Blu Moon Photography has transitioned away from our physical studio space and moved into a fully on-location photography model. This shift reflects not only the evolving needs of our clients but also our commitment to creating a more modern, convenient, and personalized experience for every session.

By moving exclusively to on-location personal sessions, we're able to offer greater scheduling flexibility, more variety of settings, and a more customized approach tailored to each client's personality and vision. Whether it's a scenic outdoor location, a meaningful place to your family, or a setting that reflects your senior's unique style, this new model allows us to create images that feel even more authentic and personal.

ALL of our outdoor senior sessions are photographed at a location of your choosing. Some GREAT spots include: ORHS Sports Fields, Old Town Spring, Tree Rows at WG Jones Park, Downtown Conroe, Burroughs Park, The Woodlands Waterway, Mercer Arboretum & Botanic Gardens, and Downtown Houston.
