

## Family-School Partnerships Survey 2025-26

Warrensville Heights City School District (WHCSD) contracted with Hamai Consulting to assist with the annual Family-School Partnerships Survey.

Survey data collection happened in October 2025 through February 2026.

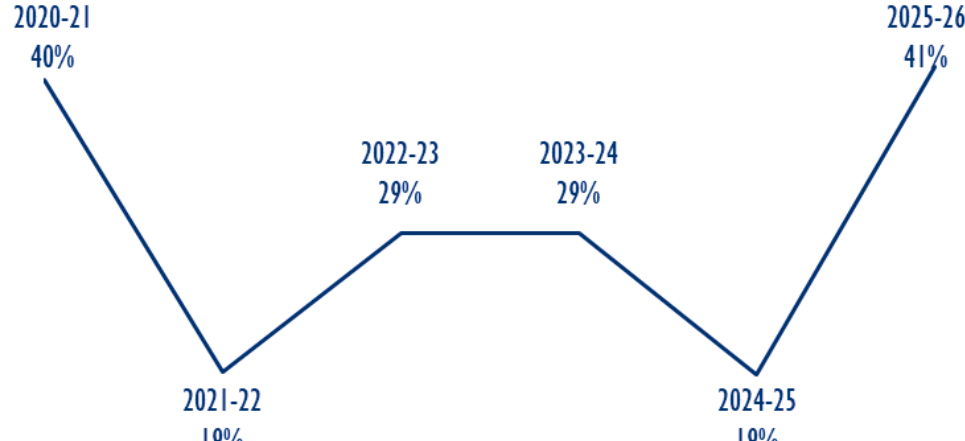

Parents were able to complete the survey online or on paper in English, Spanish, Burmese, French, Hungarian, and Russian.

**508**  
parents  
completed the  
survey

**41%**  
of enrolled  
students

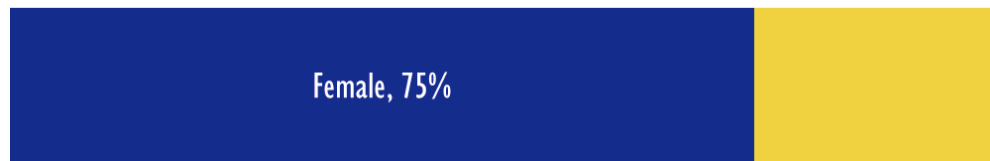

The response rate matches the highest rate of the past 6 years (5 previous years).

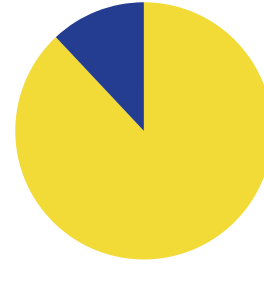

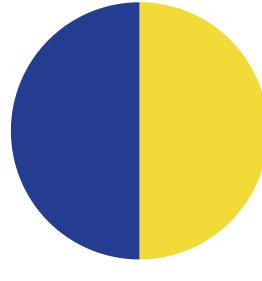

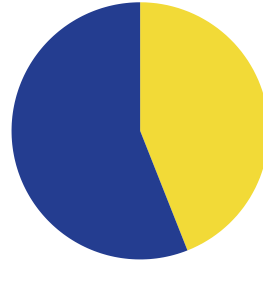

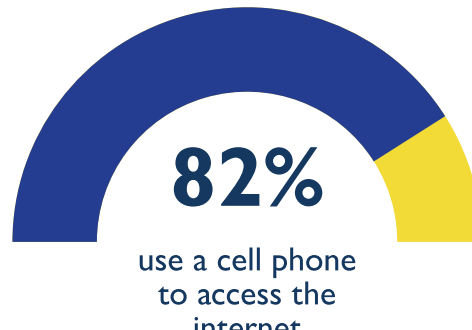

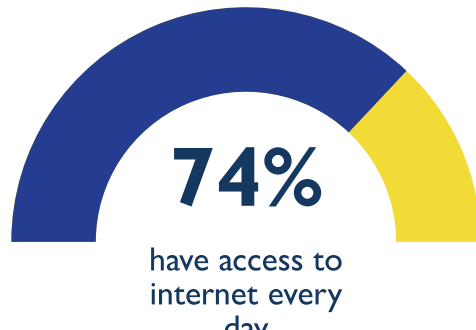

Parents mostly identified as Black or African American...

