

Transition to Qmlativ: Reinstalling the Skyward App

Qmlativ uses the same mobile app that users downloaded for the previous version of Skyward. To continue using the app, families must uninstall and reinstall the app after Hockinson School District transitions to Qmlativ on April 13, 2026.

1. Delete the existing app: If you already have the Skyward Mobile App, please delete it from your phone. Press and hold the Skyward app icon, then select “Remove App” from the menu.

2. Reinstall: Visit your App Store, search for “Skyward Mobile Access,” and tap install.

3. Log in: Once the app has finished installing, log in using your existing credentials and follow the prompts to finalize your account setup. (Note: parents who are also employees should use their network username and password to log in.)
4. Need help? If you need assistance with your username or password, please call your school's office for a reset.
5. Watch & Learn: [This brief video](#) demonstrates the installation process and highlights some of Qmlativ's best features.
