Making Students Competent Builders of a Globally Competitive Future

September 21, 2026

Dear Parents & Guardians,

Our students and staff's safety and well-being remain a top priority for Wilkinson County Schools. We regularly conduct various safety drills throughout the year to ensure we are prepared to respond effectively in emergencies. These drills allow us to test and improve our procedures while ensuring everyone in our school community is equipped with the knowledge and tools to remain safe. Each of our schools conducts several internal lockdown drills during the academic year as part of these preparations.

As mandated by the state, every school district is required to conduct an annual intruder drill. This drill, which must be completed by October 1, is conducted in coordination with local law enforcement and emergency services. This year's drill is scheduled for **Tuesday, September 29 beginning at 10:00 a.m**. On this day, you will see participation from law enforcement and emergency responders in this important event.

In the days leading up to September 29, you may notice more emergency personnel around our schools. This is part of our preparation and coordination efforts, and we want to assure you that it is not cause for alarm. Our goal is to work closely with law enforcement and emergency teams to ensure we are all prepared and focused on maintaining a safe environment for everyone.

If you have any questions, please don't hesitate to contact us.

Sincerely,

Dr. Angela James

Dr. Angela James
Superintendent
