For more information on Northeast Tech's gainful employment data, graduation rates, median debt of students who completed the program, and other important information, please visit our website at www.netech.edu.

There will be no discrimination in any Northeast Tech Campus facilities because of race, color, sex, pregnancy, gender, gender expression or identity, national origin, religion, disability, veteran status, sexual orientation, age, marital status, or genetic information in its programs, services, activities and employment. Inquiries concerning application of this policy, Title IX or 504 plans should be directed to Dr. Ravonda Higgins, Northeast Tech's Deputy Superintendent, at ravonda.higgins@netech.edu, 511 S. Elliott, Pryor, OK 74361, or (918) 825-7040. All Title IX information is available upon request.

NORTHEAST TECH

"Preparing Individuals for Successful Careers"

Northeast Tech will provide resources and programs designed to support students' diverse academic, social, and emotional needs. Effective and dedicated professional educators, administrators and support staff will challenge students with a rigorous curriculum that considers individual learning styles.

We will be an institution of excellence that exemplifies best practices in instruction, student services, facilities, safety and security. Northeast Tech completers will be prepared to assume leadership roles as students in colleges and universities, as professionals in their chosen careers, and as citizens in this rapidly changing world.

CAMPUS FULL-TIME COURSE OFFERINGS

Each Northeast Tech campus has a unique set of course offerings. See the table of contents below for which programs are offered at the campus you are interested in attending.

TUITION & FEES

Adult students are required to pay tuition, unless awarded a 13th Year Scholarship (Board Policy 3021). All adult students will be required to pay a supply fee of $75 per semester. Adult students are defined as any student past the age of compulsory school attendance who is not enrolled in a high school, alternative school, or is not home-schooled. Additional fees may be required based upon course enrollment.

The tuition for in-district and out-of-district adults is:

	Price per Semester	Price per Year
Full-Time In-District:	$1,200	$2,400
Full-Time Out-of-District:	$2,400	$4,800
*****Evening Cosmetology In-District Total Cost:		$6,575
*Evening Cosmetology Out-of-District Total Cost:		$9,700
*Lineman Training In-District Total Cost:		$8,116
*Lineman Training Out-of-District Total Cost:		$11,416
*Practical Nursing (PN) In-District Total Cost:		$7,418
*Practical Nursing (PN) Out-of-District Total Cost:		$10,703

RESOURCES & SCHOLARSHIPS

Free Application for Federal Student Aid (FAFSA) - The FAFSA can be obtained at any of Northeast Tech's campuses, or you can complete the application online at www.studentaid.gov. For more information, there is a financial aid office at each campus.

13th Year Scholarship - High school seniors may apply for a scholarship for the school year following their graduation. Qualifying students will need to pay a supply fee of $75 per semester. Additionally, some programs require students to purchase books. Complete the application found at www.netech.edu and submit it to Student Services at your Northeast Tech campus for consideration.

Northeast Tech Foundation Scholarship - This scholarship is also available to both high school and adult students. Complete the application found at www.netech.edu and submit it to Student Services at your Northeast Tech campus for consideration.

COLLEGE CREDIT

In many cases, the technical training completed at Northeast Tech can qualify for Prior Learning Credit. Credit opportunities vary depending on your program and the path you choose. Contact your Northeast Tech Student Advisor for more information on how you can get a head start on college while attending Northeast Tech.

CLASS TIMES

High school students may attend Northeast Tech Monday through Friday in either the morning session, which runs from 8:30 a.m. to 11:30 a.m., or the afternoon session, which runs from 12:30 p.m. to 3:30 p.m. Adults may attend either or both sessions.

ENROLLMENT PROCEDURES

Enrollment may be accepted at any time during the year. To enroll, high school students need to complete an online application found at www.netech.edu. On the home page, high school students should click Apply Now, then New Full-Time Student Application. Adult students can complete an application online at www.netech.edu.

STUDENT RECORDS & PLACEMENT

Detailed records will be kept on each student. The record system may include such information as appearance, character, and safety consciousness. The records are kept in order to assist the staff in job placement and to accurately answer inquiries from prospective employers. Job placement assistance will be available to students. This service does not guarantee employment, and unqualified students will not be recommended to the industry.

CAREER READINESS CENTER

Northeast Tech Career Readiness Centers (CRC) assist students in advancing their skills. Each campus is equipped with a CRC classroom and a CRC Instructor or Specialist to assist all students. The CRC offers software and personalized instruction that teaches students various skills, from beginning to advanced, in a chosen field of expertise. Pre-testing identifies strengths and areas of need. Through self-paced, customized programs, the CRC provides assistance in Math, Science, Reading, Language, Basic Competencies, Computer Education, Pre-Employment and Work Maturity Skills, Resume Writing, Portfolio Building, Job Application Procedures, and Personal Finance. Visits to the CRC are a valuable part of the coursework at Northeast Tech as students develop a plan of study for their futures.