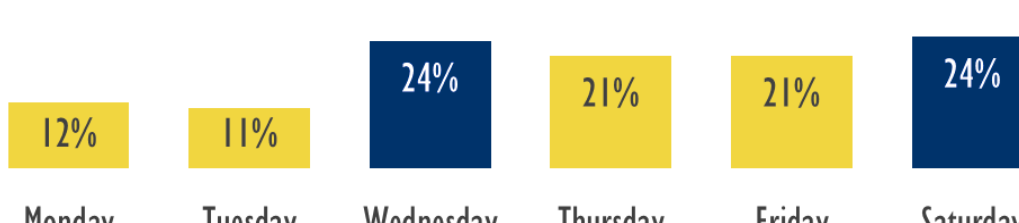

... and female.

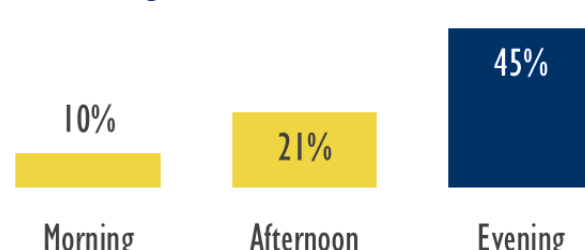

## Engagement Preferences

Parents prefer to attend school-sponsored events on Wednesdays and Saturdays...

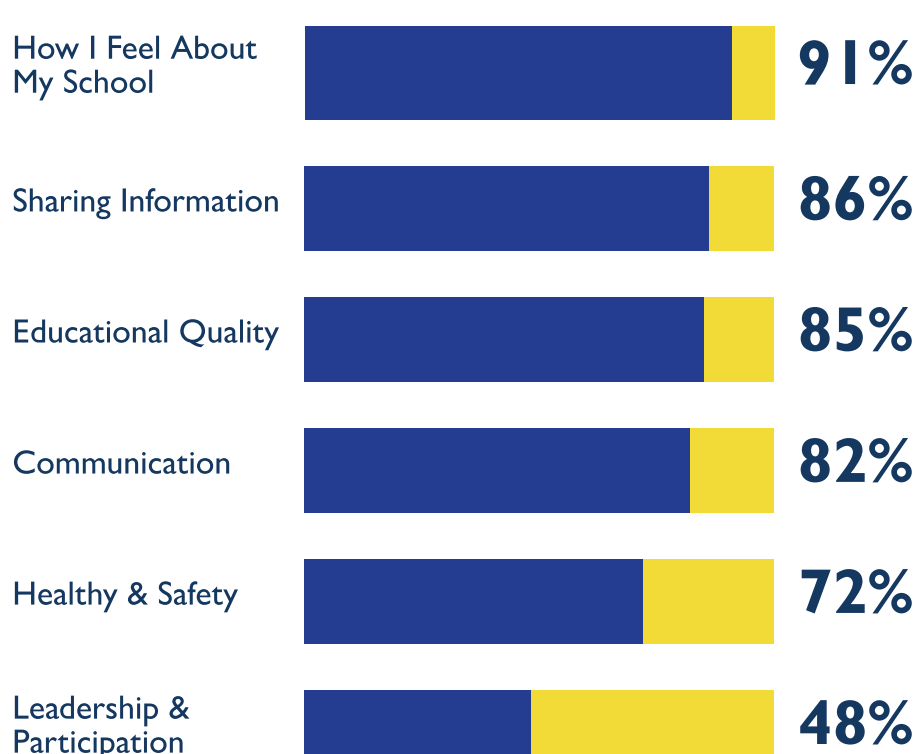

... and in the evening.

Work schedules are the most common barrier to families attending events.

## Perceptions of Schools

The highest percent of parents *Agreed or Strongly Agreed* with positive phrases describing **How They Feel About Their School**.

Increased from  
last year

The lowest percent of parents agreed with positive statements about their school's **Leadership and Participation**.

## Recommendations

1

Provide most events on Wednesday and Saturday evenings, along with options at other times and online/virtual options to encourage engagement of parents with various work schedules.

2

Use Class Dojo, rather than Infinite Campus, for teachers at all schools to provide regular updates on students' progress.

3

Communicate more consistently using multiple methods to ensure messages reach parents.

4

Communicate more frequently and improve response and notification times.

5

Provide more opportunities for parents to volunteer with schools, provide input on their children's learning, and be involved in school improvement planning and decision making.
