COMMUNITY RELATIONS BOND AD APPROVAL**BACKGROUND**

There is a need to streamline the process for obtaining bond-related informational and promotional materials. Currently, individual advertising and promotional expenditures may require separate processing through established purchasing workflows, which can delay time-sensitive communication efforts. Providing advance spending authority for a limited amount would allow the District to respond more efficiently to communication needs while maintaining Board-established spending limits.

ADMINISTRATION'S CONSIDERATION

Effective and timely communication is an important component of keeping the community informed about the bond initiative. Advertising opportunities, print deadlines, and media placements often require prompt action. Granting a defined spending authorization would reduce administrative delays while providing clear parameters regarding the maximum amount that may be expended for bond-related informational materials and promotions.

ADMINISTRATION'S RECOMMENDATION

Administration recommends that the Board authorize the Community Relations Manager to expend up to \$5,000 for bond-related informational promotions and communication materials as needed. Expenditures may include advertising through local media outlets, digital communications, printing, distribution of informational materials, and other related communication efforts intended to provide factual information to the public regarding the bond initiative.

COMMUNITY RELATIONS BOND AD APPROVAL**BACKGROUND**

There is a need to streamline the process for obtaining bond-related informational. Currently, individual expenditures require separate processing through established purchasing workflows, which can delay time-sensitive communication efforts. Providing advance spending authority for a limited amount would allow the District to respond more efficiently to communication needs while maintaining Board-established spending limits.

ADMINISTRATION'S CONSIDERATION

Effective and timely communication is an important component of keeping the community informed about the bond initiative. Advertising opportunities, print deadlines, and media placements often require prompt action. Granting a defined spending authorization would

reduce administrative delays while providing clear parameters regarding the maximum amount that may be expended for bond-related informational materials.

ADMINISTRATION'S RECOMMENDATION

Administration recommends that the Board authorize the Community Relations Manager to expend up to \$5,000 for bond-related informational communication materials as needed. Expenditures may include advertising through local media outlets, digital communications, printing, distribution of informational materials, and other related communication efforts intended to provide factual information to the public regarding the bond initiative.

URBAN moved and STEPHENSON seconded to amend 11F to the new version. Motion passed ROLL CALL VOTE (6-0)
