

Alva Schools uses Sylogist as our student information system. If you would like to enroll a **new student** to the district, you will need to request a user login for our student information system. The PRIMARY GUARDIAN will need to go to www.alvaschools.com. You may then remain on the district page or choose to go to the school site for your student. Click on Menu then Enrollment. Click on the applicable link and follow the instructions. To request a new user account click on Parent & Student Login (Sylogist). Scroll down to New User? Request an Account. Fill in the information requested and the request will be sent to your students' school site secretary. Your request will be approved and an email with login information will automatically be sent to the email address you provided. You will then log in and enter all information for your student. The information will then be sent to the secretary at the school. Once you have a user login you can login at any time by clicking Sylogist Login at the top of the web page. Please contact the secretary at your student's school if you have any questions.

Parents/guardians and students can log into Sylogist at any time to see information such as attendance, discipline, and grades for each student. Each parent/guardian and each student will have their own login. Contact your school's office for help if you don't know your username and password. Go to <https://alvaschools.com/> and click on Sylogist Login located at the top of the page. Enter your username and password. To this link will also be used to enroll your returning student in Alva schools each year.
