except as provided in this policy, the IEP or Section 504/Title II team will return the child to the placement from which the child was removed, unless the parent and the district agree to a change of placement as part of the modification of the behavior intervention plan. The student may not be disciplined if the student's conduct is a manifestation of the student's disability.

DETERMINATION THAT THE BEHAVIOR IS NOT A MANIFESTATION OF THE CHILD'S DISABILITY

If the behavior that gave rise to the violation of the district's code of student conduct is determined not to be a manifestation of the child's disability, then district personnel may apply the relevant disciplinary procedures to children with disabilities in the same manner and for the same duration as the procedures would be applied to children without disabilities.

A parent or guardian who disagrees with the manifestation determination may file a complaint requesting an impartial due process hearing.

EDUCATIONAL SERVICES DURING A LONG-TERM DISCIPLINARY CHANGE OF PLACEMENT

During a long-term disciplinary change of placement that exceeds 10 consecutive school days for behavior that is determined not to be a manifestation of the child's disability, a child eligible for special education and related services under the IDEA and Section 504/Title II will:

1. continue to receive educational services so as to enable the child to continue to appropriately progress in the general education curriculum, although in another setting, and to appropriately advance toward achieving the goals set out in the child's IEP or Section 504/Title II plan; and
2. receive, as appropriate, a functional behavior assessment and behavior intervention services and modifications that are designed to address the behavior violation so that it does not recur.

At a minimum, a FBA must result in a summary statement that offers an operational definition of the problem behavior, describes the antecedents and maintaining consequences related to the problem behavior, and state the contexts where the behavior is more or less likely to occur. When problem behaviors are limited to no more than two school routines and the problem behaviors are not physically threatening to the student or adults, the IEP or Section 504/Title II team should be able to complete FBAs. In other circumstances, the team should consider consulting with a qualified professional trained in addressing behavior to complete the student's FBA.

Upon completion of the FBA, a BIP will be developed for the student by qualified professionals and team members, including parents, who are knowledgeable about the student and his or her behaviors. The IEP or Section 504/Title II team shall coordinate the implementation of the BIP, and the team will set behavior progress review meetings at appropriate and periodic intervals depending on the needs and behaviors of the student. The BIP should be written to provide a proactive approach to the student's behavioral issues, and the team will ensure the BIP is revised in a timely manner, if necessary, based on information obtained during the progress review meetings.

APPEAL TO HEARING OFFICER UNDER THE IDEA

The parent of a child eligible for special education and related services under the IDEA who disagrees with any decision regarding placement or the manifestation determination under this policy, or the district, if district personnel believe that maintaining the current placement of the child is substantially likely to result in injury to the child or others, may appeal the decision by filing a due process hearing complaint seeking an expedited hearing.

In making the determination, the hearing officer may:

1. return the child with a disability to the placement from which the child was removed if the hearing officer determines that the removal was a violation of the applicable provisions of the IDEA or that the child's behavior was a manifestation of the child's disability; or
2. order a change of placement of the child to an appropriate interim alternative educational setting for not more than 45 school days if the hearing officer determines that maintaining the current placement of the child is substantially likely to result in injury to the child or to others.

These procedures may be repeated, if the district believes that returning the child to the original placement is substantially likely to result in injury to the child or to others.

When an appeal has been requested by either the parent or the district, the child will remain in the interim alternative educational setting pending the decision of the hearing officer or until the expiration of the time period set for the placement, whichever occurs first, unless the parent and the district agree otherwise.

The district may also seek a court order to remove a child with a disability from school or change the child's current educational placement if district personnel believe that maintaining the current placement of the child is substantially likely to result in injury to the child or to others.

PROVIDING RECORDS TO DISCIPLINARY DECISION MAKER

If the district initiates disciplinary procedures that would constitute a change of placement for a child with a disability, district personnel will ensure that the child's special education and disciplinary records are provided for consideration to the school personnel making the final determination regarding the disciplinary action.

