ISBE Parent Survey – Parent Involvement (Indicator 8)

Each year, January through June, ISBE surveys a representative sample of parents of students with disabilities to determine how well schools throughout the state are involving parents in their children's education. This year, Paw Paw School District was selected to participate in this parent survey.

During the month of January, ISBE will mail a letter to parents of students with disabilities in the Paw Paw School District, notifying parents of the survey. If you are a parent of a student with an Individualized Education Plan (IEP), you may receive a survey in the mail from Measurement Incorporated, the current contractor administering the ISBE survey. If you do receive the parent survey, please take a few minutes to complete it. The survey can be completed online or by mail. Information about how to complete the survey online will be provided in your letter.

Your opinions are very important to us. Your answers will be combined with those from other parents to help the state and school district improve family-school partnerships in special education. No one from the school district will know how you answered the survey questions. Aggregated results of the survey will be reported in the State Performance Plan/Annual Performance Report on the main State Performance Plan, Data, and Accountability webpage.

For more information or if you need assistance with completing the survey, please contact Measurement Inc. at ISBEParentSurvey@MeasInc.com or toll-free at (877) 881-7077.

*Typical survey window: January 10 through June 30.