STUDENT ORGANIZATIONS

Northeast Tech's student organizations provide opportunities for leadership development. All students are encouraged to participate in the organization appropriate to their program. If a student has committed to participate in student contests and registration has been paid for the student by Northeast Tech, the student will be responsible for repaying all costs should they miss the contest. Exceptions may be granted in the event of an accident, illness, or other circumstance beyond the student's control.

Business Professionals of America (BPA) - Open to students enrolled in business and computer courses.
Educators Rising - Open to students enrolled in teacher prep courses.
HOSA (Health Occupations Students of America) - Open to students enrolled in health care courses.
SkillsUSA - Open to students enrolled in trade and industrial courses.
FCCLA - Open to students enrolled in Early Childhood Development.
EAST (Education Accelerated by Service and Technology) - Open to students enrolled in EAST.

Each campus has a local chapter of the prestigious **National Technical Honor Society**. Students who possess a 3.0 grade point average (GPA) in their Northeast Tech program and membership in their respective student organization may apply. Participation fees may apply.

ADULT TRAINING & EDUCATION

Each semester Northeast Tech offers a variety of adult day and evening classes. In addition to adult classes at the four campuses, some training is also available at the Business & Industry Services office in Pryor. If you are looking for specific career training at a quick pace, professional education or just pursuing a special interest, Northeast Tech can assist you with your training needs. Contact a campus near you or visit the Northeast Tech website at www.netech.edu.

Adult Education Directors

Dr. Michelle Ferranti - Afton Campus (918) 257-8324
Sara Edwards - Claremore Campus (918) 342-8066
Dr. Michelle Ferranti - Kansas Campus (539) 251-0700
Josh Berg - Pryor Campus (918) 825-5555

STUDENT INTERNSHIP PROGRAM

The goal of Northeast Tech's Student Internship program is to provide a structured and meaningful internship learning experience for qualifying students. Student Internships can be paid or non-paid positions, depending on the Industry Partner. Student Internships are a privilege earned by a student who is completing their academic coursework and developing the appropriate skill level to enter the workforce on a regulated basis. Student Internships must be related to the training received at Northeast Tech, and will provide a unique learning experience in addition to the traditional training that students receive in the classroom, laboratory, and/or shop setting. Along with having the necessary skill level to qualify for a Student Internship, students must also have maintained a C minimum grade in all Northeast Tech courses, shown adequate progress in program coursework, and have a minimum of 90% attendance at Northeast Tech. The student must maintain these requirements for the duration of their Student Internship experience.

The Northeast Tech instructor will work closely with the Industry Partner to create a mutually developed training program with clear and proper expectations for the student's internship duties and performance. The student will receive Northeast Tech academic credit for their Student Internship, and the student's instructor and Industry Partner will discuss details of the student's progress and performance on a regular basis. If a student is terminated or quits their Student Internship, the student and Industry Partner must notify the instructor and Northeast Tech Student
Services immediately.

Full-time and part-time students are eligible for a Student Internship. All required application documents must be completed, signed, and submitted to Northeast Tech Student Services prior to beginning a Student Internship. The student may be required to attend their Northeast Tech program a minimum of one day per week. Other options must be approved by the Campus Director and may be available on a per student basis to meet particular Student Internship requirements. Student Internships for one-year programs may begin February 1, and two-year programs may begin October 1st of the student's second year. Internships for students who have not completed all program requirements will conclude on the last day of April. Students will be required to attend their Northeast Tech program until the end of the school year, unless they have reached their 480 or 960 program hours and have completed all program requirements.

Students who do not comply with Student Internship requirements may have their internship privileges revoked. A copy of the Student Internship requirements and forms is available to the student in the Student Services Office at each Northeast Tech campus. For students receiving financial aid, a copy of the completed Student Internship forms must be submitted to the Financial Aid office.

AUTOMOTIVE COLLISION REPAIR TECHNOLOGY

The auto collision repair specialist is a skilled craftsman who uses technical artistry to reconstruct automobile bodies that are damaged through accident or corrosion. Career opportunities include body man, painter, body shop foreman, dealership service manager, custom repair and painting specialist, and industrial auto assembly technician, among others. Northeast Tech is proud to be an I-CAR Certified Training Facility.

AUTOMOTIVE SERVICE TECHNOLOGY

As technology advances and motor vehicles become more complex, the training needed to service them must keep pace. This performance-based program combines classroom study with practical hands-on training to help the student acquire the skills needed to pursue a career as a general or specialty mechanic, an operator of a service station or parts store, a service advisor, or fleet superintendent, among other jobs.