PRE-FILING PROCEDURES

Prior to the filing of a written complaint, the student, parent or guardian, employee or patron is encouraged, but not required, to visit with the building principal or the Coordinator, as applicable, and reasonable effort should be made by the district at this level to resolve the problem or complaint.

FILING, INVESTIGATION, HEARING AND REVIEW PROCEDURES

The Grievant submits a written complaint to the Coordinator, as applicable, stating the basis, nature and date of the alleged discrimination, the names of persons responsible (where known) and requested action. If the applicable Coordinator is the person alleged to have committed the discriminatory act(s), then the complaint should be submitted to the High School Principal for assignment. Complaint forms are available from the offices of the district's Coordinators and online at the district's website at www.alvaschools.com.

The Coordinator conducts a prompt, reliable, complete and impartial investigation within 10 days of receiving the complaint, to the extent reasonably possible, which shall include but not be limited to, interviewing the Grievant and any witnesses, review of documents and interviewing the Respondent. The district will provide an opportunity for both parties to present witnesses and provide evidence. The Coordinator will ask the Respondent to confirm or deny facts; indicate acceptance or rejection of the Grievant's requested action; and outline alternatives.

As to complaints of discrimination by students, parents or guardians and school employees, the Coordinator will disclose the complaint, the identity of the Grievant and information regarding the person who allegedly committed the discriminatory act only to the extent necessary to fully investigate the complaint and only when the disclosure is

required or permitted by law. If a Grievant wishes to remain anonymous, the Coordinator will advise him or her that such confidentiality may limit the district's ability to fully respond to the complaint. If a Grievant asks to remain anonymous, the Coordinator will still proceed with the investigation.

Within 5 days after completing the investigation, the applicable coordinator will issue a written decision to the Grievant and Respondent.

If the Grievant or Respondent is not satisfied with the decision, he or she must notify the Coordinator, in writing, within 5 days and request an appeal to the Board of Education. The written appeal shall contain a specific statement explaining the basis for the appeal.

The Coordinator will notify the Board of Education, in writing, within 5 days after receiving the appeal. The clerk will place the appeal on a board agenda within 30 days from the date of notification to the Board of Education.

The Board will act as an appellate body by reviewing the decisions and the oral and written evidence presented below and making a decision. At the board meeting, the Board may ask for oral or written evidence from the parties and any other individual it deems relevant. The clerk will make arrangements to audiotape any oral evidence presented. Within 5 days of the meeting, the Board will issue a final decision in writing to all parties involved. The district will ensure that if discrimination, including harassment or retaliation, has occurred, prompt and appropriate corrective and remedial actions will be taken.

GENERAL PROVISIONS

EXTENSION OF TIME: Any time limits set by these procedures may be extended by mutual consent of the parties involved. The total number of days from the date the complaint is filed until the Board of Education issues a final decision shall be no more than 120 days.

No complaint record shall be entered in any personnel file unless adverse employment action is taken against an employee. Complaint records shall be maintained on file for three years after complaint resolution.

REPRESENTATION: The Grievant and the Respondent may have a representative assist them through the grievance process and accompany them to any hearing.

RETALIATION: The district prohibits retaliation, intimidation, threats, or coercion of any person for opposing discrimination or for participating in the district's discrimination complaint process or making a complaint, testifying, assisting, appealing, or participating in any other discrimination complaint proceeding or hearing. The district will take steps to prevent the alleged perpetrator or anyone else at the district from retaliating against the alleged victim or any person who acts to oppose discrimination or participates in the complaint process. These steps include notifying students and employees that they are protected from retaliation, making sure that victims know how to report future problems and making follow-up inquiries to see if there have been any new incidents. If retaliation occurs, the district will take strong responsive action.

BASIS OF DECISION: At each step in the grievance procedure, the decision maker will take or recommend the taking of appropriate measures based on the facts, as revealed by the investigation and hearing, taken as a whole, and the totality of the circumstances, such as the nature, extent, context and gravity of the activities or incidents.