BUSINESS COMMUNICATIONS

Students are offered a choice of office specialist and office clerk pathways. The opportunities for creative job placement upon completion of this program are endless.

CNC MACHINING

CNC Machining is the use of computer-based software tools that assist engineers and machinists in manufacturing or prototyping product components. This makes it possible to manufacture physical models using computer-aided design (CAD) programs. CNC Machining creates real-life versions of components designed within a software package. Traditionally, CAM has been considered a numerical control (NC) programming tool wherein three-dimensional (3-D) models of components generated in CAD software are used to generate CNC code to drive numerically controlled machine tools. CNC Machining functions have expanded to integrate the skill more fully with CAD/CAM/CAE PLM solutions.

CONSTRUCTION

Construction introduces high school juniors and seniors to the skills needed for a successful career in the construction industry. Students gain hands-on experience building residential and commercial structures while learning essential construction techniques.

COSMETOLOGY

The professional field of cosmetology prepares students to become licensed cosmetologists who provide treatments and services that help customers enhance their personal appearance. Students receive classroom instruction and hands-on training in all areas of hair, nails, esthetics, customer service and shop management. These majors require Oklahoma State Board of Cosmetology registration upon enrollment at Northeast Tech. The Oklahoma State Board of Cosmetology requires a student to be at least 16 years old before they can enroll in a cosmetology class. A copy of the birth certificate and a 2X3 face photo is required for registration.

CRIMINAL JUSTICE

Explore the elements of the United States Criminal Justice System: police, courts and corrections. Apply police procedures including criminal and accidental investigations, 911 dispatch and evidence gathering. Interpret criminal and constitutional law.

CULINARY ARTS

Restaurants, hotels, hospitals, schools, fast food operations, caterers, cafeterias and many other businesses employ food service workers. This career training teaches every phase of modern commercial food preparation and service, and gives students the knowledge of how to prepare and serve meals for both casual dining and upscale events.

DIESEL TECHNOLOGY

Diesel technicians are responsible for the maintenance and repair of engines widely used in the transportation industry to power locomotives, trucks, buses and automobiles. Diesel engines are also commonly used in agriculture, the oil patch, logging, mining and construction industries. This career pathway includes diagnosis and repair of diesel engine systems, suspension and steering systems, brake systems, electrical and electronic systems, drive train systems, heating and air conditioning systems and preventative maintenance inspection.

EARLY CHILDHOOD DEVELOPMENT

Students will learn to create and implement developmentally appropriate activities for young children while cultivating skills by working in an accredited childcare facility.

EAST (Project Management)

EAST focuses on student-driven service projects accomplished using teamwork and cutting-edge technology. EAST classrooms are equipped with state-of-the-art workstations, servers, software and accessories, including GPS/GIS mapping tools, app design and video game design, 3-D animation suites, virtual reality development, graphic design software, video editing and production equipment, and much more. Students identify problems in their local communities and then use these tools to develop solutions, collaborating with civic and / or other groups in the process. For more information on the EAST Initiative, visit www.EASTInitiative.org.

ELECTRICAL TECHNOLOGY

In this program, students learn the skills necessary to work as an apprentice electrician, electrician's helper, maintenance technician, or electrical equipment technician, among others. This career training program combines hands-on training and classroom instruction in the area of residential and industrial electricity. The field PLCs, as they relate to the electrical industry, will also be explored.

ELECTRONIC CONTROL SYSTEMS

Learn design, installation, troubleshooting and maintenance skills of electrical and mechanical systems used in industrial maintenance.

HEALTH CAREERS

The Health Science field is one of the fastest-growing areas of career opportunities today. In this program, students acquire skills necessary to make them a vital part of a health care team, such as nurse assistant, lab assistant, home health care provider, dietary aide, certified clinical medical assistant, physical therapy aide or veterinary assistant. Areas of training offered vary by campus.

HEAVY EQUIPMENT OPERATOR

This program combines classroom instruction with hands-on training to enable graduates to work as heavy equipment operators. Students will earn their heavy equipment operator and forklift certifications.

HVAC

Explore career opportunities in the HVAC/R industry, personal safety and work practices, and personal protective equipment. Students will be instructed in the proper handling of pressurized fluids, handling hazardous substances, hand and power tools, and equipment used to test and service air conditioning.

LINEMAN TRAINING

This 12-month program meets from 8am - 4pm, Monday through Friday, and consists of a combination of classroom coursework and hands-on training. It will prepare students for the high-paying, in-demand job of an electrical lineman. All students must be 18 or older before they begin their coursework. Job placement assistance is available to those who successfully complete the program.

MARINE SERVICE TECHNOLOGY

This career training program, only available at the Afton Campus, provides students with the basic skills and competencies that the industry requires of an entry-level service technician, while also preparing students for the certification courses offered by the engine and boat manufacturers.

PRACTICAL NURSING

This adults-only program is offered in the individualized option format at our Afton, Claremore, Pryor and Kansas campuses, which is structured to allow completion within 15 months. Students progress through nursing theory courses, skills labs, a variety of clinical rotations and utilize simulated learning technology to master concepts. Evaluations include, but are not limited to, tests, written assignments, presentations, return skills demonstrations, projects, concept maps and clinical performance.

Notice to Practical Nursing Applicants

The Northeast Tech Practical Nursing Program is approved by the Oklahoma Board of Nursing. Graduates of this state-approved program are eligible to apply to write the National Council Licensure Examination (NCLEX) for practical nurses. Applicants for Oklahoma/multi-state licensure must meet all state and federal requirements to hold an Oklahoma/multi-state license to practice nursing. In addition to completing a state-approved nursing education program that meets educational requirements and successfully passing the licensure examination, requirements include submission of an application for licensure, a criminal history records search, and evidence of citizenship or qualified alien status [59 O.S. §§567.5 & 567.6]. To be granted a license, an applicant must have the legal right to be in the United States (United States Code Chapter 8, Section 1621). In addition, Oklahoma law only allows a license to be issued to U.S. citizens, U.S. nationals, and legal permanent resident aliens. Other qualified aliens may be issued a temporary license that is valid until the expiration of their visa status, or if there is no expiration date, for one year. Applicants who are qualified aliens must present to the Board office, in person, valid documentary evidence of:

1. A valid, unexpired immigrant or non-immigrant visa status for admission into the United States;
2. A pending or approved application for asylum in the United States; Admission into the United States in refugee status;
3. A pending or approved application for temporary protected status in the United States;
4. Approved deferred action status; or
5. A pending application for adjustment of status to legal permanent resident status or conditional resident status.

The Board has the authority to deny a license, recognition or certificate; issue a license, recognition or certificate with conditions and/or an administrative penalty; or to issue and otherwise discipline a license, recognition or certificate to an individual with a history of criminal background, disciplinary action on any professional or occupational license or certification, or judicial declaration of mental incompetence [59 O.S. §567.8]. These cases are considered on an individual basis at the time an application for licensure is made. Potential applicants to state-approved education programs, with a criminal history, may obtain a determination of eligibility for licensure or certification from the Oklahoma Board of Nursing for a fee. The determination of eligibility for licensure petition can be accessed at http://www.oklahoma.gov/nursing/forms.html.

PRE-ENGINEERING

Supported by the State's Science Technology Engineering Mathematics (STEM) and Project Lead the Way programs, the Pre-Engineering classroom is a place where students use the latest design software, advanced materials and cutting-edge equipment to complete project-based assignments and learn not only how things work, but how they might make them work better.

STEM ACADEMY

This two-year academy is offered at Northeast Tech's Afton Campus. It is supported by the State's Science Technology Engineering Mathematics (STEM) and Project Lead the Way programs and students use the latest design software, advanced materials and cutting-edge equipment to complete project-based assignments and learn not only how things work, but how they might make them work better.

TEACHER PREP

This one-year, college-prep program is intended to help those interested in the teaching profession earn a Teacher's Assistant Certification and gain classroom experience via internship. Enrollment priority is given to high school seniors.

VISUAL COMMUNICATIONS

These career training programs are open to high school juniors, seniors, and adults interested in digital technology fields, and vary by campus. Students will learn project management skills in multimedia, video production, graphic design, web design, animation courses and more. Check with your Northeast Tech campus to see which areas of training it offers.

WELDING & METAL FABRICATION

Individuals who are skilled in welding will find career opportunities in several occupational areas. In this program, students learn the skills necessary to get a good-paying job in the industrial, construction or agricultural fields. The Welding Certification Test will be given on campus to qualifying students as part of the course curriculum.

Build Your Future Through Student Leadership

National student organizations connect you to leadership, service, and success.

At Northeast Tech, we believe that the best way to learn is to do! And that's why all of our students have an opportunity for hands-on competition in their focused career area, even while undergoing training.

We have local chapters of several national student organizations. In addition to state and national competitions, participation in student organizations offers opportunities to participate in community service events and develop friendships with students with similar interests.

The organization a student is eligible to participate in depends on what program they enroll in, but there is something for everyone! For more information, contact your instructor, student advisor or visit www.netech.edu.
